To the Senate of the State of California:

I herewith transmit to your honorable body my second biennial message, with accompanying documents; also report of the State Board of Capitol Commissioners; also report of the Board of Sutter's Fort Trustees. There being but one copy of said report, I respectfully request that you transmit the same to the Assembly.

Also, that the report of the Board of Sutter's Fort Trustees be transmitted to the Assembly, as per request of the Governor.

So ordered.

SECOND BIENNIAL MESSAGE OF GOVERNOR H. H. MARKHAM.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
SACRAMENTO, January 7, 1895.

To the Senate and Assembly of the State of California:

GENTLEMEN: In accordance with constitutional requirements, I herewith submit my second biennial message as Executive of the State, with such recommendations as experience and judgment have suggested as beneficial to the best interests and future advancement of the commonwealth.

During the past four years death has removed from our midst five prominent citizens, who have each occupied the position of Chief Executive of this State. I will name them in their order: Hon. Leland Stanford, Hon. Frederick F. Low, Hon. Newton Booth, Hon. George Stoneman, and Hon. R. W. Waterman. Their memories should be honored and respected, not only for what they were able to accomplish for our people, but for their loyalty and fidelity to the interests of our State. Before leaving this subject I desire to extend in this official manner my congratulations to the State's first Governor, Hon. Peter H. Burnett, whom Providence has spared to witness the marvelous development of California, so ably introduced into the sisterhood of States by him. I would suggest that some suitable resolution expressive of this fact be spread upon your minutes and forwarded to him. It will cheer and brighten the pathway of his declining years, and stimulate our youth to better deeds and a feeling that their real worth will never be forgotten.

On October 30th of last year Hon. E. G. Waite, Secretary of State, died at his home in Alameda. At the request of his family he was laid to rest in the State Burial Ground. The funeral was of a public character, and in recognition of his public services and in accordance with precedents, I recommend that the expense attending his funeral be paid by the State. The claim for that purpose has been recognized by the State Board of Examiners, and should be allowed.

Two years ago I prepared my first biennial message to the Legislature, and in many instances the leading papers of our State published it in full. In this message I shall strive to be as candid. You are at liberty to receive it for what it may be worth, for it is for your benefit. Please bear in mind that four years of constant vigilance is the price paid by me for this information and these suggestions, and that no man living can investigate and verify them during the brief space of time allotted to the average Legislature, in addition to the other pressing demands. Therefore, I shall endeavor to be doubly sure that what I say is correct.

No Governor could have been more kindly treated than I during the last two Legislatures, which encourages me to assist you as far as possible with reliable data. While I regret the fact that many very important subjects were not acted upon, I fully realize that it was due to lack of systematic organization as well as time in which to intelligently handle those important subjects. From all directions come demands for economy and reform. Valuations are decreasing while demands for State aid are increasing. Nevertheless, I shall faithfully point out to you our actual needs as the law now stands, and at the close of this message will give you a candid résumé of our true situation, which must guide your action whatever the results may be.

In view of what has been said I would suggest the propriety of referring this message to a committee, who can segregate and refer the different subjects to appropriate sub-committees with instructions. While this method has not been the rule in our Legislature, it has been adopted in other States, resulting beneficially, and I see no good reason why its adoption here will not prove profitable, as bringing the experience of the Executive into closer relations with the Legislature, which has a right to expect from him all the information and assistance at his command. While it may be an innovation, it will prove practical, as it is the only way that so many important subjects can be considered in so brief a time as that allotted you for your deliberations.

California, like all the States of the Union, has suffered from the financial and business depression of the last two years. In addition to this, the lack of winter rains caused partial crop failure in many sections of the State. Owing to the diversity of our climate total failure of crops is an impossibility. The fruit crop has been uniformly abundant, but the markets indifferent. The timely and abundant rains of this year should insure good crops and tend to restore to us our normal prosperity. While stagnation prevails in some localities, in others business is almost as active as ever. Be assured that on returning prosperity to this nation at large, California will be the first to respond. There has not been a time during the last two years that *bona fide* resident laboring men of the State could not have found employment, had it not been for the rush of unemployed to this State from other localities, who entirely displaced them. While we invite all classes, the tramp and transient laborer are not needed and should in no manner be encouraged. It was most clearly demonstrated that three fourths of the industrial army of last year were from that class, and they should not be encouraged to come.

BIENNIAL REPORTS.

It is gratifying to note the marked improvement in the biennial reports of the several State officers and Boards of Trustees of the various institutions as compared with those made in past years. Condensation and not expansion is now the rule. The result has not only been successful financially, but has been the means of causing these reports to be sought after and read. Many of them are replete with valuable information touching the varied interests of the State, and should be, as they now are, couched in language plain, simple, and clear.

So many have performed their work well that it would be invidious to make selection for comparison. There are a few, however, notwithstanding my suggestion to the last Legislature on this subject, who have evidently forgotten the enormous cost of printing their productions, notably the "Commissioner of Labor Statistics." This report evidently shows great painstaking in its compilation. It contains 282 pages of solid legal-cap type-written matter and 93 pages of large table sheets of statistics. Examination of its pages evinces laborious research; but the question arises, is it of a character worthy the cost of publication? It has just reached me at a time when I am least able to give it the intelligent consideration which probably it deserves. Too late to place it in the hands of the printer, it could hardly be expected that I should read it in manuscript. This is to be regretted, as failing to see the necessity for this office, I might have found within its pages reasons for its continuance had the report been in proper form for critical examination. The manuscript is in possession of the Board of Examiners, and if desired, can by your order be transmitted to the State Printer for publication.

STATE INSTITUTIONS.

I have made it a rule during my incumbency in office to personally visit and inspect the several institutions directly under control and management of the State. In each instance, visitations have been made without warning, and it is gratifying to state that they are all conducted in every way worthy of commendation. Expenses have been curtailed within the lowest estimates, and while parsimony has received no encouragement, extravagance has been checked. In my appointment of trustees, I have endeavored to place only those in charge whose character and standing were beyond question, and whose business capacity insured economical administration, and the results have fully justified my selection.

UNIFORM SYSTEM OF ACCOUNTS AND REPORTS.

For a proper understanding as to the financial management of our public institutions, it is absolutely necessary that a systematic and uniform method of keeping accounts should be established, particularly so with institutions of a like character, such as our Insane Asylums, State Prisons, etc. The irregularity at present existing in this direction leads to confusion, and a charge which is rightly understood by the institution making it does not in many instances appear so plainly to those whose duty it is to pass upon it. The Board of Examiners, the auditing board of the State, should be empowered by statute to enforce such action, and cause every State institution to conduct its monetary transactions on a uniform basis.

DEAF, DUMB, AND BLIND INSTITUTION.

This institution is a credit to our State, its management worthy of all praise, and the purpose of its creation completely carried out. No one can visit it without recognizing and acknowledging its benefits. It certainly is gratifying to me to speak so highly of

its usefulness and management, but it is because I believe it is merited. I have made two visits to this establishment and carefully inspected its workings and financial conduct.

The last Legislature appropriated \$75,000 for an additional building. It is one of the most complete and economical erected during my administration. Its future wants will be found in the report of its Board of Directors.

ADULT BLIND.

I have made two visits to this institution. Both were somewhat limited, yet I believe that I have a fair knowledge of its work and methods. There are about one hundred and twelve inmates engaged in the manufacture of brooms. The home is under the supervision of Mr. Joseph Sanders, a blind man, formerly in the institution as a teacher. The wisdom of placing a sightless man in so responsible a position has been the subject of much controversy, and a division of the Board on that subject has been the result—three being in favor of retaining Mr. Sanders and two emphatically opposed. At my request a legislative committee of investigation was appointed, and its report exonerated Mr. Sanders and those supporting him for the position.

This has been an unfortunate disputation, and, as far as I have been able to learn, more or less personal and local in its effect. Personally, I believe Mr. Sanders to be a remarkably efficient man, considering his infirmity, and one deeply interested in the success of this institution. The mere question of financial success should not supersede the charitable objects for which it was instituted. It has proven nearly self-supporting, and, I believe, will be entirely so, under favorable auspices.

A demand of \$10,000 extra for maintenance will be asked, together with sufficient money to purchase additional ground, both of which should be carefully considered. The latter is imperative. The fact that these unfortunates are striving to become self-supporting, warrants encouragement at the hands of the State, and it is to be hoped that proper assistance will be granted them.

HOME FOR FEEBLE-MINDED CHILDREN.

This is another of our charitable institutions of which the State may justly feel proud. One can scarcely conceive what judicious training, thoughtful experience, and unselfish, patient love can accomplish with such unfortunates. A visit to this home was made, and it is with pleasure I commend the management under Dr. Osborne and his untiring and faithful wife. Their efforts in behalf of the deplorable inmates are worthy of more kind words than I can express in this brief statement.

PRESTON SCHOOL OF INDUSTRY, AND WHITTIER STATE SCHOOL.

The Preston School was formally opened for work on July 1, 1894. Its objects embrace about the same class of work as Whittier. The home is located at a most attractive spot, and is susceptible of being made one of the most beautiful in the State. The Board has appointed as Superintendent Mr. E. Carl Bank, a man educated to that work, and is in every way a most fortunate selection. His report to the Trustees is brief and concise, and contains several practical ideas. His suggestion as to the amendment of the law is pertinent and should not be neglected. (See page 10 of report.) I most earnestly urge that you read the same. The appropriations asked for are necessary and should be considered. The members of this Board are worthy of confidence, and their interest in the success of the school commendable. I deem the work of these two schools of the utmost importance to the interests of our people.

The Whittier School has proved its usefulness. Certainly its educational management has shown what judicious training can accomplish with such a class of offenders, who, if confined in our State prisons, would never offer promise of reformation. The last Legislature contemplated remedying a defect in the organic law, but evidently erred in its construction. The report of the Board will fully advise you thereof. It is to be regretted that so efficient a Superintendent as Dr. Walter Lindley could not be retained, for he had proved himself the natural friend of those committed to this institution. The Board was fortunate in procuring so able a successor. This institution is in efficient hands, who have managed its affairs with skill and care.

INSANE ASYLUMS.

All of these asylums are under able management, and thorough inspection and investigation satisfy me that they are in better condition than at any time since their organization. The expense to the State of supporting these establishments is certainly very great, and the burden an onerous one on the taxpayers. I do not see how this can be remedied, except by either a diminution of the force employed or a reduction in the pay of the employés. I am not prepared to say that either is desirable or warranted. The expense of maintenance is economically administered, and but little saving, if any, could be accomplished in that direction.

STATE PRISONS.

I feel warranted in saying that these institutions have never been more acceptably managed than during the last four years, and equal credit is due to all connected with them, and I believe that every effort has been put forth to subserve the interests of the State.

The report of the Board, which also contains the reports of Wardens Hale and Aull, is replete with valuable suggestions, and should be most carefully considered. The suggestion as to consolidating the two prisons at Folsom is highly important. San Quentin Prison is old, and if continued, should at once be rebuilt. The cells so long in use are naturally saturated with all the poisons incident to their use. Humanity at least demands something more modern. I am informed that the entire plant can be transferred to Folsom at a cost not exceeding \$150,000, and the sale of the land would probably more than equal the cost. With the extra expense at San Quentin for power, lights, and water alone, will pay for this outlay in five years, to say nothing of the expense of two managements instead of one. At Folsom there is standing idle a water power unexcelled in the State, and by the purchase of a few more acres of land, all the farm products necessary for the prison can be produced. These prisons should certainly be made self-supporting, if not profitable. We have so many dependents to care for, why not permit the criminal class to care for themselves, as well as help to care for others? Director DePue's suggestion on page 7 of the report, as to the classification and separation of the hardened from the lesser criminal, should be carried out. The Board has full power now, and no legislation is needed for this, when proper accommodations are furnished.

NORMAL SCHOOLS.

The reports of the three Normal Schools show the excellent condition which they are in, and the statistics exhibited prove their utility. Every year increases their standard of proficiency, which is manifested by the advanced superiority of the teachers of our public schools who have graduated from them.

The liberality of the State toward extending educational facilities is unequalled by any of our sister States, and she has received great commendation from those whose lives and abilities have been spent in the cause of education.

An appropriation of \$40,000 was made by the last Legislature for an additional building at San José, which renders that institution complete and sufficient for all practicable purposes for many years to come. A like appropriation, and for a similar purpose, of \$75,000, was made for the Normal School at Los Angeles, and its wants are now well supplied.

The financial management of these schools, through their several boards of trustees, merits approval, and their economic administration entitles them to praise.

STATE UNIVERSITY.

I desire to call your attention to the pressing needs of this great educational institution, and I know of no more effective way of accomplishing it than to quote what Dr. Bonté and President Kellogg have just stated to me.

"These very exigent demands come to us, as will be seen, from the scientific side of the University, and the University cannot keep pace with the growth of science, particularly applied science, without a knowledge of which our people will fail to see the use of a University and send their sons elsewhere, unless we are provided with the means of instruction.

"The Regents and Faculties have long given anxious thought to these matters, and the Finance Committee eighteen months ago formulated a report, after four years of discussion, which was submitted to and approved by the Board of Regents. It is as follows:

"The fact is, the University, in response to a great public demand, is expanding in every direction, and the appeal from almost every department of the University for more room and greater facilities is emphatic and urgent.

"The construction of a *large building*, that will afford room for the educational departments, now cramped and crowded in unsuitable quarters; that will furnish *space for the classification and display* of the very valuable collections now concealed in boxes or stowed away in lockers, and which should be placed in a properly arranged museum; that will permit the shelving of more books and supply room for study and reading in connection with the increasing library; that will enable a *large audience* to be seated in a well-lighted, warmed, and ventilated auditorium; and in which suitable *fire-proof vaults* can be constructed for the preservation of the papers and archives of the State University, now scattered in insecure places in the various buildings; and where also may be provided suitable and contiguous rooms for the administrative officers of the University—such a building should be erected without unnecessary delay as an economical measure. And as it will cost probably \$500,000, this sum should be asked for from the Legislature for this purpose, to be expended in two years; and relieved of this strain the income of the University would suffice to carry on the current work."

"Further anxious discussion since the date referred to has confirmed the conclusions reached and expressed in the foregoing report.

"The professional colleges located in San Francisco are equally embarrassed for lack of accommodations. Two Legislatures have approved of their wishes, one passing a bill appropriating \$80,000 for the use of the Medical Department, and the second passing a bill appropriating \$250,000 for the construction of a building for the joint use of all of said colleges.

"Unfortunately the exigencies of the times, in the opinion of the Executive of the State, required a veto, and the appropriations were lost to the University. And now these wants are growing in degree of momentum which can no longer be resisted.

"The University at Berkeley needs an appropriation of \$500,000.

"The professional colleges in San Francisco need \$250,000.

"We desire to lay before your Excellency the facts. We make no argument, except to say that we must receive aid, or fail to do the work put upon us by the State."

A careful investigation will demonstrate to your honorable bodies that it is a true representation of their needs, and it is put none too strongly. The University is under excellent business management, and it is to be hoped that due regard will be paid to their requests.

In addition to the ordinary duties devolving on this institution, the last Legislature abolished the State Board of Forestry, transferring its duties and labors to the University. In a letter addressed to me under date of December 8th ult., Dr. Bonté, Secretary of the University, says:

"I beg leave to submit the following suggestions:

"1. The Legislature should provide for the following deficiencies: An appropriation of \$915, allowed by the State Board of Examiners; a further appropriation of \$1,545, to continue the work from January 1, 1895, to July 1, 1895.

"2. The stations transferred to us are that at Chico and the one at Santa Monica. These will require an appropriation of \$10,000 for two years.

"3. An additional station should be established at Mt. Hamilton to cover the needs of similar altitudes throughout the State. This middle-mountain station is deemed of very great importance, and will cost \$5,000 for two years.

"Money enough should be provided to conduct the work properly, else it should be abandoned."

SECRETARY OF STATE.

The report of the Secretary of State is a full statement of what that efficient officer has done in the interest of the Capitol building.

I would call your attention to what is therein stated in reference to increased appropriations for postage and expressage. The demands on this office for printed matter and the continually increasing distribution of reports, statutes, legislative journals, etc., necessitate additional means to enable him to discharge the duties of the office enforced on him by law. I also recommend the passage of an Act creating "a revolving fund for the purchase of ballot paper." As the law now is, a direct appropriation is made for that purpose, and the amount required for each general election is a matter of guess-work and is invariably under the estimate. This leaves a deficiency, and with no time to contract for a supply, advantage is taken by dealers, and an enhanced price is the result. By permitting this official to use the money received from the sale of such paper in continued purchases as required, there would always be money on hand to enter the markets with a certainty of cash payments.

On the death of Mr. Waite I appointed Mr. Albert Hart, a gentleman well known in the State, and who has occupied many prominent and responsible positions.

CONTROLLER'S REPORT.

For a proper understanding of the financial condition of the State it is absolutely necessary you should carefully read this report. Without that knowledge which its contents reveal it is not possible to give intelligent consideration to the business management of the State's fiscal affairs. This report, in connection with that of the State Board of Examiners, is the most important of any which will be presented for your review and deliberation.

Particularly do I call your attention to the suggestions on page 9, as to annual reports of his office; pages 12 to 18, as to resources and per cent of receipts and expenditures. His judicious remarks on the exhaustion of the General Fund (page 18) but affirm what I have so often expressed, that you should familiarize its ideas for proper precaution in legislation. There should never be a deficiency in that fund, and if these intimations are acted upon there never will be. The cause of such exhaustion is the pernicious practice of making appropriations immediately available that should be compelled to await the levy and collection of the revenue to meet them, without interfering with the fixed charges of the State. Remove the cause and this baneful effect will disappear.

I also call your attention to his very clear and sensible remarks in the matter of the sale of property for delinquent taxes, to be found on page 26 of his report. I vetoed a bill emanating from the last Legislature on his statement of its effect on this subject. His opinions thereon are based on practical knowledge and should be read.

On page 33 he has given full expression on the question of estimate of expenditures, which I trust the Committees on Ways and Means and Finance will critically examine, for they have been most carefully considered. His honesty and intelligence in this respect have won my respect and confidence and should win yours.

As to the Commissioner of Public Works, mentioned on same page, permit me to say that the intention, as reported to me at the time of the approval of the bill creating the commission, was that the same should cease with this Legislature, and that its objects would be fully attained by being able to lay before your honorable bodies a feasible scheme for a systematic plan of reclamation that should be uniform in its effect, without further expense to the State at large.

The request made by this department for additional facilities in the matter of filing away the documents, vouchers, and other papers constantly and continuously accumulating, is one that is imperatively needed. Every labor-saving device should be allowed

all the officers, especially the Controller. The reasons given for this requirement are cogent, and I earnestly recommend an appropriation sufficiently ample to answer this most urgent necessity.

I cannot close my remarks without publicly acknowledging my thanks to Controller Colgan, his worthy deputy, and his efficient clerks for the promptness and readiness exhibited at all times in answering the calls of my department. I am aware I have very often trespassed on their patience, and tested their knowledge on matters pertaining to their respective positions, but I have never found them wanting in either.

STATE TREASURER.

There is little that I can suggest to you at this time, in reference to this office, that I did not say to the last Legislature. Treasurer McDonald has justly earned an enviable reputation in the discharge of his responsible duties. On pages 4 and 5 of his last report will be found his recommendations, and as they are concisely stated, I prefer that you read them in his own language. I respectfully ask their careful consideration.

SURVEYOR-GENERAL.

The report of this department is chiefly of a statistical character. But one recommendation is made, relating to foreclosure suits for delinquent interest on State lands. There is much force in the reasons given, and concurring in the opinion of the Surveyor-General, I think its importance warrants your attention.

ATTORNEY-GENERAL.

This report evidences a great increase of business in this department. Both civil and criminal dockets bear testimony to the labor imposed upon this officer, but he seems to have kept up with it. The question of the State's indebtedness for the payment of the Indian War bonds of 1851-52 is worthy your attention. Financially viewed, it is a serious matter. His remarks on "fishing in State waters" (page 21) and those on the "loan associations" (page 23) demand more than a passing notice. I fully concur in his views regarding the necessity for the passage of a uniform fee bill. This is a very important matter and demands legislation. The report as a whole evinces careful examination into the subjects treated.

I am of the opinion that this officer should be an appointed one. The legal adviser of the State's officials, and one of greatest importance to the Governor, should be filled by one in whom he could have the utmost confidence and upon whose judgment he could, with safety, rely. The best legal talent would then be called into requisition, which should be correspondingly remunerated. To make this change would require a constitutional amendment, which, if passed by you and adopted by the people, would not affect the tenure of the incumbent.

SUPERINTENDENT OF PUBLIC INSTRUCTION.

The report of this able officer is replete with useful information, which demands consideration. No subject appeals more strongly to the American heart than does the progress of education, and our people never complain of the tax levied for its promotion. California may justly be proud of her public school system. When we examine the statistics of other and older States with a population rendering ours insignificant in comparison, we may well be astonished at the information that over six million dollars are annually spent in the support of our primary and grammar schools. Words fail to express any higher estimate of the intelligence and patriotism of our people.

Notwithstanding the generosity of the State in this direction, the report shows (see page 17) that over 63,000 children failed to take advantage of its liberality. Including this number are many under the school age, and consequently cannot accept its advantages. Still there are thousands who, growing up in ignorance and idleness, are but aiding the increase of criminals. A compulsory education law is imperatively needed. The States of New York and Ohio have excellent laws on this subject, and with some modifications might be made available here. Our present law has proven inoperative. I therefore earnestly recommend attention in this direction. Other suggestions are made in this report, which I commend for your deliberation.

SUPERINTENDENT OF PUBLIC PRINTING.

This office is now an elective one. I doubted the wisdom of making it such; but as no constitutional reasons existed for a veto, I gave my assent to the bill. The State was fortunate in the election of the honorable gentleman who will supervise its interests during the next four years, he having already given ample proof of his ability to manage so important and costly a department. He will now be held personally responsible for its economical management. The report of the Superintendent gives in detail the expenses attached to this establishment. You will see that the cost of printing for the forty-fourth fiscal year amounted to \$150,409 48, the Legislature of the thirtieth session alone costing \$67,574 93. The knowledge of this enormous expenditure may probably lead to retrenchment at your hands.

Another means of curtailment might be had were all the institutions which are self-

supporting required to pay, from their incomes, the cost of printing their own work. Each department, being then made directly responsible for its expenditures, would be more careful in its demands, and the saving to the State would be about \$15,000 per annum.

ADJUTANT-GENERAL.

From the Adjutant-General's report it will be observed that there are on the rolls of the National Guard of California 5,290 officers and men, which includes 325 officers and men of the Naval Battalion. As his report appears to have been prepared with much care, I would respectfully call your attention to it for the details pertaining to that department.

I cannot too highly commend General Allen's faithful attention to his department, and especially for his watchful care of the funds placed at his disposal.

At my request, he, on assuming office, took an inventory of all the State property, as far as it was possible to do so, and I believe he will be able to leave to his successor an intelligent account of its disposition since that time. It was found in disorder when he came in, and I trust great improvement in that regard will be observed. I have in all ordinary matters pertaining to that department relied implicitly upon his suggestions, opinions, etc. His report will furnish you with ample information regarding the operations of the Guard during his term of office, and especially during the last two years.

Owing to the great stagnation in all classes of business, which naturally caused a deep-seated feeling of unrest and dissatisfaction in the minds of many of our people, during the last two years the Guard of the State has many times been called upon to assist the civil authorities in maintaining order throughout the State, and I am pleased to say that with but a single exception its efficiency could not be questioned. While the aggregate cost to the State for this service is large, I feared that it would far exceed the amount asked for, and those entitled to it should be credited with loyalty to the interest of the State, and I beg you to care for them without delay. Remember that the majority of the rank and file is composed of young men who depended upon their daily earnings for their support, and while in service were deprived of the same. Many of them have lost their situations by reason of having been called into active service. Do not assume that because no lives were lost and no property was destroyed, that this important arm of the Government is useless, for the very fact that 5,290 armed men stood ready to assist in the enforcement of the law made such a result possible. The Guard of this State is a creature of the statutes, and you should exercise extreme caution in framing laws for its government. It has never been called out by me except to assist the civil authorities as provided by law.

YOSEMITE VALLEY AND MARIPOSA BIG TREE GROVE.

In June, 1891, I made my first official visit to the Mariposa Big Tree Grove and Yosemite Valley; again in June, 1892, and a third in 1894. At my first visit, I was much disappointed in the appearance of both, not at their natural beauty, for tongue nor pen can properly portray them and they must be seen to be appreciated, but at their apparent neglect. I found at the Big Tree Grove the ground covered with a mass of fallen timber and undergrowth that reminded me of a natural and beautiful orchard filled with prunings and noxious weeds. I am pleased to report that the Board has removed all these in the upper grove, and it is to be hoped that the lower grove will soon receive the same treatment, for it is indeed a wonderfully attractive spot. In the Valley I found as great apparent neglect. Dense masses of undergrowth had covered more than two thirds of the floor of the Valley, and if not checked would soon smother all of the original beauty of that enchanting spot. I soon learned that charges of tree vandalism had undoubtedly caused intimidation on the part of the Board. A few hours' conversation with Galen Clark, the guardian, convinced me that tree growth was prolific here and needed checking rather than encouraging, for if the appearance of the Valley could be restored to the same condition as that in which he found it in 1855, its grandeur and beauty would be greatly enhanced.

At our last meeting, at my especial request, he prepared for the Board a report embracing his personal knowledge of the Valley in that respect. It is so valuable and of such importance that I cannot refrain from calling your attention to it. It will be found on page 14 of the report of the Commissioners to Manage the Yosemite Valley and Mariposa Big Tree Grove, and should forever put at rest any doubts upon the subject. I should state, however, that during the summer of 1891, one hundred and seventy-five acres of this undergrowth were partially cleared.

I was in hopes that as much money as possible would be devoted to this clearing process, but the Board deemed the rehabilitation of the old Yosemite Hotel of greater importance, and the entire appropriation and more has been expended in that direction. The hotels are now in good condition, and it is to be hoped that nothing else will prevent the vigorous prosecution of that most needed work, for which purpose, I trust, a liberal appropriation will be made apart from that required for the ordinary contingent expenditures.

WORLD'S FAIR COMMISSION.

On page 4 of the report of this commission will be found my letter addressed to Hon. Irving M. Scott, President of the Board, acknowledging receipt of their final report. In that letter I expressed, though briefly, my earnest appreciation of its work, and my

gratitude to the members thereof for their faithful efforts and the satisfactory results accomplished. I should be obliged to repeat substantially the same things here, were I to speak at all. The commission has returned to the State Treasury about \$20,000, and in view of that fact, and in order to meet the urgent demands for this report, the Board of Examiners has ordered ten thousand copies printed and distributed. This, in connection with the "Resources of California," will prove very valuable documents to those interested in knowing the wonderful and varied productions of our State.

"RESOURCES OF CALIFORNIA."

On page 149 of the Statutes of 1893 will be found an Act empowering the Governor to prepare or cause to be prepared a volume explaining the resources of California, for distribution at the World's Exposition, and granting an appropriation of \$25,000 for that purpose. I appointed Hon. E. W. Maslin to perform the work. After a thorough discussion as to the objects to be attained, to wit: a candid review of our merits, the same was commenced and completed in a remarkably brief period, and so faithfully and intelligently that the entire edition has long been exhausted and a second one issued, and still daily demands are being made upon the Secretary of State, the State Library, and the Executive Department. By direction of the Board of Examiners the book was electrotyped and can be reproduced at comparatively little cost.

I take pleasure in complimenting Mr. Maslin on the result of his labors. I am proud of his work, and feel sure that its liberal dissemination will meet with beneficial results.

FISH COMMISSION.

I have been deeply interested in the facts set forth in this report. It will naturally surprise the majority of our people to know what this Board has accomplished in its special department, as also the vast amount of good that comes to the people of the State through its efforts, to say nothing of the three million dollars as the fish product, which alone is enough to warrant attention. The vast amount of labor and care in the stocking and protecting of our fish is of still greater importance. The Board recommends some important changes in the law, which will be found on pages 31 and 32 of the report. It is, however, to be hoped that the entire report will be read by those who may have this matter in hand, as much attention is given to the protection of game as well as of fish. I would gladly devote more space if it were practicable, but I think that substantial encouragement should be given this Board.

HORTICULTURE AND VITICULTURE.

Horticulture and viticulture are two most important industries of this State. I have carefully examined the report of each and find them replete with valuable information. They are naturally somewhat extended, and I can do no better than to ask you to read them and assist in the work. Their demands are insignificant in proportion to the importance of the industries they represent.

STATE MINING BUREAU.

The Bureau is entitled to great credit for its efficient work and its practical suggestions on the mining industry of our State. Mr. J. J. Crawford, the Mineralogist, has proved himself to be an earnest, honest, intelligent champion of the miners' interests, and everything that could be said in their behalf is strongly set forth in his report.

MINERAL CABINET.

The Act of March 9, 1887, simply provided for the removal of the cabinet from the State Library to a place in the Crocker Art Gallery building, and the trustees to be appointed under the provisions of the Act were only authorized to remove such cabinet. The purpose of the Act was fulfilled on such removal, and further powers on the part of the trustees ceased. The cabinet has been materially enriched since that time, and some provision should now be made giving the same in full charge to the trustees, with such powers as may be necessary for its future care and preservation.

DISTRICT AGRICULTURAL SOCIETIES.

I have been importuned by many citizens who are heavy taxpayers, to request an examination as to the usefulness of these societies. It is strenuously denied by those asking this request that any benefits to the districts result from their existence. Certainly the cost to the State is very great, being \$95,000 per annum. If these societies are really beneficial, and answer the purpose for which they were intended, why should not their support and management be entirely maintained by each district and not by appropriation from the taxpayers, whose interests are not in any way affected? I refer you to the report of the State Board of Examiners for further information on this subject.

STATE BOARD OF HEALTH.

This board is entitled to favorable commendation for the faithful and efficient manner in which it has performed its labors, and I earnestly ask consideration of its report. Its suggestions will be appreciated by every thoughtful person.

BANK COMMISSION.

It is to be regretted that no steps were taken by the last Legislature empowering this commission to enforce the law under which it acts. Could this have been done the great bank excitement in this State might have been averted. The Commissioners had given ample warning to the proper authorities, but were powerless to do more under the law. This is an important matter, and should not be suffered to pass unheeded. The labors of this commission are ably set forth in their report.

BUILDING AND LOAN ASSOCIATIONS.

The last Legislature passed an Act establishing this board. It, like the Bank Commission, is supported without direct tax upon the people, and its objects are similar. Its report presents a commendable degree of earnest, faithful work, and certain changes in the law are deemed necessary in order to enable it to accomplish the object sought. It is to be hoped that due attention will be given to their requests.

STATE LIBRARY.

The report of the Trustees and Librarian shows that the institution is continually progressing, and holds high rank with the older and longer established libraries of other States. The law library is complete, while many valuable additions have been made to the miscellaneous collection. The recommendations of the Librarian meet with my approval, and their usefulness would be increased were his suggestions embodied in statutory form.

I am further confirmed in my opinion, as given in a former message, that itemized bills, other than the purchase of books, should be transmitted to the State Board of Examiners for their investigation. The taxpayer should know how and for what purpose his money is expended. No one department of the State is better than another, and rigid scrutiny in all expenditures should be the universal rule. The payments for the forty-fourth and forty-fifth fiscal years, as exhibited by the Secretary of its Board in his financial statement, aggregate \$42,252 75, and the names of payees, number of voucher, and amount is all the information possessed by the taxpayer. This system of transacting public business is radically wrong, and the law should be altered, placing this institution in the same category and on the same plane as other public officers. Apart from the question as to the honesty of the payments, the partiality extended to one department of the State, as against all others, is unjust. The entire system of checks should be uniform.

CAPITOL COMMISSIONERS.

The report of this commission gives in detail the expenditures incurred in the adornment and beautifying of the grounds, and also shows economic management in the disbursement of moneys intrusted to its care.

I fully concur in the request for appropriations to bituminize the streets surrounding the grounds, particularly as the property holders facing them are desirous of joining in such improvement; and also recommend the granting of the sum asked for the improvement of the grounds lying east of Thirteenth Street.

While the Capitol building proper is under the sole charge of the Secretary of State, I cannot refrain from asking an appropriation in his behalf for the finishing of the dome from the second floor in the same artistic manner as the lower portion. The work speaks for itself, and is of a character warmly commended by every one who visits the building.

I also recommend an appropriation for the tiling of the first floor in keeping with the newly laid one above. I have had an estimate made of its cost, amounting to \$6,000, and a request will be submitted for its completion, which I trust you will see fit to grant.

The adornment of the Capitol should be a matter of State pride. Local feeling should not intervene to prevent it being made such, for though it may, in a measure, benefit the immediate locality, it should not be viewed in any other light than the broad one of its being the property of the whole State, in which every true citizen is interested.

BOARD OF PUBLIC WORKS—DRAINAGE AND PROTECTION OF OVERFLOWED LANDS.

The report of this commission shows that the State of California, by virtue of the Act of Admission and the Act of Congress of September 28, 1850, commonly known as the Arkansas Act, acquired title to all the swamp and overflowed, salt marsh, and tide lands within its borders, estimated approximately at 1,750,000 acres. The lands embraced in the Arkansas Act were granted to the State under the implied obligation that they should be reclaimed. The State has since that time passed various acts, having in view the accomplishment of that purpose, but leaving the work of reclamation to private enterprise. No general system was prescribed by the Legislature, but conditions have enforced the expenditure, by private land owners, in work of reclamation, of sums of money aggregating \$13,783,464, and in addition to this immense sum the State has expended in this direction the sum of \$3,191,588.

It was not, however, until the last session of the Legislature that the State undertook to provide a general system of drainage and protection. This it did by providing for the appointment of a Commissioner of Public Works, and this legislation has resulted in a

full report and estimate for a system of drainage and protection works for the Sacramento Valley. Your especial attention is called to this subject, and I earnestly recommend the passage of such laws as will insure the thorough reclamation and protection of these lands. The State is at least obligated to the owners of lands now in danger of inundation to furnish a general plan of drainage works, and to furnish proper supervision of those portions of private and district works always being constructed, which must in time become parts of the general system that will be necessary to insure safety.

Delayed action in the matter of systematic work in protecting the lands and property now endangered would be unwise economy, as the direct benefit to the State in protecting a large number of acres of productive and valuable land from the danger of overflow, would be adding to the taxable wealth of the State countless acres now practically valueless. This is too great to admit of question.

NAVIGABLE STREAMS.

The importance of keeping open, free from obstructions, the navigable streams of the State, is so manifest, and appeals so forcibly to every thinking person, that it would seem a waste of time to call your attention thereto. As stated in a former message, "Navigable streams are God's free highways, open at all times to the rich and the poor alike—to the raft and flat-boat as well as to the floating palace."

For action in this direction, we must look to our Representatives in Congress; but earnest efforts on your part will materially assist them in their endeavors to secure proper legislation enabling us to acquire the desired benefits and to obtain a just recognition of our wants in this regard.

NICARAGUA CANAL.

The building of this great commercial highway is of such vast importance to the interests of the State that every effort on our part should be extended in aiding its accomplishment. The merchant will find new avenues for his commodities, the vineyardist and horticulturist more markets for their products; the farmer will be enabled to handle his grain minus the great expense now attending his shipping costs. Reduction of freight rates, increase of population, growth of manufactures, advance in all the fields of labor, must follow the success of this enterprise. It is a measure of national significance, and we should urge our Members of Congress to use every honorable exertion to secure for us the benefits which the completion of this great undertaking promises.

SANTA MONICA SOLDIERS' HOME.

This great and benevolent institution, located at Santa Monica through the generosity of the National Government, for the care of the invalid soldiers of the nation, deserves consideration from your honorable bodies.

At the time of its location it was expected that the lands obtained for its use would be ceded by the State to the General Government, as has been done by other States similarly honored. The attention of the last Legislature was directed to that end, and an effort was made to comply with the request. Unfortunately a controversy arose in the Assembly as to whether such cession should contain a reservation allowing the old soldiers to exercise the privilege of voting. For some reason, the bill was not passed. It is to be hoped that this session will remedy this act of injustice. I also earnestly urge the recognition of the reasonable and equitable request of the General Government relative to the cession of the land on which the home is located.

KEEPER OF THE ARCHIVES.

The Legislature of 1889, in my judgment, wisely created the position of Keeper of the Archives, an office that could and should be one of great importance. By the present arrangement, the papers and documents of the State, while somewhat improved by the provisions of the Act, are yet in a very unsatisfactory condition. For some unaccountable reason, the appropriation for the payment of the salary of such officer was not allowed by the last Legislature. This was an error that should be remedied immediately.

BOUNTY FOR COYOTE SCALPS.

I called the attention of the last Legislature to the necessity of repealing the Act of 1891, providing for the payment of a bounty on coyote scalps. No action was taken, and in consequence the sum of \$187,485 has been already paid out, and existing demands against the State amounting to \$195,985 have been presented. For many good reasons this law should be repealed. The State has been shamefully defrauded by the payment for scalps that have been shipped into the State from Oregon, Nevada, Arizona, and Mexico. The law provides that after the scalps are examined by the Board of Supervisors of a county they shall be destroyed by fire, thereby extinguishing all evidences of fraud; and as the Supervisors have no interest in the matter, and simply act as agents of the State, it is manifest that no extra effort has been made to check irregularities, and the Board of Examiners have no means of preventing this swindle upon the State. It is to be hoped that this law will be repealed.

SANTA CLARA FEEBLE-MINDED HOME.

This property was left when Glen Ellen was occupied. When I approved the bill appropriating \$125,000 to finish the latter, I was given to understand that the Santa Clara property was worth about \$40,000. In the summer of 1891 several offers, ranging from \$15,000 to \$18,000, came to me for my approval. I refused them on two grounds: First, the great discrepancy between the reported value and the offers made; second, and more potent, on the ground that it was thought by those in charge of the Whittier School that the girls should be sent away and cared for by a separate institution. If that were to be done the Santa Clara plant, at \$18,000, was the available property for that purpose. It was afterward determined to retain the girls at Whittier, and since that time no offer has been made for this property, and it is still under the management of the same board. It can be dealt with at any time without further legislation.

CODE COMMISSION.

I have been requested by a large number of people to recommend to your honorable bodies the importance of a careful revision of the codes of this State. It is urged that as the present codes were framed prior to the adoption of the new Constitution, many additions and innumerable changes have been made by the Legislature since that time; that it is now over twenty years since the same were adopted; that an intelligent revision would be of incalculable value to all, and that the cost of such revision would be slight as compared with the benefits derived. With the exception of the revision that the codes received in 1880, to make them conform in language to the changes in the names of courts provided by the new Constitution, there has been no attempt at revision since the codes went into effect, January 1, 1873, and it would seem essential that the many laws passed and amendments made to the codes themselves since that date should be codified into a harmonious whole. I would suggest that the Governor be empowered to nominate three capable attorneys of this State, to be confirmed by the Senate, as such commission, under such instructions as your honorable bodies may see fit to prescribe.

PRIMARY ELECTION LAW.

The voice of the people through the ballot, when free from restraint of every kind, becomes their true expression. To render this grand privilege secure is the solemn duty of the law-making power. Expense in contributing to this end, if it but fulfill its purpose, is unworthy of consideration. Our present election law has been thoroughly tested, and so far as I have been enabled to observe, its workings have proven satisfactory.

The system could, however, be improved by the adoption of some method whereby the counting of the votes could be more rapidly performed, particularly so in our larger cities. Suggestions will be presented you, with changes which experience has demonstrated to be necessary, and to which I desire to ask your earnest, serious consideration.

Your attention is called to the urgent necessity of establishing some form of procedure regulating and controlling primary elections. The danger to our government lies in the loose and very often profligate manner in which these elections are conducted, regardless of the rights of communities, imperiling their safety, and entirely under the control of the worst elements of society. Like stringent laws, which protect the voter at a regular election, should shield him at these primaries.

It is absurd to declare that the voter has the right at a general election to vote for whom he pleases, when those for whom he must vote have been placed before him, without giving him an opportunity of declaring his choice. The privilege of nomination is strangled at the birth, and he must follow the dictates of a convention corruptly assembled, or quietly abstain from the use of the franchise. This is an evil growing by what it feeds on, threatening the liberties of the people by debarring them from the free and untrammelled exercise of personal choice.

PARDONS AND COMMUTATIONS.

This subject, if faithfully and intelligently considered, presents one of the most trying duties imposed upon the Executive of the State. The vast number of convicts in our prisons, the utter impossibility of ever being able to know the whole truth affecting any of the crimes alleged, naturally causes any thoughtful Governor to hesitate ere he assumes to exercise the extraordinary power vested in him by the Constitution of the State, whereby he can set aside the legal verdict of the established courts of the land. Fully realizing the grave responsibility resting upon me in that regard, I established a policy which has proven so satisfactory that those who are familiar with it assure me it is a great improvement on all former methods.

In my last message I reviewed this subject at great length, explaining the system I have adopted and the satisfactory results arising therefrom. The Board of Prison Directors has continued to render me valuable aid in the examination of applications for Executive clemency, and I desire to publicly acknowledge their never failing kindness, patience, and courtesy.

The records of my office will show that I have personally examined about 730 cases; that I have sent to the Board 167 cases, all of which were carefully and critically examined by me first, and by them afterwards. In every case that has been returned to me a concise statement accompanying the recommendation has been given. In almost every instance I have fully agreed with the Board's conclusion, and in every case respected its

verdict. The Board has recommended a few and rejected a few that if left to my own judgment might have been different.

I have granted as State Prison cases 27 full pardons, and have commuted or conditionally pardoned 91; of the latter, 8 were Chinamen to be deported. To the authorities of other States, 2; to those who were willing to leave the State never to return, 20. These, upon promise of friends of petitioners who live in other States and in other countries, to care for them if they were permitted to return to their homes. In all, 118 cases. While the sum total is less than a third of the number granted by any of the last four administrations, I feel that all will give me credit for an earnest desire to do justice in every case where actual injustice has been made manifest. The friends of the accused should be made aware of the fact that no Governor can intelligently examine into the merits of such a great number of cases unless he be willing to devote all his time to their consideration.

The records relative to all these cases are systematically kept and reference to each can be had at a moment's notice.

I have also had prepared a general index, which will be found a great convenience, to the pardons, commutations, and reprieves granted, from which at a glance can be found either of the above without the task of a search through the many prison registers which the Governor is required to keep, to ascertain dates, reasons, etc., in granting Executive clemency.

Many reasons are advanced for the excessive number confined in our prisons, but I find it is largely due to two prominent facts: First, our statutes create a large number of State Prison offenses; second, because the Judges of the State, in their discretion, impose excessive sentences, as compared with other States for like offenses.

I would recommend that you pass a joint resolution requesting the Governor to commute every Chinese subject now confined in our prisons, upon condition that he be deported to China at his own expense, never to return. We now have about 150 of these in our prisons, and it would seem to be wise to return them in this manner, if they are willing to go. While the Governor needs no change in the law to empower him to do so, yet such a resolution sanctioning the act would relieve him from assuming the entire responsibility, and apprise the people of the State of its object.

PAROLE LAW.

This law has been in operation for a year, and seems to answer its purpose. At the time of its passage, much opposition was manifested to its enactment. Since testing it, many of the objections have been withdrawn, and, under the stringent rules adopted by the Board of Prison Directors, it promises to result beneficially to all concerned. It certainly acts as a great incentive to the prisoner, and aids in a better maintaining of prison discipline.

The report of the Board on this subject is so full and clear that I recommend its careful perusal and consideration.

CAPITAL PUNISHMENT.

This subject was fully treated in a former message. My opinions on the suggestions therein presented are unchanged, and should you desire to refer to them, they will be found on pages 45-47 of my first biennial message. Since the adjournment of the last Legislature, I have commuted two death sentences to imprisonment for life. One of them, the case of John McNulty, upon the merits of the case, and the other, Anton Vital, upon the information of Warden Hale, of San Quentin, that the prisoner was hopelessly insane, which fact was confirmed on examination by Dr. Clark, of the Stockton Insane Asylum, Dr. Gardner, of the Napa Insane Asylum, together with the resident physician of the prison. Their report was most emphatic as to his incurable dementia. Therefore, under the law, without regard to his guilt, the commutation was granted. All other applications have been denied.

Those most familiar with the actual work and mental anxiety devolving upon the Executive in the consideration of these murder cases, cannot appreciate his position. It is a trying ordeal, for, on the one side are the relatives of the condemned, who, up to the last moment, are supplicating in every known form for mercy, while on the other hand the inexorable demands of the law are to be satisfied.

EXTRADITION.

The law on the matter of extradition as it now stands on our statutes, provides that the State should bear the burden of all expenses incurred in arresting and bringing back fugitives from justice. Experience has demonstrated that radical changes should be made in this direction. Except certain crimes, such as murder, arson, incest, and offenses of like enormity, the county should be made to bear the expense; and for embezzlement, collection of debts, etc., of private individuals and corporations, the charge should be borne by the party desiring the extradition.

I also recommend that the fee of the Secretary of State, for attaching the seal of state to these documents when issued by the Governor, be remitted.

GOVERNOR'S MANSION.

Retiring from office, I cannot be accused of selfish motives in recommending a moderate appropriation for the providing of a residence for future Governors. I am aware such action would have been taken at the last legislative session had I urged it, but the

reasons which prevented me then are rendered inapplicable now, as personal interest cannot be imputed as a motive. Experience has demonstrated its necessity, and while opposed to extravagant expenditures for any purpose, however urgent the necessity, I feel justified in asking a reasonable sum for this specific object.

REPORT OF STATE BOARD OF EXAMINERS.

This most valuable report is replete with information affecting every interest of the State. If the pleadings for economy and the appeals for reform in the management of the financial business of the State are to receive consideration at your hands, they will be found within the pages of that document. I doubt if ever a clearer or more explicit statement of the pernicious system which governs the administration of our State affairs was ever before exhibited. There is not a suggestion embodied therein but evinces laborious investigation and a desire to aid the taxpayer in his endeavor to reduce the burden imposed upon him by extravagant and sometimes thoughtless expenditure of the public moneys. During the last four years, through the efforts of the efficient Secretary of this Board, Mr. Geo. E. Pratt, over \$150,000 has been saved the State. I cannot praise too highly the labors of this officer. I am aware that the general rule for acknowledging fidelity to public trusts and diligent, faithful performance of public duties, is rendered after death. As there are exceptions to all rules, I desire to offer my testimony to his worth and integrity while living.

CARE OF UNFORTUNATES.

In my message to the last Legislature I called attention to the number of unfortunates which were cared for wholly or in part by the State during the one year preceding that date. It was about 19,300, consisting of insane, orphans, half-orphans, abandoned children and foundlings, aged indigent, prisoners, feeble-minded, juvenile offenders, deaf, dumb, and blind, soldiers' widows and orphans, veterans at the Yountville Home, and adult blind. I have examined and estimated the same for the last year, and find there are about 22,300, or an increase over that of two years ago of about 3,000. It is for you to determine whether the State shall continue this work, or ask the counties whence they come to stand the expense.

STATE BOARD OF EQUALIZATION.

This Board, in its report, suggests three important changes in the law. First, that University mortgages be treated like all other mortgages as to taxation, not so much on account of the mortgage itself, or its effects upon the University, but for the great injustice inflicted upon communities where blocks of this property are exempt from taxation and others called upon to make it up. Second, that the mortgage tax be extinguished. The intention of this law, to wit: to protect the borrower as much as possible, has not been the practical result. With no interest limit, the lender not only adds what the tax is, but all he imagines it may be, and the borrower is thereby compelled to pay interest on his tax bills from the day of the loan, to say nothing of the extra expense of administering the law. So far as I can learn, both lender and borrower would be pleased to see this absurdity removed.

An earnest appeal is made for a careful and thorough revision of the revenue laws, which seems to me to be imperatively demanded, and I desire to add my concurrence to their request, satisfied that the reasons urged warrant such action. In asking for a revision of the codes this subject approved itself to my mind.

SHIPPING OF CALIFORNIA.

This branch of our industry, like that of other States of the Union, is controlled by national laws, and is by the General Government taxed for its support. England furnished to America her precedent in admiralty and maritime management and gave us her ideas as to its fostering care. National laws compel ships to hail from some port. Local laws permit their taxation for local purposes at the bailing ports. California has but two natural harbors, San Francisco and San Diego, and they are known to the shipping world, and vessels of this State are almost compelled to hail from them. California encourages almost every other State industry in a most substantial manner. Why should she forget an industry that has so uniformly been protected by all nations of the earth? The navies of the world have recognized the enterprise of California in ship-building, and we should do all in our power to encourage the merchant ship-owners of our State. The State of New York passed a law in 1881, and amended the same in 1892, exempting from State and local taxation all vessels registered at any New York port, owned by American citizens, and engaged in ocean commerce between any port of the United States and any foreign port, and providing for exemption for thirty years on the franchise, earnings, etc., of all corporations organized under the laws of the State for that purpose.

The fact that the great bulk of our registered merchant shipping of the United States is credited to New York, may be due to the liberal tax laws of that State. There is every reason why California should give equal encouragement to the shipping interest, and the passage of a law as liberal as that in force in New York would be of material advantage to the State.

A tax on American shipping tends to drive the vessels away or substitute foreign ones. The abolition of the tax would not perceptibly increase the burdens of other property owners, as many of our ships are registered from Eastern ports and it would tend to attract to our ports ships which now stay away. It would stimulate our trade, improve our general taxable resources, and largely increase the ship tonnage of these two ports. It will take a constitutional amendment to enable any such measure to be adopted here, and a step in that direction should be made by removing all taxation on vessels owned by our citizens which are engaged in ocean commerce between our ports and those of foreign nations; and in addition to this, let it be hoped that the day will come when those harbors can be used as the home of all vessels owned in this State and exempted from unnecessary charges of any kind. The great commercial nations of the earth have ever been interested in this subject for their national good, and why should not our State be willing to lend a helping hand to an industry that can bring the products of the world to our doors?

TORRENS LAND COMMISSION.

The transfer of titles to lands in this State has been regarded by many whose vocation leads in this direction as cumbersome and confusing, and a subject that demands simplification. Concurring in that belief, I approved a bill of the last Legislature (Stats. 1893, p. 121) authorizing the appointment of a commission to examine and report upon the method adopted in Australia, and known as the "Torrens Land Transfer Act of Australia."

I appointed the following-named gentlemen on such commission: Edwin F. Adams, of Alameda; Frank Miller, of Sacramento; Bart Burke, of Santa Cruz; Elliott McAllister, of San Francisco, and R. N. Bulla, of Los Angeles.

As the report of this commission is to be directly submitted to your honorable bodies, I am unable to make any further statement regarding it.

GOOD ROADS.

One of the foremost subjects claiming the attention of the people at the time I assumed the Executive office, I found to be that relating to the betterment of the country roads throughout the nation. It is a subject that has long had my thought, and one in which I take profound interest, since I am convinced it is eminently true that a people's civilization, progressive spirit, and economic methods are largely to be estimated by the character and condition of the highways that are their means of transportation and greatly of communication. It was true of the ancient nations, and the truth has not declined with us because this is a railroad building era. On the contrary, we have been so absorbed in the promotion of the latter industry throughout the United States, that we have lost sight of the necessity of building and maintaining permanent country highways to relate us to railroad systems more economically. Now the matter is so before us as to demand immediate attention, because the fact has been developed that the producer hauling to market, or to a point of rail shipment, a dozen miles over a bad road, is more distant than the producer who is located upon a railroad line a hundred miles away.

It is also apparent to the most superficial observer that our bad road conditions in California are a decided detriment in the matter of inducing desirable immigration and in peopling our rural sections. The home-seeker of to-day demands as one of the conditions of change and settlement, the largest possible degree of the privileges, the refinements, and the advantages of town life, while at the same time he enjoys the independence and free life of rural living.

The construction of good, permanent highways for trunk lines at general cost of the county, leaving to districts the construction of feeder lines, is, in my judgment, the right policy to adopt. The town, equally with the suburb, is interested in the road between the two; every dollar's worth of assessable property in a county is as much the subject of responsibility for road conditions, as is the property of land owners in the country. I have vainly sought for a substantial reason for adhering to the present system, which visits the costs of road building and maintenance upon the farmer and rural land owner alone. It is supported by no more worthy reason than this, "it always has been so."

The amendment to the Constitution, adopted in 1892, relative to county and municipal credit, enlarged the limit thereof to forty years from twenty, the former period. When, however, the last Legislature came to the reformation of the road laws, it did not recognize this constitutional extension solemnly voted by the people, but retained the credit limit at twenty years. This has given rise to confusion, and has greatly embarrassed the friends of road reform. On the one hand they claim that the Constitution governs; that it is a grant the Legislature cannot restrict, since if it can cut off twenty years, it can with equal right restrict to any lesser time, and thus nullify the Constitution. On the other hand, it is urged that the Constitution simply states the maximum period for which communities may, under legislative regulation, pledge their credit after a two-thirds affirmative vote, and therefore the Legislature has the right to prescribe any period within the maximum limit.

I call your attention to the subject that the relation between the Constitution and the law may be harmonized, and I advise that the constitutional extension be recognized in the statute, because it will be a means of bringing the Government still closer to the people, and this is always desirable.

The augmenting agitation concerning good roads led to the first National Assembly for Good Road Promotion, held at Chicago in 1892. It was an eminent success, and was promoted by many of the most patriotic and able minds of the nation. It resulted in the formation of the "National Good Roads League," of which a convention was held at Washington, D. C., in 1893, and received the aid and hearty cooperation of the Federal Government. This was followed by the "National Road Conference," held at Ashbury, N. J., in July last, and will be followed by the "National Road Parliament," at Atlanta, Ga., in October next.

In March, 1893, Congress by Act authorized the creation of a Bureau of Government Road Inquiry, under the direction of the Department of Agriculture. To the head of that Bureau Gen. Roy Stone was appointed by the President. I have been in close communication with Gen. Stone on the subject of road improvement, and have extended him all the aid I could in gathering information concerning road conditions in California, and at his request have recommended an agent to represent him here in the distribution of good road literature, printed by the Federal Government, such as the proceedings of road conventions, road laws of the several States, road building materials in the United States, construction of earth roads, etc.

I am informed that Gen. Stone will visit California during the session of your body. I bespeak for the distinguished engineer such reception as will best forward his inquiries and advance the good road movement in our State.

In the summer of 1893 I gave semi-official sanction to the use of the Executive title in aid of a State Road Convention, which was held at the Capital in September and was the first road conference of State importance on the coast. It had its inception in the public spirit of the Sacramento County Humane Society, and its expenses were borne by the people of Sacramento. It was not fruitless of results of a gratifying character, though it fell far short of the hopes of its promoters. It was a first effort, and if it did no other good it set in motion forces which, I trust, will continue to move until practical results of the most beneficial character are attained. An adjourned session of the convention was held in San Francisco in May, and though profitable, was lightly attended. A second annual session of the organization will be held at the Capital early in February. I have no hesitation whatever in advising your honorable bodies to give it all encouragement and cheer. Its delegates are chosen from among the best citizenship of the State. Twenty of these delegates have been selected by myself to represent the State at large.

I am in receipt, at a late hour, of a letter from Gen. Stone, who, speaking for the honorable the Secretary of Agriculture, urges me to invite your attention to this good road subject, which I had already done. The Secretary adds that information received by him reveals the intention among legislators throughout the Union to give very much attention to the subject of highway improvement at these winter sessions, and that the measures to be considered chiefly will be the "State Aid System of New Jersey," "State Highway Commissions," "Effective Road Laws," "Utilization of Convict Labor," "Width of Wagon Tires," "Discovery of Road Materials," "Substitution of Money Taxation for the Statutory Labor System," etc.

There is such a diversity of opinion, says the letter, on these subjects, and such misapprehension concerning methods best to employ to secure good roads at least cost, that it is desirable that agreement in detail be reached before legislation is attempted, for without such agreement there is danger that nothing valuable will be accomplished, because of the difficulty of harmonizing individual bills. The General, for the Secretary, advises that at the opening of the Legislature a temporary joint commission be erected, perhaps out of the membership of the Legislature itself, with the addition of expert engineers and others who have knowledge of the whole subject, to consider all road propositions, hear all suggestions, and reduce the whole to such form that the matter may be most intelligently handled by your honorable bodies.

As I conceive that such a temporary advisory board may be erected without mentionable cost to the State, and as the Department of Agriculture at Washington advises me that if some such plan is adopted the Federal Government will render all possible assistance, furnish all information at its command, and keep each commission posted as to what each other commission in the several States is doing, I do not hesitate to advise you to create such advisory commission and to reinforce it with a few members distinguished by their knowledge of road conditions and needs, and of engineering science. Of course to accomplish anything such a body, if created at all, should be named almost immediately.

Committing this whole subject to you with conviction of its supreme importance, and believing that road reform lies at the base of nearly all the other great economic reforms affecting immediately the conditions of life and prosperity in our land, I solicit for the whole matter your earnest, early, and profound attention.

FIFTY-CENT LIMIT.

Taxation is always a vital question to the taxpayer. Be it ever so moderate, it is always capable of undergoing reduction.

I was nominated and elected on a party platform which pledged the people that the tax rate should not exceed fifty cents on each one hundred dollars of taxable property. I soon discovered that this rate was a purely arbitrary one to adopt, and left me no definite foundation upon which to estimate the resources to be derived under it. After assuming office, I immediately sought the most reliable sources of information, to wit,

the office of the State Board of Equalization and that of the Controller, and upon these data the valuations of 1890 were adopted, which yielded \$4,982,646, and after deducting fixed charges, as the law allowed, the remainder represented the gross expenditures for permanent improvements. I was then able to furnish every interested legislator with a detailed statement of our financial condition. Notwithstanding this information, it was unheeded, and I was obliged to veto \$700,000 of appropriation bills in order that the limit should not be exceeded. In 1891-92 the valuations were increased enough to reduce the average rate for these years to 44 cents.

A similar course was adopted for the benefit of the last Legislature, with the same results. The valuations of 1892 were accepted as my guide, and they yielded \$6,060,127, and in order to keep within said limit, I was obliged to veto \$1,000,000 of appropriations.

In 1893-94, valuations were sufficiently reduced to increase the rate for those two years to an average of 53.4 cents, making for the four years of my administration an average of 48.7 cents on the hundred dollars. While this is the lowest rate since the State was organized, it should and can with proper legislation be reduced.

All that was left for me to do was to veto still more appropriation bills, in order to reduce; but as I had already vetoed in all \$1,700,000, exceeding in amount that of all the Executives since the adoption of the State government, I could but feel that I had reached the limit in that regard. Let it be hoped that my successor be spared that trying ordeal.

On questions of appropriation the Legislature should act with caution, for it is presumed to be the proper judge of their necessity. Such action would avoid the responsibility so often unjustly thrust upon the veto power for protection.

I have given considerable attention to the methods of performing State work, and carefully observed and noted the defects, and in my message to the last Legislature clearly pointed out many of them.

The question as to whether our people outside of incorporated cities are called upon to pay a greater aggregate of taxes in proportion to actual valuations than those in other States, is debatable and very difficult of ascertainment, and I am not prepared to say they do. I have given the subject much thought, but there are so many contingencies to be considered that it is almost impossible to make comparisons.

But our purely State taxes are much higher than in the average States of the Union. This is to be accounted for in the growing tendency of our people to look to the State for aid in every direction, throwing the burden of responsibility that should be borne by others entirely on her shoulders, thus leaving her, as it were, without a friend.

The constantly increasing number of unfortunates to be cared for is another cause. We have about 286,000 voters in the State, while we support in some manner over 22,000 unfortunates; being in the ratio of 1 to every 13 voters of the State. This is appalling. Are we not by this method encouraging dependency on the part of those that could be cared for in other ways? By this system of unrestricted charity are we not doing more harm than good? That many of these cases will appeal to our better nature none will deny, but will it be gainsaid that, if the respective localities in which these unfortunates live and ask for aid were compelled to answer their demands, investigations as to their deservings would be more carefully inquired into? As it is, no questions are asked, because the onerous load is borne by the State.

California is a miniature United States and our institutions widely spread, which adds largely to our legitimate expenses. The cost per capita of our insane in the three old institutions is less than in any State in the Union. The average is about 38½ cents per day, which includes food, clothing, attendance, in fact all costs outside of permanent improvements, and the inmates are most humanely cared for. So with the State Prisons; the food is good, clothing ample, and all are well treated, and outside of permanent improvements the average is less than 40 cents per day. The Whittier and Preston Schools, the Feeble-Minded, the Deaf, Dumb, and Blind, are, in fact, more than educational in their work, and are thereby more expensive in proportion, but by all of them economy has been rigidly practiced. The costs of commissions and boards are of themselves inexpensive, as only a very few of their members receive compensation for their labors. The objects to be attained by these boards and commissions are what the money is used for, and it is for you to say whether any or all of them can be dispensed with. Those most interested in them consider their work worth all it costs.

The State last year paid for charity, etc., as follows:

Orphans and half-orphans	\$336,000
Aged indigents	460,000
For the insane, about	602,500
For charitable and educational institutions—	
Deaf, Dumb, and Blind	\$55,000
Feeble-minded	50,000
	105,000
Reformatories, to wit:	
Whittier	\$80,000
Preston	35,000
	115,000
For half salaries of 86 Superior Judges	155,000
For transporting prisoners, insane, etc.	60,000
Total	\$1,833,500

To this there should be added some deficiencies in order to meet the required demands upon them. Nearly all this expense in other States is borne by individuals, counties, and municipalities. In other words, the State is relieved or reimbursed in some form for its expenditures in that direction.

The total income of the State this year on the basis of 1894 will be about \$5,728,112. Thus it is plain to be seen that after deducting the \$1,833,500, and the \$2,773,000 paid for our public school system, including Normals and University, there will be left about \$1,121,612 to meet all other expenditures. The Controller's report will clearly define what the other expenditures of the State are, and should be carefully estimated and added to the \$4,606,500, which should represent the fixed charges against the State as the law now stands. Based on a rate of 45 cents instead of 50 cents, it would yield \$5,155,000 and leave about \$550,000. To those who have claimed that the State government could be run on a basis of 25 per cent less than the present cost, let me call their attention to the true situation. On that basis the yield would be about \$4,295,000, which you will see is \$311,500 less than the items embraced in the public school, benevolent, and judicial charges, \$4,606,500.

For your convenience I will give you, as near as I can ascertain, the principal items that will be asked of you for permanent improvements, to wit:

Mendocino State Asylum.....	\$120,000
San Bernardino.....	276,000
Napa.....	Not estimated.
Stockton.....	30,000
Agnews.....	5,000
Whittier.....	73,000
Preston.....	Estimated. 75,000
San Quentin.....	Not estimated.
Folsom.....	Not estimated.
Adult Blind.....	Not estimated.
Deaf, Dumb, and Blind.....	26,590
Building for State officers in San Francisco.....	300,000
State University in San Francisco, Berkeley, and Mt. Hamilton.....	750,000
Amounting in all to.....	\$1,655,590

There will be others which I have not considered and cannot estimate.

If there is one question upon which our people are a unit it is on the subject of taxation. You are their immediate representatives, pledged to respect their wishes, and to keep the rate of taxation within the fifty-cent limit. Therefore, unless you determine to make radical changes in our method of transacting State work you will readily see that it will require every dollar that the fifty-cent basis will produce in order to meet what may be properly considered fixed charges, as the law now stands, notwithstanding the increased income over 1890.

By considering the Controller's report, and the estimates furnished you by the State Board of Equalization, you will see that no permanent improvements can be made unless some of the State's responsibilities are shifted, as heretofore indicated, or the rate will exceed the fifty-cent limit. However unpleasant these facts may be, it is due to you and our taxpayers that they be plainly stated, in order that you may act accordingly, and our people be made aware of the true situation of affairs.

Permit me to say that as to the financial statements above enumerated, I have given them to you for your own convenience. They are believed to be correct; but the means of verification are at your hands, and I would respectfully suggest that you examine the same for your own protection.

I have no apologies to make as to our expenditures. They have all been made according to law, and it is for you to say in what manner they shall be reduced. I have striven to do all that any Governor should be expected to do in that respect.

CONCLUSION.

The hour has arrived when, by constitutional limitation, I must surrender my office to my successor. In so doing, I would be false to myself did I not express my gratitude to the people of California for the many acts of courtesy and kindness which I have received at their hands during the four years of my administration. I entered upon the discharge of my official duties with doubt and fear, knowing and feeling their grave responsibilities. I have endeavored to discharge them to the best advantage to the State, and I believe that I can conscientiously affirm, looking backward on their performance, that, with some trifling exceptions wherein judgment erred, I would not, under the same circumstances, change my course.

To the officers of State and their attachés, with whom my intercourse has ever been of the most friendly character, and I acknowledge the valuable aid and assistance rendered me by the several departments on various occasions.

To the several boards and commissions of the numerous State institutions, I am also indebted for many favors and much useful information bearing on their respective charges.

To those immediately connected with my own department, whose zeal and fidelity exhibited on all occasions in the advancement of my interests will never be forgotten.

It is the breaking up of these ties that causes regret, but I can assure one and all that the friendships thus formed shall be as lasting as life, and with the best wishes for the welfare of each fellow citizen whose rank I shall proudly join, ever ready to aid to the fullest extent of my abilities in whatever may tend to enhance the prosperity of the State, I take my leave, with the earnest desire that success may attend the administration of my honorable friend who assumes my place.

H. H. MARKHAM, Governor.

REPORT OF BOARD OF SUTTER'S FORT TRUSTEES.

To His Excellency H. H. MARKHAM, Governor of the State of California:

The Board of Sutter's Fort Trustees submit the following:

We are pleased to report that the work of restoring Sutter's Fort is completed. The Fort, as now reconstructed, is in form and general proportions the same as the original. The material used in the new work is of the same character as in the old, except where it was necessary to place a more durable material in order to withstand destruction by the elements. While the Fort and adjoining buildings are now complete, it is necessary that an appropriation should be made for improving the grounds and to keep them in order. These grounds consist of two square blocks, the title of which is now in the State of California.

Since the work of restoration began we have found it necessary to employ a guardian to care for and protect the property.

The building and grounds within the Fort should be kept in order, and a proper person appointed to attend to this, and also to receive and admit visitors. A register of visitors is kept in the Fort, and a perusal of its pages will show that Sutter's Fort is a place of interest to people from all parts of the world. It is the desire of the Board to further increase the interest in this historic property by establishing at the Fort a museum, to consist of relics of historic value relating to the pioneer days of California. Some contributions in this line have been received and are now on exhibition.

Some filling of the grounds outside of the Fort yet remains to be done; the balance now in the fund will be sufficient to meet this expense.

We submit the following as items of necessary expense to be incurred, for which appropriation ought to be made, viz.:

Salary of Guardian.....	\$1,200 00
Cement walks.....	1,600 00
Chain fence with granite posts, to inclose grounds.....	2,500 00
Total.....	\$5,300 00

The following is a financial report covering the receipts and expenditures in connection with the restoration and improvement of Sutter's Fort, made within the provisions of an Act of the Legislature, approved March 9, 1893:

Credit to fund by appropriation.....	\$15,000 00
To contracts (Geo. Murray & Son).....	\$11,819 51
Labor.....	293 55
Architect's fees.....	404 15
Material.....	176 70
Watchman's salary.....	880 00
Total.....	\$13,573 91

Summary: \$15,000 00
13,573 91

\$1,426 09 balance in fund (State Treasury) December 1, 1894.

Respectfully submitted.

FRANK D. RYAN, President,
EUGENE J. GREGORY, Treasurer,
W. W. GREER, Secretary,
THOS. FLINT, Jr.,
CHAS. E. HOLLISTER,
Board of Sutter's Fort Trustees.

RESOLUTION.

By Senator Bert:

Resolved, That the second biennial message of Governor H. H. Markham be referred to a committee of seven, whose duty it shall be to segregate and refer the different subjects therein to appropriate sub-committees, with instructions; said committee to be appointed by the President.

Adopted.

The following communication was received from the Governor:

EXECUTIVE DEPARTMENT, SACRAMENTO, CAL., January 11, 1895.

To the Senate of the State of California:

I have the honor to inform you that I have appointed E. L. Colnon, of San Joaquin County, State of California, my Private Secretary, through whom all communications from this office will be transmitted to your honorable body.

JAMES H. BUDD, Governor.

COMMUNICATION.

A communication was received from Federal Labor Union No. 5761, Alameda County Federation of Trades, urging the need of an immediate investigation to the end that the lives and liberties of citizens may be assured and the laws of the State maintained.

Referred to Committee on Labor and Capital, when appointed.

QUESTION OF PRIVILEGE.

President Reddick called the attention of the Senate to the publication of certain articles in the "San Francisco Chronicle" and "Los Angeles Herald," misstating facts and reflecting somewhat upon the amicable relations existing between certain Senators and himself, and particularly conveying the idea that a misunderstanding had arisen

between Senator Androus and himself in regard to the office of Lieutenant-Governor.

He then declared the published statements were void of facts, unkind and misleading, as there had been no ill-feeling existing between those mentioned. No Senator had approached him in regard to what he should do in the matter, and he and all the Senators, so far as he knew, were in perfect accord.

MOTION.

On motion of Senator Orr, the Governor's message was taken up.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, SACRAMENTO, CAL., January 14, 1895.

Upon the question, "Will the Senate advise and consent to the appointment of David W. Weldt as Pilot for the Port of Wilmington and Bay of San Pedro?" the roll was called, with the following result:

AYES—Senators Aram, Arms, Androus, Beard, Bert, Biggy, Burke, Denison, Dunn, Earl, Fay, Flint, Ford, Franck, Gesford, Gleaves, Hart, Henderson, Holloway, Hoyt, Langford, Linder, Mahoney, Martin, Mathews, McAllister, McGowan, Mitchell, Orr, Pedlar, Seawell, Seymour, Shine, Shippee, Simpson, Smith, Voorheis, Whitehurst, and Withington—39.

NOES—None.

APPOINTMENT OF COMMITTEE.

President Reddick thereupon appointed Senators Ford, McGowan, and Arms as a Committee on Temporary Rules of the Senate.

REPORT OF SPECIAL COMMITTEE.

The special committee appointed by the President to determine whether or not the Hon. S. G. Millard had legally qualified as Lieutenant-Governor, through its Chairman, Senator Gesford, reported as follows:

SENATE CHAMBER, January 14, 1895.

MR. PRESIDENT: Your special committee appointed to ascertain whether or not the Hon. Spencer G. Millard has duly qualified as Lieutenant-Governor of the State of California and to report their conclusions to the Senate, have performed the duties assigned them, and beg leave to report as follows:

Section 3 of Article XX of the Constitution of this State requires certain officers, including the Lieutenant-Governor, to take and subscribe the following oath:

"I do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of California, and that I will faithfully discharge the duties of the office of — — of the State of California according to the best of my ability."

This is the only oath, declaration, or test required as a qualification for any office or public trust.

There is no constitutional provision as to where or how such oath shall be taken.

Section 905 of the Political Code provides that the Lieutenant-Governor shall take the official oath in the presence of both houses of the Legislature in convention assembled.

After a careful investigation of the law and the authorities, your committee is clearly of the opinion that the provisions of Section 905 of the Political Code are directory merely and not mandatory; and that it is sufficient if the oath referred to be taken before any officer authorized to administer oaths within the State of California.

This oath was thus taken by Hon. Spencer G. Millard, Lieutenant-Governor, on the tenth day of January, 1895, at five o'clock p. m., and subsequent to the time when the vote for Lieutenant-Governor was opened and published as required by Section 4 of Article V of the Constitution of this State, and said oath, duly certified by W. H. Clark, Judge of the Superior Court of the State of California, for the county of Los Angeles, was, on the twelfth day of January, 1895, filed in the office of the Secretary of State, as required by the provisions of the Political Code of this State.

Your committee therefore conclude that Hon. Spencer G. Millard has duly qualified as Lieutenant-Governor of the State of California.

We herewith submit a duly certified copy of the said oath, and recommend that the same be entered in full upon the Journal of both the Senate and the Assembly.

Respectfully submitted.

HENRY C. GESFORD,
TIREY L. FORD,
GUY C. EARL,
Committee.

DULY CERTIFIED COPY.

I do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of California, and that I will faithfully discharge the duties of the office of Lieutenant-Governor of the State of California according to the best of my ability.

(Signed):

SPENCER G. MILLARD.

Subscribed and sworn to before me, this tenth day of January, A. D. 1895.

W. H. CLARK,
Judge of the Superior Court of Los Angeles, State of California.

STATE OF CALIFORNIA, DEPARTMENT OF STATE.

I, L. H. Brown, Secretary of State of the State of California, do hereby certify that I have carefully compared the annexed copy of the oath of office of Spencer G. Also, that this authentication is in due form, and by the proper officer.

L. H. BROWN, Secretary of State.
By W. T. SESNON, Deputy.

FAREWELL ADDRESS.

Lieutenant-Governor John B. Reddick, President of the Senate, then addressed the Senate as follows:

SENATORS: The official ties which for four years past have united us in our connection with the legislative department of our State government are now to be sundered. But I trust it is only officially that such ties are severed. During these years, on the part of all of us, I am aware strong and lasting personal likings have arisen, so that meeting as strangers we part as sworn friends. It is such knowledge that makes me loath to leave these halls and depart from daily association with you, though having no regrets that my public duties are ended. I shall bear with me into private life the most pleasurable memories of our association together in our official days. The most gratifying recollection that will hereafter come to me shall be, you were and are my friends. What more endearing thought? What more precious memory?

As your presiding officer it was ever my purpose to be just to all and partial to none. I believe I succeeded in so convincing you all. Your political faith never swayed me in according to you the right to be heard in speech as a Senator and servant of the people. In this I found the merit of my conscience and the reward of your approbation.

As your presiding officer, in ruling upon the varied and not infrequent intricate questions involving close distinctions in parliamentary law and practice, I remember but twice was an appeal taken from my decision; and it is with pardonable pride I note that in these two cases the decision of the Chair was sustained. Pardon me if I am egotistic in pointing to the record.

Senators, I recall no session of the Legislature to which the people have looked forward with greater hopes of good legislation than the present. The public pulse is feverish, and a spirit of unrest and expectancy is abroad. Reforms are demanded and economy exacted. Your constituents hope for legislation at your hands in behalf of the whole people, rather than in the interest of individuals or corporate powers. The immediate future of the commonwealth is in your keeping. Wise and just laws will insure its advancement and prosperity, while class or personal legislation may endanger public quietude.

Such being the case, your duties and responsibilities are of the most grave and serious nature. I shall watch, therefore, through the public press, your deliberations and proceedings with an equal degree of interest, as if personally present in this chamber.

I feel assured the public will not be disappointed. That its trust could be placed in no worthier hands than the honorable gentlemen who compose this, the thirty-first Senate of our beautiful State.

I bespeak for my successor the same courteous treatment you have ever accorded me. He has my sympathies in his present state of health, and I can but wish him a speedy recovery from that illness which now possesses him, and such a complete restoration from his enfeebled physical condition as will soon bring him amongst you, to the discharge of the duties imposed upon him by the verdict of last November.

The full fruition of the hopes and ambitions that inspire you, and each of you, is the wish of your retiring President.

Hon. Thomas Flint, Jr., President pro tem. of the Senate, on taking the chair addressed the Senate as follows:

SENATORS: In assuming for the first time the position of presiding officer of this body, I desire to express my sincere appreciation of the high honor you have conferred upon me, and to assure you that I shall use my very best efforts to be fair and impartial toward you all.

No one regrets more than myself the unfortunate illness of Mr. Millard, and I believe I express the sentiment of every Senator upon this floor when I say that I hope and trust that he may speedily recover and be enabled to occupy the position to which the people of this State have elected him.

RESOLUTION.

By Senator Orr:

PRESENTATION OF PETITIONS.

Senator Ford presented the following petition, and asked that same be referred to Committee on Elections, when appointed:

So ordered.

To the Honorable Senators and Representatives in the thirty-first session of the Legislature of the State of California:

Your petitioners respectfully represent:

THAT WHEREAS, It has always been a proverbial expression amongst the people of our country ever since the founding of our government that the "*will of the people is the law of the land*"; and

WHEREAS, Notwithstanding this and other broad claims of our having, in form and in practical reality, a people's government, still the fact exists that our laws do not provide for the legislator or the public to know with certainty the sentiment of the voters respecting *any one separate public question*; and

WHEREAS, Under the laws now governing elections, neither does the system of elections now in use provide a complete nor any means whatever by which the correct sentiment of the people respecting questions of public interest can be ascertained and be made known to the public, and the present system of elections being so expensive

and encumbered with so many details, and that to establish the Referendum into our legislative system, which without doubt the popular will of the people favors, there would then be elections required more frequently, and consequently there would be still greater election expenses incurred than now; but the plan of "Advance Referendum," described in the Columbian Secret Question Ballot System, does not propose, in this connection, to be intended for the purpose of electing nominees to office, nor for making laws, nor for ratifying laws already made by legislation. It is only for the purpose of enlightening or educating the public in the particular respect described; and therefore the purpose is of a different nature from that of electing men or making laws, and it is proposed the plan is much less expensive and a more efficient method for its purpose herein intended, and perhaps may eventually prove to be a better system of election than any other for all purposes of election; and

WHEREAS, Nature's resources have been of late years so greatly developed, causing such vast improved changes in the facilities for transportation of every conceivable nature, most especially respecting the transportation of intelligence, which, together with the many other advantages of modern advancements, and through recourse to our efficient mail service, there can doubtless be an entirely efficient and much less expensive method for establishing the Referendum into our legislative system than by the present expensive election board and ballot-box; and

WHEREAS, To carry the "Referendum" into practical effect completely, there should be (as outlined in the Columbian Secret Question Ballot System) a board of commissioned officers provided, to be at all times in readiness to act in a similar capacity as that of an election board, which, to effect, would require amendments to the Constitution. But doubtless there can be such changes in the present laws and new laws made for the special purpose of accomplishing a system of "Advance Referendum" which would not require any amendments to be made to the Constitution of the nation or of the State, which to do would require years of time to accomplish; and yet such an election board could be provided at all times to be in readiness to act; hence the chief object of this petition is that laws may be provided which will not require amendments to the Constitution of the nation or of the State, but will be such as to take effect and be put into immediate practical use as soon as enacted. For the reason that there is at this time such a state of dissatisfaction and unrest existing amongst the people, chiefly from causes emanating (it is believed by many to be) from a faulty system of representation of the people, which fails to provide efficient laws for securing legislation in accordance to the majority voice of the voters, or even to provide that the voice of the people may be correctly known to the legislator or the public, until verily, our nation is in imminent danger of being thrown into civil war at any moment; and

WHEREAS, It is imperatively necessary that before legislation can be made in accordance with the *will of the voters*, there *must, first*, be provision for the *will of the voters* to be reliably ascertained and made known to the legislator and the public. The means used therefor must clearly set forth that the purpose is solely to thereby educate the public accordingly, and also must needs be entirely separated and apart from elections which place nominees in their official seats.

If the Government can make provision by law, or will at once without delay proceed to endeavor to provide for the sentiment of the voters to be unmistakably known, whether by some improved means or by the present means at hand, whichever bids the fairest to bring the quickest practical desired results, it will go far to appease the suffering masses and lessen the liabilities of a civil war coming upon our nation, and perhaps may be the chief or entire cause of averting such a calamity from occurring.

Therefore your petitioners, having a legal right to the elective franchise, and being residents of the State of California, whose names are hereunto affixed, respectfully and urgently pray that your honorable body will cause a committee to be appointed at the earliest day that it is in your power to do, whose duty it shall be to investigate and report what methods, if any, can be devised that can be made practical for the purpose of obtaining the sentiment of the voters of the State of California respecting public questions, in a lawful and authoritative manner; and to investigate what changes may be devised, if necessary to be made, respecting laws now existing, and also may advise making such other new laws as may seem advisable in order to provide a less expensive and more convenient and efficient method than the present expensive, cumbrous, and inefficient system of election boards and the ballot-box, for ascertaining the sentiment of the voters respecting public questions; and if such object cannot be attained by recourse to our mail service, then to endeavor to so change and amend the present system of election as to provide means by which the sentiment of the people respecting public questions may be ascertained and be known to the public, without necessitating years of time to be consumed for its accomplishment, but as quickly as possible, for the reasons above set forth.

N. B. Only legal citizen-voters of California will sign this petition.

SENATE JOINT RESOLUTIONS.

The following Joint Resolutions were introduced, read by title, and referred to committees, as follows:

By Senator Voorheis:

SENATE JOINT RESOLUTION No. 2.

Relative to the Free Coinage of Silver.

WHEREAS, We recognize constantly the indisputable fact that upon the continued development and working of the silver mines of California and other Pacific Coast States, the prosperity and progress of those States largely depend, and that in the depreciation of the value of that metal by refusing it a proper place in the coinage system of the United States, a vital blow is being struck at all the interests of the Pacific States; and whereas, it is also recognized as a fact that the opposition to silver coinage emanates from speculative syndicates and moneyed classes who seek to embarrass the people of the nation for the advancement of their own selfish ends; and whereas, we entertain the firm belief that the full measure of national prosperity will never be restored by the issue of bonds, and do believe that the restoration of silver to its proper place will bring about lasting prosperity, and having unbounded faith in the power and ability of this nation to replace and maintain silver in its proper position alongside of gold; therefore,

Resolved, That our United States Senators be instructed and our Representatives in Congress requested to oppose every measure to debase silver as money, and to advocate and vote for the free and unlimited coinage of silver in the ratio of sixteen to one.

Referred to Committee on Finance.

By Senator Biggy:

SENATE JOINT RESOLUTION No. 3.

WHEREAS, Any extension of time for payment through the Government of the Pacific Railroad debt by the so-called Reilly Funding Bill or any other bill having a similar object, would entail upon the people of this State the principal burden of discharging said debts, and result only in offering additional benefits upon the private owners of said roads; and whereas, the experience of the past has demonstrated the inability or disinclination of said roads to discharge their just obligations; and whereas, every principle of justice and expediency demands that the mortgage bonds of said roads should be paid or foreclosed at maturity; therefore, be it

Resolved by the Senate of the State of California, the Assembly concurring, That our Senators and Representatives in Congress be instructed to oppose any attempt and vote against any bill to extend the time for the payment to the Government of the Pacific Railroad debts, and vote for a measure to foreclose at maturity the lien of the Government on these roads, and to have them bid in by the Government and maintained as a national highway for the benefit and in the interest of the people, and to enforce against the stockholders of said roads the collection of any judgment for deficiency that may result upon said foreclosure.

Resolved, That the Governor be requested to immediately forward to each of our Senators and Representatives in Congress a copy of this resolution.

Referred to Committee on Judiciary, on motion of Senator McGowan.
By Senator McAllister:

SENATE JOINT RESOLUTION No. 4.

Relative to the boundaries of Yosemite National Park.

WHEREAS, There is now pending before the fifty-third Congress of the United States of America, a bill designated as H. R. 7872, "authorizing, in certain cases, the Secretary of the Interior, with the approval of the President, to alter the boundaries of the Yosemite National Park, a forest reservation in California"; and whereas, such bill does not specify the changes in boundary to be made, but leaves them to the discretion of the Secretary of the Interior; and whereas, the reservation by the Federal Government of the Yosemite National Park was an act of great benefit to the whole people of the State of California, in that the reservation protects the headwaters of the Tuolumne and Merced Rivers and preserves the original grandeur of the Yosemite Valley; and whereas, any alteration of the boundary of the Yosemite National Park should be made only after the fullest publicity to the people of the State of California; now, therefore, be it

Resolved by the Senate and Assembly of the thirty-first session of the Legislature of the State of California, That the fifty-third Congress be requested and urged not to pass the above-described bill; but that any bill looking to the alteration of the boundary of the Yosemite National Park specify the alterations to be made, to the end that such alterations may not nullify the good effects now derived by the existence of the Yosemite National Park; and further be it

Resolved, That his Excellency the Governor be and he hereby is requested to forward to the Secretary of the Interior of the United States and to our Senators and Representatives in Congress a copy of this resolution.

Referred to Committee on Forestry, Yosemite Valley, Mariposa Big Tree Grove, and Fish and Game.

By Senator McGowan:

SENATE JOINT RESOLUTION No. 5.

Requesting Congress to enact a law limiting or prohibiting foreign immigration.

WHEREAS, We are convinced by facts, the existence of which we deplore, that there has been coming to our country for many years past, and now, from various countries, an immigration of the most undesirable class, ignorant of our language and laws, not adapted to our institutions, incompetent to discharge the duties of citizenship, non-assimilative in its character, wholly foreign to every consideration of public good, dangerous to the safety and perpetuity of the Republic, and, in many instances, made up in part of insane, diseased, and criminal persons; and whereas, we deem it wrong, impolitic, and destructive to all those interests which it is the duty and obligation of every loyal American to conserve, that there should exist in our country a class of persons whose cheap labor comes in competition with the labor of our own citizens, native or adopted, thus depriving them of the labor and compensation which they are entitled

to by every law of justice and right; and whereas, we believe that the introduction of a class of immigrants like many that we are now receiving, willing and ready to accept a low standard of wages, will have the effect of lowering the wages of labor, lessening the dignity of the American laborer, and by this means not only injuring our citizens, but, as a consequence, threatening the safety of the nation; and whereas, we are persuaded that the time has arrived in our national life that we have sufficient labor in our own country to develop our many resources, and that conditions have so changed that we no longer need immigrants to settle upon our vacant public lands, or to supply the labor market; and whereas, we entertain the belief that it is the highest and best policy of this country to preserve the labor of the country for our citizens, native and adopted, now here, and that the condition of our industrial classes would be greatly improved, and a higher standard of wages for labor established, if the competition of cheap labor now being received from abroad and compelling American laborers to submit to the force of a factor in the labor market that naturally lessens their independence, was destroyed; therefore, be it

Resolved by the Senate, the Assembly concurring, That our Senators be requested and our Representatives instructed to frame and enact such law or laws as will successfully prohibit foreign immigration, and foreign labor, whether skilled or unskilled.

Resolved, That the Governor of this State transmit, forthwith, a copy of these resolutions to each of our Senators and Representatives in Congress.

Referred to Committee on Federal Relations and Immigration.
By Senator McGowan:

SENATE JOINT RESOLUTION No. 6.

Requesting the laying of a telegraph cable line from Northwest Seal Rock Light-house, in Del Norte County, to Trinidad, Humboldt County.

WHEREAS, The Northwest Seal Rock Light-house being situated in the track of vessels and steamers bound to Oregon, Washington, and other northern ports from this State, and the Government having a signal station at Eureka, Humboldt County, California, the efficiency of the said station would be increased by the establishment of a telegraph cable line to be laid from the Northwest Seal Rock Light-house to the Crescent City Light-house, in Del Norte County, thence to Trinidad, Humboldt County, and from there to Eureka, to connect with the signal station at that place. That the shipping interest of this coast would be benefited by the establishment of such connection between the above-named points, on account of their geographical location for the observation and transmission of weather reports.

Resolved by the Senate, the Assembly concurring, That our Senators and Representatives in Congress be instructed to present to Congress the request of this legislative body, and that the Congress of the United States is urged, to give such aid and encouragement as will insure the speedy construction of such telegraph cable.

Resolved, That his Excellency the Governor be requested to immediately forward to each of our Senators and Representatives in Congress a copy of this resolution.

Referred to Committee on Federal Relations and Immigration.
Also:

SENATE JOINT RESOLUTION No. 7.

Relative to the establishment of a postal telegraph in connection with the postal service of the United States.

WHEREAS, It is of the utmost importance for the business interests that the people of the United States should have cheap communication and transportation, instead of being at the mercy of the telegraph companies; therefore, be it

Resolved by the Senate and Assembly of the State of California, That our Senators and Representatives in Congress be requested to use all honorable means to establish a postal telegraph in connection with the postal service of the United States; and be it further

Resolved, That we cordially indorse the bill recently introduced by Congressman Maguire of this State, having for its object the establishment of a postal telegraph operated and controlled by the Government.

Resolved, That the Governor be requested to forward copies of these resolutions to our Senators and Representatives in Congress, and to the President and Postmaster-General of the United States.

Referred to Committee on Federal Relations and Immigration.

PETITION—(OUT OF ORDER).

The following petition was presented by Senator Voorheis, and ordered printed in full in the Journal:

DALLAS BOARD OF TRADE,
DALLAS, TEXAS, January 12, 1894.

To the Honorable Secretary of State for the State of California, Sacramento, California:

DEAR SIR: This Board of Trade, perceiving the deplorable effects all over the West and South resulting from the practical enslavement of thousands of our most energetic citizens, is exerting itself in attempting some measure for their relief, and is daily receiving assurances of aid from our sister States.

Not only public policy, but the highest considerations of humanity and justice require that those unfortunate and helpless debtors, many of whom have spent their fortunes in building our cities, opening our mines, erecting factories and works of public improvement, should have their indomitable energies released, to the end that the country may again receive benefit from them.

It will be observed that, in the great majority of cases, the insolvency of the debtor has been occasioned by circumstances entirely beyond their control, and such as no human foresight could have guarded against.

The ruinous over-speculation in Argentina and Australia, occasioned by the reckless improvidence of English investors, especially the Barings, reacted on England, and, in turn, visited their misfortunes on us. This, cooperating with the vicious congressional legislation, which so fatally affected the mines and grain fields of the West and the cotton of the South, has superinduced widespread loss, fearful depreciation in values, and a deplorably hopeless and continuing insolvency.

It is almost criminal injustice to perpetuate the slavery of great masses of our fellow men, when a reasonable Bankruptcy Act would restore to them their commercial liberty and permit them to again commence the struggle of life.

We presume to write you, invoking your good offices and influence in bringing some pressure to bear upon the Senate of the United States, looking to the speedy passage of the bankruptcy bill now pending before it, and we respectfully ask you to get some well known Representative who may be in sympathy with such a measure to introduce a joint or concurrent resolution similar to the one we inclose herewith, which is a copy of a resolution that will be introduced in the Texas Legislature to-day, and we have every reason to believe that it will pass by unanimous consent.

The bankruptcy bill practically has the right of way on the Senate calendar, and is liable to be taken up at any time. In view of this fact, it is of the utmost importance that prompt action be had in the premises.

Sincerely hoping that your assistance may be had in this most beneficent measure, we remain,

Yours respectfully,

LEO WOLFSON, Secretary.

JOINT RESOLUTION.

Joint resolution requesting the Senate of the United States to pass a bankruptcy bill.

WHEREAS, The disastrous financial panic which has prevailed in the United States for some three years has visited bankruptcy and distress upon thousands of unfortunate debtors, and their hopelessly insolvent condition merits the consideration of the National Legislature; therefore,

SECTION 1. Be it resolved by the Legislature of the State of Texas, that the Senate of the United States be earnestly and respectfully requested to pass at the present session a Bankruptcy Act that shall give relief to the large and daily increasing debtor class now existing throughout the country.

SEC. 2. That the Senators from the State of Texas be requested to use every effort to speed the passage of the desired law.

SEC. 3. That the Secretary of the State of Texas transmit, immediately upon its passage, this joint resolution to the Senate of the United States.

REPORTS OF STANDING COMMITTEES.

ON AGRICULTURE, HORTICULTURE, VINICULTURE, AND VITICULTURE.

SENATE CHAMBER, SACRAMENTO, January 21, 1895.

MR. PRESIDENT: Your Committee on Agriculture, Horticulture, Viniculture, and Viticulture, to whom was referred Senate Bill No. 249—An Act to add a new section to the Penal Code of the State of California, to be known and designated as section three hundred and ten, defining cruelty to animals and providing for its punishment—have had the same under consideration, and respectfully report the same back, and recommend that it do pass.

ON FINANCE.

SENATE CHAMBER, SACRAMENTO, January 22, 1895.

MR. PRESIDENT: Your Committee on Finance, to whom was referred Assembly Bill No. 290—An Act to create a special commission for the purpose of examining into the revenue laws of this State, and reporting to this session of the Legislature a bill for the revision of such laws, and making an appropriation therefor—have had the same under consideration, and respectfully report the same back, and recommend that it do pass as amended.

AMENDED BILL.

Your Finance Committee, to whom was referred Assembly Bill No. 290—"An Act to create a special commission for the purpose of examining into the revenue laws of this State, and reporting to this session of the Legislature a bill for the revision of such laws, and making an appropriation therefor"—respectfully report, recommending that section five be stricken out, and the title amended by striking out the words "make an appropriation therefor," and that the bill do pass as amended. The Finance Committee holds that there will be ample time to make an appropriation when the bill for revision is submitted February 24th. The sum of three thousand dollars, appropriated in the bill, seems excessive, when it is considered that the commission will not sit for more than twenty days, at a compensation of ten dollars for each Commissioner, or six hundred dollars for the three.

Estimating that clerks and attachés will receive as much as the Commissioners, the aggregate expense should not exceed twelve hundred dollars, whereas the bill calls for three thousand dollars. The Finance Committee therefore submits that the appropriation should be deferred until the amount necessary is ascertained.

VOORHEIS, Chairman.
LANGFORD.

By Senator Gleaves:

SENATE JOINT RESOLUTION No. 10.

WHEREAS, The Sacramento and San Joaquin Rivers, with their tributaries, constitute over a thousand miles of navigable channels, and traverse rich agricultural portions of California; and whereas, these rivers have not received at the hands of Congress that attention that their importance as commercial highways demand, and only in recent years have received any attention at all; and whereas, by the expenditure of a comparatively small sum of money the Sacramento River can be made navigable to a point above Redding, Shasta County, in which county there are immense deposits of coal and iron ore that must forever remain undeveloped unless afforded access to market by cheap water transportation; and whereas, these rivers not only afford cheap transportation to the products of the country tributary to them, but also regulate the charge by railroad transportation, the railroads running parallel with the rivers and being compelled to adjust their rates to meet water competition; and whereas, this decrease in cost of transportation is so much added to the wealth of the farmer and producer; and whereas, the welfare of California, and the development of its agricultural, mineral, and manufacturing resources imperatively require that these river systems should be improved so as to restore them to their original condition, and also extended so as to afford facilities for moving the products of a rich country now inaccessible to river navigation.

Resolved by the Senate, the Assembly concurring, That our Representatives in Congress be urgently requested and our Senators instructed to use all honorable means to secure the passage of a law by Congress putting the improvement of the Sacramento and San Joaquin Rivers and their tributaries under the contract system, and appropriating the sum of one million dollars for each system for the purpose of completing such work.

Resolved, That the Governor be requested to transmit by telegram to each of our Senators and Representatives in Congress a copy of these resolutions, and to forward attested copies to the Secretary of War, the Chief Engineer of the Army, the Chairman of the Committee of the House on Rivers and Harbors, and the Chairman of the Committee on Commerce of the Senate.

To the Senate of the State of California, and to each individual member thereof:

The Civic Federation of San Francisco, consisting of the organizations named below, in session January 21, 1895, passed unanimously the following resolutions, which are respectfully presented to your honorable body:

WHEREAS, We are credibly informed and believe that grave abuses exist in the Police Department of San Francisco; that State laws and municipal ordinances for the punishment of crime and for the suppression of vice are not enforced with impartiality and justice in this city; that because of criminal collusion between those who violate the law and those who are charged with its enforcement, gambling houses and other disorderly places are carried on with impunity, and immunity from prosecution; that blackmailing and extortion prevail in said police force to an alarming extent; and whereas, an overwhelming public sentiment in this city demands a thorough and searching investigation of such abuses and corruption; now, therefore, be it

Resolved, That the Civic Federation of San Francisco respectfully urges that your honorable body appoint an investigating committee, to act in conjunction with a similar committee from the Assembly, should one be constituted—otherwise to act alone; and that said committee be clothed with all needful powers and authority to make a rigid and thorough investigation of alleged abuses and corruption in the Police Department, and other branches of the municipal government of San Francisco under State control, against which tenable charges shall be presented; and especially to ferret out the instigators of the recent election frauds in this city.

Resolved, That we offer no suggestion as to the personnel of the committee, further than to urge that every precaution be taken to exclude from such committee every man whose name has in the slightest degree been connected by public rumor with any questionable proceeding of whatever character; for it is obviously of the last importance that said committee should command the perfect confidence of the people of the city and State in their integrity, and in their zeal in bringing offenders to justice.

To show the representative character of this Federation, and that it speaks for the good citizenship of San Francisco in this memorial, we append the subjoined list of the bodies included in it, and who join in the above action:

Citizens' Defense Association; Good Government Club; Law and Order League; Union for Practical Progress; Committee of Eleven; Builders' Exchange; Federated Trades; Anti-Dive Association; Society for Prevention of Cruelty to Children; Woman's Christian Temperance Union; Golden Gate Union of Christian Endeavor; Epworth League Alliance; Presbyterian Churches; Protestant Episcopal Churches; Congregational Churches; Methodist Episcopal Churches; Unitarian Churches; Baptist Churches; United Presbyterian Churches, and Home Protective League.

SPECIAL ORDER.

The hour of eleven o'clock A. The Secretary read Substitute for Assembly Joint Resolution No. 2, as follows:

SUBSTITUTE FOR ASSEMBLY JOINT RESOLUTION No. 2.

Joint resolution relative to Reilly Railroad Funding Bill.

WHEREAS, The Central Pacific, Western Pacific, and Union Pacific Railroads did receive substantial aid for their construction from the Government of the United States by the issuance of bonds; and whereas, the payment of these bonds was guaranteed to the Government of the United States by mortgages on said railroads, which mortgages are about to fall due; and whereas, there is now under consideration before Congress a bill, known as the "Reilly Funding Bill," the object of which bill is to re-fund the above-mentioned bonds for fifty years, and permitting the above-mentioned railroads to escape the payment of their just debts to the Government; therefore, be it

Resolved by the Assembly of the State of California, the Senate concurring. That our Representatives in Congress be requested and our Senators be instructed to use all honorable means to prevent the passage of any and all such "Funding Bills," and to provide for the collection of the above-mentioned indebtedness to the Government of the United States by the foreclosure of the above-mentioned mortgages, to the end that the Government of the United States shall own and operate the above-mentioned railroads; and be it further

Resolved, That the Governor be and he is hereby requested to immediately transmit by telegraph a copy of these resolutions to each of our Representatives and Senators in Congress.

The Secretary then read Senate Joint Resolution No. 3, as follows:

SENATE JOINT RESOLUTION No. 3.

Joint resolution relative to the payment of Pacific Railroad debts.

WHEREAS, Any extension of time for payment, through the Government, of the Pacific Railroad debt by the so-called Reilly Funding Bill, or any other bill having a similar object, would entail upon the people of this State the principal burden of discharging said debts, and result only in offering additional benefits upon the private owners of said roads; and whereas, the experience of the past has demonstrated the inability or disinclination of said roads to discharge their just obligations; and whereas, every principle of justice and expediency demands that the mortgage bonds of said roads should be paid or foreclosed at maturity; therefore, be it

Resolved by the Senate of the State of California, the Assembly concurring. That our Senators and Representatives in Congress be instructed to oppose any attempt, and vote against any bill, to extend the time for the payment to the Government of the Pacific Railroad debts, and vote for a measure to foreclose at maturity the lien of the Government on these roads, and to have them bid in by the Government, and maintained as a national highway for the benefit and in the interest of the people, and to enforce against the stockholders of said roads the collection of any judgment for deficiency that may result upon said foreclosure.

Resolved, That the Governor be requested to immediately forward to each of our Senators and Representatives in Congress a copy of this resolution.

SUBSTITUTE.

Senator McGowan offered the following as a substitute for Substitute for Assembly Joint Resolution No. 2 and Senate Joint Resolution No. 3:

WHEREAS, The subsidy bonds of the United States, issued in aid of the construction of the Central Pacific Railroad, are about falling due, as well as the obligations of the Central Pacific Railroad Company to the United States arising in connection therewith, and a suitable time has now arrived for properly settling and determining the relations of the State of California and its people to the Central Pacific Railroad, and establishing upon a proper basis the future method of administration of said railroad, and the rates of compensation to be hereafter charged for transportation of persons and property thereon, in order that the State of California may now be relieved from the unjust burdens heretofore imposed upon it and its people in connection therewith; and whereas, California, since it became one of the States of the Union in 1850, has made large contributions to and for the benefit of the Government of the United States, for which, partly on account of its geographical separation from the older States of the Union, and its divergent interests, the said State has received comparatively little return or compensation in any form; and whereas, the contributions of the United States towards the construction of the Central Pacific Railroad were made, for the most part, in order to secure to the United States the creation of a transcontinental railroad

as a means of communication between widely separated portions of the country, and as a military necessity to and for the benefit of the whole of its people, and not for any special or particular benefit or advantage to the State of California; and whereas, owing to the high prices of gold, and of material and supplies, prevailing at the time of the construction of said railroad, and the mode and manner in which such construction thereof was carried on, the cost of said railroad, as represented by its first mortgage bonds, and the subsidy bonds of the United States issued in aid thereof, was greatly exaggerated; and whereas, divers bills, among others the bill known as the Reilly bill, are now pending in Congress, most of which bills contemplate an extension of the debt of the Central Pacific Railroad Company to the United States, and the retention of the said railroad in the hands of the present managers thereof; and whereas, notwithstanding the equitable right of the State of California and the people to the use of the said property, or much the greater part thereof, without imposing upon them any burdens predicated in anywise upon the cost of the creation of this railroad, as a military necessity for the use and benefit of the whole country, serious danger exists that the burden of providing for interest charges upon the great and extravagant outlay made in its construction may be thrown upon the commerce of California, and the commerce in which its people are interested; and whereas, in the opinion of the Legislature of the State of California, the use of the Central Pacific Railroad, or at least so much thereof as lies east of the City of Sacramento, should be furnished by the United States to the people of the State of California, and those interested and concerned in its commerce, without other compensation therefor than such charges as may reasonably suffice to defray the current expenses of the operation of such portion of said railroad, and the United States should provide and pay all costs and expenses growing out of the construction of said railroad, and the creation of said property.

Resolved by the Senate, the Assembly concurring, That the Senators and Representatives of the United States in Congress assembled, be and they are hereby earnestly requested to defeat said Reilly bill, and all other measures of the like character, for the extension of the debt of the Central Pacific Railroad Company to the United States, and that, in lieu thereof, an Act be passed providing that the United States shall, by its Secretary of War, or other proper officer designated by it on that behalf, enter into and take possession of and forever hereafter operate the said Central Pacific Railroad, or at least so much thereof as lies east of the City of Sacramento, and shall from its own resources pay, discharge, and cancel all existing debts constituting a lien on said property, and shall hereafter impose upon the commerce of the State of California, and that in which it and its people are interested, only such charges for transportation of persons and property over said road as may be required to provide for and pay the current operating expenses of said railroad, and that, subject to such payment of such current operating expenses, the State of California and its people, and those interested in the carrying on and promoting its commercial interests, shall hereafter be allowed the free use of said property.

At eleven o'clock and fifty-five minutes A. M., pending discussion on the above subject, Senator Ford moved that the hour of recess be extended until the matter under discussion be disposed of.

So ordered.

After debate, Senator McGowan moved the adoption of the substitute.

The roll was called, and the substitute submitted by Senator McGowan was adopted by the following vote:

With the consent and approval of the Board of Public Works, the City Engineer may appoint such deputies as the duties of his office may require, the number of such deputies, however, not to exceed the number that may be fixed from time to time by the Council. This amendment herein proposed shall be and shall be known and designated as amendment number four to the charter of the City of Oakland, State of California.

And whereas, said proposed amendments were published in a daily newspaper of general circulation in said city, to wit: the "Oakland Times," for more than twenty days; and whereas, said amendments were submitted by the legislative authority of said city, to wit: the City Council thereof, to the qualified electors of said city, at a special election previously duly called and thereafter held therein (at least sixty days after the publication of said proposals for twenty days in a daily newspaper of general circulation in said City of Oakland, to wit: in the "Oakland Times"), on the twenty-sixth day of January, eighteen hundred and ninety-five; and whereas, at such special election three fifths of such qualified electors of said city voting at such special election, did vote in favor of and did ratify each one and all of said amendments so proposed, and the same are now submitted to the Legislature of the State of California for approval or rejection as a whole.

COMMUNICATIONS.

The following communications were presented, and ordered printed in the Journal:

SENATE CHAMBER, SACRAMENTO, January 29, 1895.

MR. PRESIDENT: We, the undersigned, who voted against the McGowan substitute for Assembly Joint Resolution No. 2, submit our reasons therefor:

First—It is to the best interests of the State of California that the bill known as the Reilly Refunding Bill should be defeated in the Congress of the United States. The people of the State of California have declared against the passage of said bill, and as their representatives we feel that Congress should be informed directly, decisively, and succinctly that the passage of said bill would be against the best interests and welfare of the people of this State.

Second—We believe that if the indebtedness due from the Central Pacific Railroad Company to the State of California is not promptly paid, that the Government should commence proceedings at once to collect the amount due, and pursue the assets of said corporation into all the companies which have been organized for the purpose of pro-

moting the construction of said road, and have received large profits for such work, and also should be collected from the assets of the estates or the property standing in the name of any of the Directors of said corporation.

Third—We believe that the resolution directing the Secretary of this body to telegraph the passage of the resolution to our Representatives in Congress is a discourtesy to the Assembly and that the passage of the substitute by the Senate will engender differences between the two houses of the Legislature of the State of California, and tend to repress the wish of the people upon this question.

Fourth—We think that the best way to secure an authoritative judgment of the Legislature is to pass Assembly Concurrent Resolution No. 2. We do solemnly aver that we are in favor of a resolution, coming from whatever source it may, that fitly expresses the opinion of the people of the State of California upon that subject.

SENATE CHAMBER, SACRAMENTO, January 29, 1895.

MR. PRESIDENT: In explanation of our vote on the substitute offered by the Senator from Humboldt, for Substitute for Assembly Joint Resolution No. 2, we desire to say we are opposed to said substitute:

1. Because it does not in a concise and direct manner express the sentiment of the people of the State of California upon the questions involved.

2. Because said substitute cannot, if passed by the Senate, be fairly considered by the Assembly and transmitted to Washington in time to reach Congress before a vote is had upon the Reilly Refunding Bill, and the united expression of both branches of the Legislature is certainly desirable upon a matter of such import.

3. We vote "no" on the resolution to telegraph to Washington at once the substitute adopted, because such action is flagrantly disrespectful to the Assembly, is entirely unusual, and tends to weaken the force of the expressed sentiment of the people of California in their opposition to the Reilly Refunding Bill, and all similar bills, in which opposition we heartily concur.

PEDLAR.

EXPLANATION.

SENATE CHAMBER, SACRAMENTO, January 29, 1895.

MR. PRESIDENT: In explanation of my position as to the resolution before the Senate, presented by the Senator from Humboldt, I wish to say that I prefer at this time to vote for a simpler declaration against the Reilly and such funding bills. I will later in the day, if afforded an opportunity, present a resolution which, if adopted by the Legislature, will, in my judgment, more nearly express the people's will in this matter. I therefore ask to be excused from voting on the motion of the Senator from Humboldt.

QUESTION OF PRIVILEGE.

CORRECTION OF JOURNAL.

Senator McGowan moved that the Journal of yesterday be corrected to read on page seven, in report of Judiciary Committee, in second line, after the reference to Senate Bill No. 342, that "they do not pass," instead of "they do pass."

So ordered.

MEMORIAL.

Senator Flint presented the following memorial, and the same was ordered spread on the Journal:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution, appointed for the good of man by the divine Lawgiver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

Signed: W. Dennett, W. J. Urnes, R. W. Logan, R. C. Gury, Geo. Austin, A. Conden, H. M. Campbell, L. Hutz, G. S. Nash, C. N. Hawkins, W. S. Frost, H. N. Taylor, John Neilsen, A. J. McKay, T. L. Baldwin.

PETITION.

Senator McAllister presented the following petition, and asked that it be spread upon the Journal.

So ordered.

To the honorable the Legislature, State of California:

GENTLEMEN: We, the undersigned citizens, barbers by profession, residents of San José, respectfully petition your honorable body to enact a law which will bring about a uniform system to close up barber shops, and bath houses where such are attached to barber shops, on Sundays and all legal holidays, at the hour of twelve o'clock M., and providing for a fine of not less than twenty-five dollars for the violation of such law. We deem the passage of such a law a benefit to all the members in our profession, and that the time allowed fully meets the wants of the public and secures to us a half day of each week for rest and recreation. And your petitioners would ever pray.

Respectfully, W. F. Cosgrove, San José; H. D. Becker, San José; Joseph Isola, San José; Thos. Moore, San José; J. L. Kasper, San José; Nat Demartini, San José; R. S. Nixon, San José; F. G. JOINT RESOLUTION.

By Senator Voorheis:

SENATE JOINT RESOLUTION No. 2.

Joint resolution relative to the free coinage of silver.

WHEREAS, We recognize constantly the indisputable fact that upon the continued development and working of the silver mines of California and other Pacific Coast States, the prosperity and progress of those States largely depend, and that in the depreciation of the value of that metal by refusing it a proper place in the coinage system of the United States, a vital blow is being struck at all the interests of the Pacific States; and whereas, it is also recognized as a fact that the opposition to silver coinage emanates from speculative syndicates and moneyed classes, who seek to embarrass the people of the nation for the advancement of their own selfish ends; and whereas, we entertain the firm belief that the full measure of national prosperity will never be restored by the issue of bonds, and do believe that the restoration of silver to its proper place will bring about lasting prosperity; and having unbounded faith in the power and ability of this nation to replace and maintain silver in its proper position alongside of gold; therefore,

Resolved, That our United States Senators be instructed and our Representatives in Congress requested to oppose every measure to debase silver as money, and to advocate and vote for the free and unlimited coinage of silver in the ratio of sixteen to one.

Upon the question of the adoption of the above Senate Joint Resolution, the roll was called, and Senate Joint Resolution No. 2 was adopted by the following vote:

MEMORIAL.

Senator Flint presented the following memorial, which was ordered printed in the Journal, and referred to Committee on Education and Public Morals:

To the California House of Representatives, 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution appointed for the good of man by the divine Lawgiver, who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

MEMORIALS.

Senator Flint presented the following memorials, which were ordered printed in the Journal and referred to Committee on Education and Public Morals:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution appointed for the good of man by the divine Lawgiver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

(Signed:) James J. Culp, Cornelius A. Culp, J. W. Gruwell, J. D. Culp, E. H. Gruwell, W. J. Brown, W. J. Davenport, J. G. Warburton, E. Gibson, P. Brittingham, S. R. Jackson, Chas. McClure, O. C. Braden, A. Sargenfi, W. C. Doan, H. Surriver, Wm. Watson, and A. C. Ricker.

Also a second petition on same subject signed by: Joel Hawkins, Wm. F. Hawkins, S. Hawkins, A. Martin, D. J. Watson, A. J. Bryant, O. H. Dosh, J. A. Steinbeck, J. C. Dempsey, C. M. Lindsay, H. To the honorable the Legislature, State of California:

GENTLEMEN: We, the undersigned citizens, barbers by profession, residents of Oakland, respectfully petition your honorable body to enact a law which will bring about a uniform system to close up barber shops, and bath houses where such are attached to barber shops, on Sundays and all legal holidays, at the hour of twelve m., and providing for a fine of not less than twenty-five dollars for the violation of such law. We deem the passage of such a law a benefit to all the members of our profession, and that the time allowed fully meets the wants of the public and secures to us a half day of each week for rest and recreation. And your petitioners would ever pray.

The members of the police force shall not follow any other profession, calling, or business, but shall devote their entire time to the performance of their official duties; nor shall they be allowed pay for any period during which they shall absent themselves from public duty, except for the yearly vacation provided for by general law.

SEC. 117. The members of the police force shall promptly and fully obey, enforce, observe, and caused to be obeyed and enforced, all lawful orders of their superiors, and all rules and regulations of the Police Department. Such extra policemen shall hold office during the pleasure of the appointing power, and shall receive the same rate of pay as the regular policemen for the time actually engaged in the performance of their official duty. No extra policeman shall act as a special policeman, nor shall he be permitted to ask or receive any pay or compensation, from any source for his services as policeman, other than the pay herein provided for.

Sec. 119. In addition to the regular and extra police force, the Mayor may at times, when very large numbers of people, in addition to the permanent inhabitants, congregate in the city, appoint not to exceed fifteen special policemen, to serve not to exceed two weeks, who shall also receive the same rate of compensation for their services as is paid to regular policemen. The Mayor may also, by and with the consent of the Council, upon the petition of any person, firm, or corporation, appoint at any time a special policeman for special service, to be paid for by such person, firm, or corporation; *provided, however*, that the locality where such special policeman is to act shall be described in the warrant of appointment; *and provided further*, that no such appointment shall be made until the Council, by an affirmative vote of at least four members, authorize the appointment of a special policeman for such locality.

No person shall be appointed to any position in the Fire Department unless he be a man of good moral character, and of good repute for honesty and sobriety, a citizen of the United States, and a resident of the city at least two years next preceding his appointment. SEC. 127. The Chief Engineer shall be responsible for the discipline of all officers, members, or employés of the Fire Department, and may suspend any officer, member, or employé for incompetency, insubordination, misconduct, or for any violation of the rules, and regulations of said department, and shall, upon such suspension, promptly certify the fact, with the cause thereof, in writing to the Mayor, who shall forthwith in writing report the same, together with the charges preferred, to the Council for their action.

SEC. 129. The Chief Engineer shall make an annual report in writing to the Council, on or before the first meeting in January of each year, showing in detail the cost of maintenance and operation of the Fire Department, with the casualties, fatalities, conflagrations which have occurred, the estimated value of property destroyed, and amount of insurance thereon, if any, and a statement of supplies and apparatus received during the year past, and an inventory of all property of whatever kind and nature remaining and belonging to the department, and the condition thereof, together with a list of the probable supplies needed by the department, and an estimate of the amount of money necessary to meet the expenses of the Fire Department during the ensuing year, together with such suggestions and recommendations as may seem to him proper or expedient for the welfare and efficiency of said department.

SEC. 130. The Council may furnish the Chief Engineer with a horse and buggy, and provide for keeping the same.

SEC. 134. Until otherwise provided by the Council, there shall be attached to the Fire Department two steam fire engine companies, each to consist of one foreman, one assistant foreman, one engineer, one driver of engine, one stoker, one driver of hose cart, and eight hosemen. Also one hook and ladder company, consisting of one foreman, one driver, one tillerman, and five hook and ladder men. Also two hose companies, each to consist of one foreman, one assistant foreman, one driver of hose cart, and five hosemen. Nothing in this section shall be so construed as fixing permanently the number of men comprising each company, but the same may be increased or diminished at any time, and may apply to one only, or to all the companies in the department, at the pleasure of the Council.

SEC. 135. The Chief and Assistant Chief Engineers shall devote their entire time to the Fire Department, and shall not engage in any other occupation or business requiring their personal attention; and neither shall absent himself from the city without first obtaining permission from the Mayor in writing, which permit must be filed with the City Clerk; and in no case shall both the Chief and Assistant Chief Engineer be absent at the same time; *and it is further provided*, that the engineers of steam fire engines, the stokers and drivers thereof, also the drivers of hose carts and hook and ladder trucks and tillermen, together with such other members or employes as the Council may from time to time designate, shall devote their entire time to the duties of the department, and shall at all times, day and night, remain at the engine houses or stations, except when granted a leave of absence by the Chief Engineer.

SEC. 136. There shall be provided suitable sleeping-rooms in the several engine houses for the use of the permanent members of the department; and there shall be a general office in one of the department buildings, where the Chief and Assistant Chief Engineers, and Superintendent of the fire alarm system, shall make their headquarters daily during office hours, when not otherwise engaged in official duties.

It shall be his duty to report to the Chief Engineer, in writing, at least once a month, the condition and workings of the system; and at any time when such system is not in perfect working order, the Chief Engineer must be immediately and fully advised thereof. The Superintendent shall make such other reports, and perform such other duties as may, from time to time, be prescribed by the Council.

All electric light or power, telegraph, or telephone wires, erected or maintained in this city, shall be subject to the supervision and inspection of said Superintendent, and shall be located, laid, erected, and maintained only in such manner as may be approved by him, and so as not to endanger or interfere with the wires or apparatus of the fire alarm system.

SEC. 138. The Mayor shall not have a right to vote unless in case of a tie, when he shall have the right to vote.

Each appointed member of the Board shall be a duly licensed physician in accordance with the laws of the State of California, and a qualified elector of the city for two years immediately preceding his appointment, and shall serve without compensation.

SEC. 142. The term of office of the appointed members of the Board shall be for two years, and until their successors are appointed and qualified, said term to commence upon the second Monday in August; *provided*, that those members first appointed shall so classify themselves, by lot, that one of them shall go out of office at the end of one year, and two at the end of two years. If any appointed member fails to qualify within ten days after his appointment, such appointment shall be void, and a new appointment shall be made.

SEC. 143. Regular meetings of the Board of Health shall be held once a month, and special meetings when called by the President, or any three members, and all meetings shall be public. Three members shall constitute a quorum for the transaction of any business.

SEC. 144. Said Board of Health, subject to the ordinances of the city, shall have supervision of all matters pertaining to the sanitary condition of the city and public institutions thereof, and subject thereto; full powers are hereby given to said Board over all questions of foul or defective drainage, of the disinfection and sanitary cleaning of streets, alleys, cellars, cesspools, sewers, or nuisance of any description, and of low places within the city limits, calculated to receive and retain unhealthy deposits.

SEC. 145. The Board of Health shall adopt such forms and regulations for the use of physicians, undertakers, and Superintendents of cemeteries, as in their judgment may be best calculated to secure reliable vital and mortality statistics in said city and prevent the spread of contagious and infectious diseases. They shall have power to prevent or forbid communication with infected families or houses.

SEC. 146. The Council shall, by ordinance or otherwise, provide for enforcing such orders and regulations as the Board of Health may from time to time adopt, and all expenses necessarily incurred by the Board of Health in carrying out the provisions of law and of this charter shall be provided for by the Council.

SEC. 147. The Board of Health, within two weeks from the time of its organization, shall elect a City Physician, who shall also act as Health Officer and Secretary of the Board of Health. Said City Physician shall not be a member of the Board of Health, and shall be an elector of the city, not less than thirty years of age, a licensed physician of not less than two years, and actually engaged in the practice of his profession therein. He shall hold his office during the pleasure of the Board of Health, and must see that the laws and ordinances of the city in relation to the public health, and the regulations and orders of the Board of Health, are properly enforced. He shall keep a full record of all the transactions of the Board of Health, as well as all records appertaining thereto, and by himself or his deputy issue all permits for burials or removals in any of the cemeteries, and no interment shall be made therein unless said Health Officer is satisfied of the correctness and reliability of the certificate of death presented for his inspection. He shall have the powers of a police officer, and shall make an extended annual report to the Board of Health of the affairs pertaining to his office, including mortuary and other statistics, with such observations and recommendations in relation to the sanitary condition of the city as he may deem proper.

It shall be his duty to examine and inspect all nuisances, privies, vaults, cesspools, buildings, and low places within the city limits with a view to the enforcement of all the laws and regulations relating to sanitary matters, and to cause the arrest of, and vigorously prosecute, all persons violating any of said laws and regulations.

SEC. 148. The City Physician, as Health Officer, shall visit once in each quarter all public buildings and school houses in said city. During such visits he shall examine the manner in which they are lighted, ventilated, and heated, and particularly as to their sanitary condition.

SEC. 149. When a case of smallpox, Asiatic cholera, or yellow fever is reported to the Health Officer, he may visit the premises where the person is, and when satisfied that either of said diseases exist, he shall place a yellow flag or conspicuous notice on said premises, which shall remain during the continuance of the disease on said premises.

SEC. 150. The Health Officer may cause to be removed to a smallpox hospital or pest-house any person in said city affected with smallpox, Asiatic cholera, or yellow fever. When a case of either of said diseases exists in any house, and the person so affected is not moved to said hospital or pesthouse, the Health Officer shall immediately place a quarantine flag on said premises, and may place a competent person in charge thereof, who shall see that a quarantine is strictly enforced so long as public safety requires.

SEC. 151. The Health Officer shall vaccinate, free of charge, all persons applying to him.

SEC. 152. Every member of the Board of Health and the Health Officer may administer oaths on matters connected with the Health Department.

SEC. 153. Every physician in the city shall report to the Health Officer in writing, every patient he shall have sick of typhus, ship, or yellow fever, Asiatic cholera, leprosy, smallpox, diphtheria, or scarlet fever, and every death from such disease immediately after it shall have occurred.

Also, every householder in said city shall forthwith report in writing or otherwise to the Health Officer the name of every inmate of his or her house, whom he or she shall have reason to believe is sick of typhus, ship, or yellow fever, leprosy, cholera, or smallpox, and any deaths occurring at his or her house from such disease.

SEC. 154. The Health Officer shall report to the City Superintendent of Schools of said city the names and residences of every person sick of typhus, ship, or yellow fever, Asiatic cholera, smallpox, leprosy, diphtheria, or scarlet fever, or other contagious disease he may deem dangerous to the city health; and it shall be the duty of the City Superintendent of Schools of said city, when so notified of the residence of any person sick of any of the diseases enumerated, to refuse admittance to the public schools to any member of the family, one or more of whose inmates are sick of any of the foregoing diseases; *provided*, that the parties excluded shall be readmitted upon presenting a certificate from the Health Officer that there is no longer any danger from contagion.

SEC. 155. Whenever it shall be certified to the Board of Health by the Health Officer that any building, or part thereof, is unfit for human habitation by reason of its being so infected with disease, or from other causes, as to be likely to cause sickness amongst its occupants, said Board may issue an order and cause the same to be affixed conspicuously on the building, or front thereof, and to be personally served upon the owner, agent, or lessee, if the same can be found, requiring all persons therein to vacate such building for the reasons to be stated therein, as aforesaid. Such building, or part thereof, shall within ten days thereafter be vacated, or within such shorter time, not less than twenty-four hours, as in said notice may be specified; but said Board, if it should become satisfied that the danger from the building, or part thereof, has ceased to exist, may revoke said order.

SEC. 156. The Board may proclaim such quarantines, and establish and declare such quarantine districts and grounds, and the boundaries thereof, as may, in their judg-

ment, be necessary for the preservation of the public health; and may, when deemed necessary, require all vessels, railroad cars, or other public conveyances, before the same shall land or stop at any landing, depot, or stopping place in the city, to stop or touch at any one either of the districts, grounds, or boundaries so selected and established for quarantine purposes, and leave all such persons, with their stores and baggage, as in the opinion of the Health Officer or physician stationed at such quarantine sites, places, or boundaries shall be deemed proper on account of the existence or general report of Asiatic cholera, smallpox, or yellow fever.

SEC. 157. The said Board shall make such rules and regulations for the government of the quarantine or the health of the city as from time to time they shall deem necessary, and the physicians or Health Officers in charge of any quarantine station or place, shall have power to make and enforce such regulations as may be necessary for the proper management thereof; and it shall be the duty of all persons in quarantine, and all agents, officers, policemen, or others employed by the city in and about said quarantine stations or places, to carry out and obey the same.

SEC. 158. The Board of Health shall cause to be kept a record of all births and deaths occurring in said city; such records must be kept in the Health Office, and shall be open for inspection by any person during office hours. All physicians and midwives in the city shall report to the Health Officer on or before the fifth of each month all births occurring in his or her practice during the previous month.

SEC. 159. No person shall deposit in any cemetery the body of any human being who has died in the city, or remove the same from within the limits of the city, without having first obtained and filed at the Health Office a certificate signed by a physician or Coroner, setting forth as nearly as possible the name, age, sex, color, place of birth, occupation, date, locality, and cause of death of deceased, and obtain from the Health Officer a permit in writing therefor for burial or other purposes. Physicians, when deaths occur in their practice, must give the certificate herein mentioned, unless the physician believes the death to be a proper case for investigation by the Coroner.

No body of a human being who has died within the limits of the city, and no body or remains of a deceased person exhumed or taken from any grave, vault, or other place of burial or deposit, within or without the city, shall be transported in or through the streets or highways of the city, unless the person or persons transporting such body or remains shall first obtain from the Health Officer a permit in writing therefor, which shall accompany the body or remains.

SEC. 160. The permits in the last section may be granted in the discretion of the Board of Health, under such general restrictions and conditions as the Board may prescribe.

The Health Officer shall prepare a book of blank permits, in proper form and consecutively numbered, containing stubs on which, as well as in the permit, shall be entered a record giving the name, age, sex, nativity, place of burial, and destination of remains to be transported or removed.

SEC. 161. In addition to the powers and duties in this article enumerated, the Board shall have such other powers and perform such other duties as may be prescribed by ordinance of the Council, or by general law.

ARTICLE XI.

WATERWORKS DEPARTMENT.

SEC. 162. If at any time the city shall become the owner of any water supply, or shall decide to construct such a system, the Mayor shall appoint, by and with the consent of the Council, two citizens of the city to be Water Commissioners, and they must not belong to the same political party.

The City Engineer shall be ex officio a Water Commissioner. The appointed members shall hold their office for the term of two years; *provided*, that when first appointed they shall be appointed for one and two years, to be designated in the notice of appointment by the Mayor. Their compensation shall be fixed by ordinance by the Council.

SEC. 163. The Water Commissioners shall have full control and management of the water system of the city, and the collection of the revenue thereof, under such regulations by ordinance as the Council may from time to time enact.

All contracts for work and materials must be made by said Commissioners in the manner provided in this charter for making contracts, and approved by the Council. And all pay-rolls and accounts for the same, before being paid by the Council, shall first be passed upon by the Commissioners, who shall thereupon certify them to the Council for payment.

ARTICLE XII.

PUBLIC LIBRARIES.

SEC. 164. There shall be maintained in the City of Eureka free public libraries and reading-rooms, as provided for by an Act of the Legislature of this State entitled "An Act to establish free public libraries and reading-rooms," approved April twenty-sixth, eighteen hundred and eighty, and such other Acts of the Legislature as may be amendatory thereof and supplemental thereto.

SEC. 165. The public library and reading-room created and existing under the provisions of said Act, and known as the "Eureka Free Library," is hereby continued in existence, and shall be free of access to all residents of said city and the general public, subject to such rules and regulations for the government and management thereof as may from time to time be adopted by the Board of Trustees thereof; *provided*, that said Board shall not permit any of its books, journals, publications, or other property to be taken, carried, or removed, by any person, without the limits of said city.

SEC. 166. The Board of Trustees thereof shall consist of five members, one to be elected from each ward, by the qualified electors thereof, at the regular municipal election, and shall hold office for two years, or until their successors are elected and qualified.

ARTICLE XIII.

CONTRACTS.

SEC. 167. The city of Eureka shall not be and is not bound by any contract, or in any way liable thereon, unless the same is made in writing by order of the Council, and the draft thereof approved by the City Attorney and the Council, and the same ordered to be and be signed by the Mayor, or some other person authorized thereto in behalf of the city; but the Council, by an ordinance, may authorize any officer, committee, or agent of the city to bind the city without a contract in writing for the payment of any sum of money not exceeding three hundred dollars. All bonds of any contractors with the city shall be approved by the Council.

ARTICLE XIV.

CLAIMS AND DEMANDS.

SEC. 168. All claims and demands whatever against the City of Eureka, except interest coupons on bonds and bonds of the funded debt, shall be paid only on demands as herein provided for.

SEC. 169. Said demands, except demands payable out of the School Fund and Library Fund, shall be presented to the Council on forms and blanks to be provided by the City Clerk, and shall be referred to its Committee on Finance.

The said committee shall, by indorsement thereon, approve or reject the same, in whole or in part. The Council shall then consider the said demands, and the action of said committee thereon, and shall, if the same be just and legal, approve the same; or may, if it so determine, approve in part or reject the whole. The action of the Council shall be indorsed thereon, with the date of such action, and certified by the signature of the President and City Clerk.

SEC. 170. Any such demand approved by the Council in whole or in part shall be delivered to the Mayor, who shall approve the same in whole or in part, or reject the same, and indorse such approval or rejection thereon, with the date thereof; *provided*, that the Mayor shall have no power to approve a demand for a sum larger than the sum in which it is approved by the Council. If the Mayor approve only in part, and for a less amount than approved by the Council, or reject any such demand, he shall return the same to the City Clerk, with his objections in writing attached thereto.

SEC. 171. All demands approved by the Mayor for the same amount as approved by the Council shall by him be delivered to the City Clerk, who shall thereupon draw a warrant therefor upon the City Treasury, and which shall be signed by the Mayor and countersigned by the City Clerk.

SEC. 172. Any demands returned to the City Clerk with the objection of the Mayor, shall again be considered by the Council, and if it shall again be approved by the Council by the same vote, and taken, recorded, and indorsed in the same manner as hereinbefore required, the said objection shall be thereby overruled. Any demand the objection to which of the Mayor has been overruled, shall be delivered to the City Clerk, who shall draw a warrant therefor, as if the same had been approved by the Mayor; if the Mayor object only to a portion of such demand, and such objection thereto shall be sustained by the Council, the same shall thereby be delivered to the City Clerk for his action thereon as hereinbefore provided.

SEC. 173. No demand can be approved, audited, or paid unless it specify each several item, with the date and amount thereof, or unless it be subscribed by the claimant or by his, her, or its agent, and sworn to before some officer authorized to administer oaths.

SEC. 174. No payment can be made from the City Treasury, or out of the public funds of said city, unless the same be specially authorized by law or this charter, nor unless the demand which is paid be duly audited as in this charter provided. The term "audited," as used in this charter with reference to the demands upon the Treasury, is to be understood to mean that said demands have been presented to, passed upon, and approved as herein provided, and this must appear upon the face of the paper representing the demand, or else it is not audited; *provided*, that the approval or rejection, in whole or in part, of a demand by the Committee on Finance of the Council, is advisory only to the Council, and the rejection by said committee of a demand, in whole or in part, does not of itself prevent its being duly audited.

SEC. 175. No demand upon the Treasury shall be allowed in favor of any person or officer in any manner indebted thereto, without first deducting the amount of such

indebtedness, nor to any person or officer having the collection, custody of, or disbursement of public funds, unless his account has been duly presented, passed, approved, and allowed, as required by law or this charter; nor in favor of any officer who shall have neglected to make his official returns, or his reports in writing, in the manner and at the time required by law or this charter, or by the ordinances or regulations made in pursuance thereof, nor to any officer who shall have neglected or refused to comply with any of the provisions of this charter or ordinances of the city, or any Act of the Legislature regulating the duties of such officer, on being required in writing to comply therewith by the Mayor or the President of the Council; nor in favor of any officer for the time he shall have absented himself, without lawful cause, from the duties of his office during the office hours prescribed by this charter or by ordinance.

SEC. 176. The City Clerk must number and keep a record of all demands on the Treasury which have been duly approved, showing the number, date, amount, and name of the original and present holder, on what account allowed, and out of what fund payable.

SEC. 177. Every lawful demand upon the Treasury, duly audited as in this charter required, shall in all cases be paid on presentation and canceled and the proper entry thereof be made, if there be sufficient money in the Treasury belonging to the fund out of which it is payable; but if there be not sufficient money belonging to said fund to pay such demand, then it shall be registered in a book to be kept by the Treasurer for that purpose, showing its number, when presented, date, amount, name of original holder and on what account allowed, and out of what fund payable, and being so registered, shall be returned to the party presenting it, with an indorsement of the word "Registered," dated and signed by the City Treasurer. All registered demands shall be paid in the order of their registration.

SEC. 178. All public moneys collected by any officer or employé of the city shall be paid into the City Treasury, without any deduction on account of any claim for fees, commissions, or any other cause or pretense, and the compensation of any officer, employé, or other person so collecting money, shall be paid by demands upon the Treasury, duly audited as other demands are audited and paid.

SEC. 179. No suit shall be brought upon any claim for money or damages against the City of Eureka, its Board of Education, or the Board of Trustees of the Eureka Free Library, until a demand for the same has been presented as herein provided, and rejected in whole or in part. If rejected in part, suit may be brought to recover the whole.

Nor shall suit be brought against said city upon any such claim, or demand, if the same shall be in whole approved and audited as provided herein; *provided*, that nothing herein contained shall be construed so as to deprive the holder of any demand of his right to resort to a writ of mandate, or other proceedings, against the said Council, or any Board or officer of said city, to compel it, or him, to act upon such demand or claim, or to pay the same when so audited.

ARTICLE XV.

MISCELLANEOUS PROVISIONS.

SEC. 180. All grants of franchises or privileges by the Council shall be awarded to the highest bidder in pursuance of the general laws of said State; nor shall any such franchises or privileges have any validity unless the person or persons to whom the same is made shall, within six months thereafter, actually and in good faith, and not colorably, commence the exercise or enjoyment of the same; *provided*, that where condemnation of property is necessary, condemnation proceedings commenced and diligently prosecuted shall be deemed the exercise of the franchise or privilege.

Whenever any franchise or privilege shall have been in disuse, in whole or in part, for the period of one year, there being no legal impediment to the use thereof, it shall be deemed abandoned and forfeited to the extent of such disuse, and said franchise or privilege, or the part thereof so in disuse, shall no longer be used or enjoyed. When in the exercise of any franchise or privilege, use has been made in any way of any street or alley of the city, such street or alley shall be put in good repair, and all the materials or obstructions which have been placed therein in the exercise of such franchise or privilege, shall be removed therefrom at the expense of the person or company who has held such franchise or privilege, whenever the franchise or privilege is abandoned or falls into disuse.

SEC. 182. No member of the Council, and no officer or employé of the city, shall be or become directly or indirectly interested in, or with the performance of any contract, work, or business, or in the sale of any article, the expense, price, or consideration of which is payable from the City Treasury, or in the purchase or lease of any real estate or property belonging to or taken by the city, or which shall be sold for taxes, or assessments, or by virtue of legal process at the suit of the city. Any member of the Council,

or any officer or employé of this city violating the provisions of this section, or who shall be directly or indirectly interested in any franchise, right, or privilege granted by the city while he is such officer, member, or employé, unless the same shall devolve upon him by law, shall forfeit his office, and be forever disqualified from holding any position in the service of the city; and all contracts made, or rights of franchises granted in violation of this section shall be absolutely void.

SEC. 183. No officer of the city shall be or become a surety on any bond given to the city, or to any person for the benefit of the city; nor shall any officer or employé of the city give or promise to give any person any portion of his compensation, or any money, or thing of value, or any position, in consideration of having been or being nominated, appointed, voted for, or elected to any office or employment under the city.

No officer of the city shall, while in office, accept any donation or gratuity in money or anything of value, either directly or indirectly, from any subordinate employé, or from any candidate or applicant for any position under him. Any person violating the provisions of this section shall forfeit his office and employment under the city, and be forever disqualified from holding any position in the service of the city.

SEC. 184. All books and records of every office and department shall be open to the inspection of any citizen at any time during business hours. Copies and extracts from such books and records, duly certified, shall be given by the officer having the same in custody, to any person demanding the same, upon paying or tendering ten cents per folio of one hundred words.

SEC. 185. No office shall be created in addition to those provided for by this charter, unless by ordinance regularly adopted by the Council. Whenever in the judgment of the Council no necessity exists for the continuation of any appointive office created or provided for by this charter, said Council, by an ordinance for that purpose, may discontinue such office.

SEC. 186. All officers, deputies, clerks, assistants, and other employés of the city, and of the several departments thereof, must be citizens of the United States, and during their respective terms of office or employment must, with the exception of the City Superintendent of Schools, and teachers of the public schools, reside in the city, and where not otherwise provided for, must have been residents of the city one year next preceding their election or appointment. They, and each of them, shall perform such duties as may be required of them, respectively, by law, ordinance, or this charter, and shall only receive such compensation as may have been previously provided, and such compensation shall not be increased during the term of their respective offices or employment, except as in this charter provided.

SEC. 187. If any officer of the city shall remove from the city, or absent himself therefrom for more than thirty days, consecutively, without the permission of the Council, or shall fail to qualify by taking the oath of office and filing his official bond, whenever such official bond is required, within the time required by this charter, or shall resign, or be convicted of felony or of malfeasance in office, or be adjudged insane, his office shall be and become vacant, and such vacancy shall be filled as in this charter provided.

SEC. 188. All books, papers, plats, charts, records, files and stationery, made or made use of, by any officer or employé of the city, in the performance of his official duties, shall be deemed and considered as belonging to the city, and shall be delivered to his successor in office, who shall give duplicate receipts in writing therefor, one of which receipts shall be filed with the City Clerk.

SEC. 189. No officer or employé in any department of the city government shall ever be appointed or removed for or on account of partisanship, or for or on account of his political or religious opinions.

REPORT OF SUB-COMMITTEE.

Senator Ford, from the Committee on State Prisons and Prison Buildings, presented the following report, and same was ordered printed in the Journal:

SENATE CHAMBER, SACRAMENTO, February 6, 1895.

MR. PRESIDENT: Your Committee on State Prisons and Prison Buildings beg leave to submit the report of its sub-committee, appointed to investigate and report upon the needs of the Whittier State School, which said report is hereto annexed.

FLINT, Chairman.

REPORT.

MR. CHAIRMAN: Your sub-committee appointed to investigate and report upon the needs of the Weather State School, have performed the duties assigned them, and beg leave to report as follows:

Your sub-committee arrived at said school on the morning of Friday, February 1st, and spent the whole of that day and a portion of the following day in the presentation of their views. They personally inspected the grounds, buildings and equipments of the school, and saw the pupils in the school-rooms, in the workshop, and on the parade ground.

Two years ago the Chairman of your sub-committee visited said school as Chairman of a special committee from the Senate appointed to investigate and report upon the management and needs of said school. At that time a thorough examination was made concerning the management of the school, and the witnesses having been examined under oath during such investigation, which was continued through a period of three days. The report of that committee was included on pages 941-942 of the Senate Journal for 1890, to which we would respectfully refer. With the knowledge and experience gained by that investigation, your sub-committee was enabled to make more expeditiously perform the duties assigned them.

At the time of our investigation on the first inst. there were three hundred and forty-two boys and six girls at the school. The buildings for the boys are about a half a mile distant from the main buildings which are occupied by the boys. The cottages for the girls are new and but not wholly completed. When completed there will be ample room for the needs of the girls' department. The boys are quite crowded, and a number of them have to sleep in the main school buildings.

The trustees submitted a carefully prepared statement of their needs when we examined them by them on our visit, with the Committee on State Finances from the Assembly. The statement prepared by the trustees showed an expenditure to ask for no more than was actually needed, but in view of the financial condition of the State and the general hard times prevailing, your committee thought it wise to outline their financial needs in such expenditures as are absolutely indispensable to a proper conduct of the school.

The statement submitted to your committee comprised the following items to wit:

Cannery and drier.....	\$2,000 00
Hospital building.....	6,000 00
Two cottages for boys.....	40,000 00
Enlargement of trades building.....	12,000 00
Completion of attic in administration building.....	600 00
For library.....	3,000 00
Additional harness, cows, pigs and agricultural implements.....	2,000 00
For completion and furnishing of building now in course of erection for Boys' Department, for kitchen, dining-room, bakery, and Commissary Department.....	4,000 00
For completion and furnishing of cottage building now in course of erection for girls.....	3,500 00
Complete outfit of tools for shops already here, and for tools for machine shop, tanning and plumbing shop, and bookbindery.....	10,000 00
Machinery for laundry.....	1,800 00
Boiler for power-house, in place.....	1,750 00
For purchase of land for vegetable vineyard, and alfalfa.....	28,000 00
For purchase of water and necessary piping.....	8,000 00
Quarters for the land and other purposes, and use in inclement weather.....	3,500 00
Wire, for grounds and gate, fencing and for barn-enclosed.....	1,000 00
Fees for architect and superintendent of construction.....	2,000 00
For maintenance of the hundred children, two years, at \$90 per year.....	90,000 00
Total.....	\$429,150 00

In lieu thereof your committee recommend the following:

Hospital building.....	\$6,000 00
Completion of attic in administration building.....	600 00
Enlargement of trades building.....	12,000 00
For library.....	2,000 00
Additional harness, cows, pigs and agricultural implements.....	2,000 00
For completion and furnishing of building now in course of erection for Boys' Department, for kitchen, dining-room, bakery, and Commissary Department.....	4,000 00
For completion and furnishing of cottage building now in course of erection for girls.....	3,500 00
Complete outfit of tools for shops already here, and for tools for machine shop, tanning and plumbing shop, and bookbindery.....	7,000 00
Machinery for laundry.....	1,800 00
Boiler for power-house, in place.....	1,750 00
For purchase of land for vegetable vineyard, and alfalfa.....	10,000 00
For purchase of water and necessary piping.....	8,000 00

Quarters for drill and exercise purposes, and use in inclement weather.....	\$3,500 00
Work on grounds about girls' building, and for barn thereon.....	1,000 00
For maintenance of four hundred and fifty children two years, at \$300 per year.	250,000 00

Total..... \$313,150 00

It is with some reluctance that your committee recommends the above reduction of \$116,000 from the estimate of the Trustees, and it is only because of a desire to assist in keeping the appropriations of the present session down to the actual present needs of our State institutions. The two cottages for the boys, the cannery and drier, and other suggested improvements will soon be absolute necessities, but your committee is of opinion that they can wait two more years without seriously crippling the institution. So with the matter of obtaining additional land.

Your committee desire to say that the management of the school is most excellent, and the school itself is accomplishing a great work. In our judgment there is not another institution in the State whose results are of more lasting benefit to the people, whether viewed from a moral, a financial, or a philanthropic standpoint.

In conclusion, we desire to repeat the concluding language of the report of the special committee of the Senate of 1893:

"In conclusion, your committee begs leave to suggest that, inasmuch as the above institution has passed beyond the experimental stage, and is now a permanent State institution, there should be provided for it a permanent fund, to consist of a fixed percentage of the taxes annually collected for State purposes, thus removing the institution as far as may be from the influence of partisan politics, and rendering it more stable and independent, and unembarrassed by legislative uncertainties."

Respectfully submitted.

FORD,
WHITEHURST,
ARMS.

Sub-Committee.

To Hon. THOMAS FLINT, JR.,

Chairman Committee on State Prisons and Prison Buildings.

Also the following:

REPORT OF SUB-COMMITTEE.

Senator Androus, from the Sub-Committee on Public Buildings other than Prison Buildings, presented the following report, and same was ordered printed in the Journal:

SENATE CHAMBER, SACRAMENTO, February 6, 1895.

MR. PRESIDENT: The Sub-Committee on Public Buildings other than Prison Buildings beg leave to submit the report of its sub-committee, appointed to investigate and report upon the needs of the State Normal School at Los Angeles, the Southern California State Asylum for the Insane, at Highlands, and the selection of a site for a Normal School in San Diego County, which said report is hereunto annexed:

REPORT.

The sub-committee of your Committee on Public Buildings other than Prison Buildings, to whom was referred the duty of visiting the State Normal School at Los Angeles, the Southern California State Asylum for the Insane and Inebriates, at Highlands, and the proposed sites for a Normal School in San Diego County, begs leave to report as follows: That on Wednesday, the thirtieth ultimo, they proceeded to Los Angeles, and immediately on their arrival visited the Normal School, and thoroughly inspected it, besides seeing the scholars and investigating its management. The school had an attendance last year of three hundred and thirty pupils. There are now nearly five hundred pupils attending the classes there in the Normal Department, and four hundred and fifty in the Model School. The estimated attendance in both departments for 1895-96 is one thousand.

Your committee found the new building authorized by the last Legislature completed. When properly furnished, Los Angeles will have a Normal School that will be excelled by few, if any, schools of the kind in the country. The furnishing of the new building,

including eight class-rooms, with a laboratory, chemical apparatus, etc., will cost, it is estimated, \$5,000. We consider that figure very moderate, and recommend that it be allowed. The school has only a few scientific instruments, and unless the articles for teaching physics and chemistry are provided it will be impossible to give instruction in those branches.

The heating and ventilating of the old building is very poor, and seriously endangers the health of the pupils. It has been condemned by the State Board of Health, and we recommend an appropriation of \$4,000 for the extension of the heating system to the old building.

The school has a very poor library, and less than half a dozen maps, and we recommend an appropriation of \$3,000 for the purchase of books, maps, globes, etc. For the maintenance of the school for the forty-seventh and forty-eighth fiscal years, we recommend an appropriation of \$80,000. The previous Legislature allowed the school, with half the present number of pupils, \$45,000 for the fiscal years forty-fifth and forty-sixth, and although economically conducted, the Board of Examiners was forced to allow the Trustees to create a deficit of \$13,500 for the forty-sixth fiscal year to enable them to give instruction to all who applied for it. This is an average of only \$80 per student per annum, and compares very favorably with the average cost of similar institutions in this country or abroad. We found the school well managed and economically conducted.

On Saturday we proceeded to Highlands, where we visited the State Asylum for the Insane and Inebriates. At the moment of our arrival the patients were present at an entertainment and dance in the large assembly hall. Their appearance was neat and clean, and by their frequent applause they seemed to be enjoying the music. After the entertainment we spent several hours inspecting the building from cellar to roof. We found the building clean, but the accommodations for the inmates totally inadequate. Seventy-six persons, thirteen of whom were women, were forced to sleep on the floor, there being no bedsteads for them. The dining-rooms are crowded into the basement, and although the new building has just been completed, it cannot be used until an appropriation is made to furnish it. The institution started with one hundred patients, and is receiving new ones at the rate of twenty per month, of whom sixty-four per cent are an average increase, the other thirty-six per cent representing those discharged, etc. The night we were there there were two hundred and ninety-eight patients in the asylum. It is proposed to put fifty patients in each ward. The salary list is from \$2,700 to \$2,800 per month. Those of the patients who are capable of working are employed around the grounds, one attendant employed on an average for every twenty-five patients. The patients work in the kitchen, dairy, and on the farm. A number of them were engaged digging a large reservoir. The per capita cost has been reduced from \$1 to 60 cents, and as soon as the farm is fully worked, and the fruit trees old enough to bear fruit, the rate can probably be reduced much lower. We recommend an appropriation of \$10,000 for furnishing the new wards, and urge the passage of this appropriation without delay, so the patients may have decent, not to say suitable accommodations. A woman's ward building will be badly needed if the present rate of increase keeps up, and we recommend an appropriation of \$65,000 for that purpose. There is no general dining-room for patients, no dormitory for help, and no wash-room for female patients. We recommend an appropriation of \$15,000 for the erection of a building for that purpose, and an appropriation of \$3,000 for furnishing it.

An electric light plant is needed, and we suggest an appropriation of \$2,000 for that purpose.

The institution has extensive grounds, but the heavy rains in winter are cutting them up; in some places deep gullies as much as twenty feet deep, and nearly half a mile in length, have been washed out this winter. The debris has been carried on the property of private citizens adjoining, and the State is in danger of being sued for heavy damages unless adequate storm drains are erected at once. The sewage from the asylum during the rainy season is carried onto the adjoining property, and there is general complaint from other property holders on this subject. We suggest that the sum of \$20,000 be appropriated for storm drains and a sewerage system, and we consider this sum absolutely necessary to protect the State's property and avoid any danger of damage suits, as suggested above.

There is no place for the Superintendent to live, and the Trustees have been forced to allow him \$1,500 per annum for the rent of premises for his family elsewhere.

We recommend an appropriation of \$5,400 for the erection and furnishing of a house for the Superintendent. Undoubtedly as the number of patients increase, the per capita of the institution will be reduced, not only for the reasons given above, but because the cost of cooking, heating, and so on will be no greater for one thousand than it is for three hundred persons. The institution seems to have been as well managed as the money at the disposal of the Trustees would permit.

From Highlands we proceeded to San Diego. There we were shown two sites offered to the State, one the "Children's Home," and the other the High School. The location of both is good, but the buildings are rather small for the purpose proposed. We also visited Pacific Beach, eight and a half miles from San Diego. The State is offered here free of all cost two brick buildings which would accommodate three hundred day scholars, and two frame buildings that can be used, the one for a gymnasium, the other for laboratories, a library, etc. There is also sixteen acres of land included in the property, which is probably worth \$75,000. The location is excellent, and admirably adapted to the purpose proposed, and the donation certainly a liberal one.

At Escondido, a brick building was offered the State which is valued at \$50,000.

While we do not believe it wise in the State to incur any extra expenses or to establish any new institutions at this time, still, if the Legislature should determine to establish a Normal School in San Diego County, we would recommend that it be located at Pacific Beach, which is by far the best location and the best property offered for such a school in our opinion.

By this careful inspection of the several institutions and points named above, we have been able to learn the minimum needs of the various institutions visited, and have been able to reduce the appropriations asked for \$254,000, without in any way impairing the efficiency of any of the institutions inspected or asked for. What we have recommended we believe is absolutely necessary, and we do not believe it can be safely, or with due regard to the requirements of the institutions, lessened.

All of which is respectfully submitted.

ANDROUS, Chairman.
BIGGY.
GESFORD.

An Act for the relief of insolvent debtors, for the protection of creditors, and for the punishment of fraudulent debtors.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

ARTICLE I.

GENERAL SUBJECT OF THE ACT.

SECTION 1. Every insolvent debtor may, upon compliance with the provisions of this Act, be discharged from his debts and liabilities. This Act shall be known and may be cited as the Insolvent Act of eighteen hundred and ninety-five.

ARTICLE II.

VOLUNTARY INSOLVENCY.

SEC. 2. An insolvent debtor, owing debts exceeding in amount the sum of three hundred dollars, may apply by petition to the Superior Court of the county, or city and county, in which he has resided for six months next preceding the filing of his petition, to be discharged from his debts and liabilities. In his petition he shall set forth his place of residence, his inability to pay all his debts in full, his willingness to surrender all his estate and effects for the benefit of his creditors, and his desire to obtain a discharge from his debts and liabilities, and shall annex thereto a schedule and inventory, and valuation, in compliance with the provisions of this Act. The filing of such petition shall be an act of insolvency, and thereupon such petitioner shall be adjudged an insolvent debtor.

SEC. 3. Said schedule must contain a full and true statement of all his debts and liabilities, exhibiting to the best of his knowledge and belief to whom said debts or liabilities are due, the place of residence of his creditors, and the sum due each; the nature of the indebtedness or demand, whether founded on written security, obligation, contract, or otherwise; the true cause and consideration thereof, and the time and place when and where said indebtedness accrued, and a statement of any existing pledge, lien, mortgage, judgment, or other security for the payment of the same; also, an outline of the facts

touching any liability, directly or indirectly, in the nature of any right of action against the insolvent by any one.

SEC. 4. Said inventory must contain an accurate description of all the estate, both real and personal, of the petitioner, including his homestead, if any, and all property exempt by law from execution, and where the same is situated, and all incumbrances thereon; also, an outline of the facts touching any right of action in favor of the insolvent against any one.

SEC. 5. The petition, schedule, and inventory must be verified by the affidavit of the petitioner annexed thereto, and shall be in form substantially as follows: I, ———, do solemnly swear that the schedule and inventory now delivered by me contain a full, perfect, and true discovery of all the estate, real, personal, and mixed, goods and effects, to me in any way belonging; all such debts as are to me owing, or to any person or persons in trust for me, and all securities and contracts, and contracts whereby any money may hereafter become payable, or any benefit or advantage accrue to me or to my use, or to any other person or persons in trust for me; that the schedule and inventory, respectively, contain a clear outline of the facts touching any known right of action against me by any one, and an outline of the facts touching all rights of action in my favor against any one; that I have no lands, money, stock, or estate, reversion, or expectancy, besides that set forth in my schedule and inventory; that I have in no instance created or acknowledged a debt for a greater sum than I honestly and truly owe; that I have not, directly or indirectly, sold, or otherwise disposed of, or concealed, any part of my property, effects, or contracts; that I have not in any way compounded with my creditors whereby to secure the same, or to receive or to expect any profit or advantage therefrom, or to defraud or deceive any creditor to whom I am indebted in any manner. So help me God.

SEC. 6. Upon receiving and filing such petition, schedule, and inventory, the Court shall make an order declaring the petitioner insolvent, and directing the Sheriff of the county, or city and county, to take possession of all the estate, real and personal, of the debtor, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account, and papers, and to keep the same safely until the appointment of an assignee. Said order shall further forbid the payment of any debts and the delivery of any property belonging to such debtor, to him, or for his use, and the transfer of any property by him; and shall further appoint a time and place for a meeting of the creditors to prove their debts and choose an assignee of the estate, and shall designate a newspaper of general circulation published in the county, or city and county, in which the petition is filed, if there be one, and if there be none, in a newspaper published nearest to such county, or city and county, in which publication of such order shall be made. The time appointed for the election of an assignee shall not be less than eight nor more than ten days from the date of the order of adjudication. Upon the granting of said order, all proceedings against the said insolvent shall be stayed. When a receiver is appointed, or an assignee chosen, as provided for in this Act, the Sheriff shall thereupon deliver to such receiver or assignee, as the case may be, all the property and assets of the insolvent which have come into his possession, and shall be allowed and paid as compensation for his services the same expenses and fees as would by law be collectible if the property had been levied upon and safely kept under attachment.

SEC. 7. No claim shall be entitled to a vote for the election of an assignee, unless such claim shall be placed on file in the office of the Clerk of the Court in which the proceedings are pending, at least two days prior to the time appointed for the election of an assignee. All claims shall be established by a statement, showing the amount, and nature, of the claim, and security, if any; such statement to be verified by the claimant, his agent or attorney. Any person interested in the estate of the insolvent may file exceptions to the legality or good faith of any claim, by setting forth specifically, in writing, his interest in the estate and the grounds of his objection to such claim; such specification of exceptions to be verified by the affidavit of the party objecting, his agent or attorney, setting out among other things that such exceptions are not made for the purpose of delay, or otherwise than in good faith in the best interest of said estate. Such exceptions to be filed with the Clerk of the Court at least one day before the time appointed for the election of an assignee; and such exceptions shall be heard and disposed of by the Court, on affidavit or other evidence, in a summary manner, before the election of an assignee. But the decision of the Court upon the exceptions as to whether the claimant shall be entitled to vote for an assignee shall not be conclusive upon the right of the party to participate in the assets of the insolvent, the enforcement of such right being subject to the laws of the State touching the establishment of claims against the estates of insolvents in case of dispute. No creditor, or claimant, who holds any mortgage, pledge, or lien of any kind whatever, as security for the payment of his claim, shall be permitted to vote any part of his secured claim in the election of assignee, unless he shall first have the value of such security fixed as provided in section forty-eight of this Act, or surrender to the Sheriff or receiver of the estate of the insolvent, if any receiver, all such property so mortgaged or pledged, or assign such lien to such receiver or Sheriff; such surrender or assignment of security or lien to be for the benefit of all creditors of the estate of the insolvent. The value of such security, if fixed by the Court, shall be so fixed at least one day before the day appointed for the election of an assignee; in which event the claimant may prove his demand, as provided in this section, for any unsecured balance, subject to the same exceptions as all other claims.

SEC. 8. A copy of said order shall immediately be published by the Clerk of said Court, in the newspaper designated therein, as often as said newspaper is printed before

the meeting of creditors, and be served by the Clerk forthwith by the United States mail, postage prepaid, or personally, on all creditors named in the schedule. There shall be deposited in addition to the usual cost of commencing such proceedings, a sum of money sufficient to defray the cost of the publication ordered by the Court, and ten cents for each copy to be mailed to or served on the creditors, which latter sum is hereby constituted the legal fee of the Clerk for the mailing or service required in this section.

ARTICLE III.

INVOLUNTARY INSOLVENCY.

SEC. 9. An adjudication of insolvency may be made on the petition of five or more creditors, residents of this State, whose debts or demands accrued in this State, and amount in the aggregate to not less than five hundred dollars; *provided*, that said creditors, or either of them, have not become creditors by assignment within thirty days prior to the filing of said petition. Such petition must be filed in the Superior Court of the county, or city and county, in which the debtor resides or has his place of business, and must be verified by at least three of the petitioners, setting forth that such person is about to depart from this State, with intent to defraud his creditors, or being absent from the State with such intent, remains absent; or conceals himself to avoid the service of legal process; or conceals, or is removing, any of his property to avoid its being attached or taken on legal process; or being insolvent, has suffered his property to remain under attachment, or legal process, for three days; or has confessed or offered to allow judgment in favor of any creditors; or willfully suffered judgment to be taken against him by default; or has suffered or procured his property to be taken on legal process, with intent to give a preference to one or more of his creditors; or has made any assignment, gift, sale, conveyance, or transfer of his estate, property, rights, or credits, with intent to delay, defraud, or hinder his creditors; or in contemplation of insolvency, has made any payment, gift, grant, sale, conveyance, or transfer of his estate, property, rights, or credits; or has been arrested and held in custody by virtue of any civil process of Court founded on any debt or demand, and such process remains in force, and not discharged by payment, or otherwise, for a period of three days; or being a merchant or tradesman, has stopped or suspended, and not resumed payment within a period of forty days after the maturity of any written acknowledgment of indebtedness, unless the party holding such acknowledgment has, in writing, waived the right to proceed under this subdivision; or being a bank or banker, agent, broker, factor, or commission merchant, has failed for forty days to pay any moneys deposited with or received by him in a fiduciary capacity, upon demand of payment, excepting savings and loan banks, or associations who loan the money of their stockholders and depositors on real estate, and provide in their by-laws for the repayment of such deposits. The petitioners may, from time to time, amend and correct the petition, so that the same shall conform to the facts, by leave of the Court before which the proceedings are pending, such amendment or amendments to relate back to and be received as if embraced in the original petition; but nothing in this section shall be construed to invalidate any loan of actual value, or the security therefor, made in good faith upon a security taken in good faith on the occasion of the making such loan. The said petition shall be accompanied by a bond with two sureties in the penal sum of at least five hundred dollars, conditioned that if the debtor should not be declared an insolvent, the petitioners will pay all costs and damages, including a reasonable attorney's fee, that the debtor may sustain by reason of the filing of said petition. The Court may, upon motion, direct the filing of an additional bond with different sureties, when deemed necessary.

SEC. 10. Upon the filing of such creditors' petition, the Court, or a Judge thereof, shall issue an order requiring such debtor to show cause, at a time and place to be fixed by said Court, or Judge, why he should not be adjudged an insolvent debtor, and at the same time, or thereafter, upon good cause shown therefor, said Court, or Judge, may make an order forbidding the payment of any debts, and the delivery of any property belonging to such debtor to him or for his use, or the transfer of any property by him.

SEC. 11. A copy of said petition, with a copy of the order to show cause, shall be served on the debtor, in the same manner as is provided by law for the service of summons in civil actions, but such service shall be made at least five days before the time fixed for the hearing; *provided*, that if, for any reason, the service is not made, the order may be renewed, and the time and place of hearing changed by supplemental order of the Court; *provided, however*, that where the debtor or debtors on whom service is to be made reside out of this State; or has departed from the State; or cannot, after due diligence, be found within the State; or conceals himself to avoid the service of the order to show cause, or any other process or orders in the matter; or is a foreign corporation, having no managing or business agent, Cashier, or Secretary within the State, upon whom service can be made, and such facts are shown to the Court, or a Judge thereof, by affidavit, such Court or Judge thereof shall make an order that the service of such order or other process be made by publication, in the same manner, and with the same effect, as service of summons by publication in ordinary civil actions.

SEC. 12. At the time fixed for the hearing of said order to show cause, or such other time as it may be adjourned to, the debtor may demur to the petition for the same causes as is provided for demurrer in other cases by the Code of Civil Procedure. If the demurrer be overruled, the debtor shall have five days thereafter in which to answer the petition. If the debtor answer the petition, such answer shall contain a specific

denial of the material allegations of the petition controverted by him, and shall be verified in the same manner as pleadings in civil actions; and the issues raised thereon may be tried with or without a jury, according to the practice provided by law for the trial of civil actions.

SEC. 13. If the respondent shall make default, or if, after a trial, the issues are found in favor of the petitioners, the Court shall make an order adjudging that said respondent is, and was at the time of filing the petition, an insolvent debtor, and that the debtor was guilty of the acts and things charged in the petition, or such of those acts and charges as the Court may find to be true; and shall require said debtor, within such time as the Court may designate, not to exceed three days, to file in Court the schedule and inventory provided for in sections three and four of this Act, duly verified as required of a petitioning debtor; *provided*, that in the affidavit of the insolvent touching his property and its disposition, he shall not be required to swear that he has not made any fraudulent preference, or committed any other act in conflict with the provisions of this Act, but he may do so if he desires.

Said order shall further direct the Sheriff of the county, or city and county, where the insolvency petition is filed, or the receiver, if one has been theretofore appointed, to take possession of all the estate, real and personal, of the debtor, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account, and papers, and to keep the same safely until the appointment of an assignee. Said order shall further forbid the payment of any debts, and the delivery of any property belonging to such debtor, to him, or for his use, and the transfer of any property by him; and shall further appoint a time and place for a meeting of the creditors, to prove their debts, and choose an assignee of the estate, and shall designate a newspaper of general circulation published in the county, or city and county, in which the petition is filed, if there be one; and if there be none, in a newspaper published nearest to such county, or city and county, in which publication of said order shall be made. The time appointed for the election of an assignee shall not be less than eight nor more than ten days from the date of the order of adjudication.

Upon granting of said order, all proceedings against the said insolvent shall be stayed. When a receiver is appointed subsequent to adjudication, or an assignee is chosen as provided for in this Act, the Sheriff shall thereupon deliver to such receiver or assignee, as the case may be, all the property and assets of the insolvent which have come into his possession, and shall be allowed and paid as compensation for his service the same expenses and fees as would by law be collectible if the property had been levied upon and safely kept under attachment.

SEC. 14. A copy of the order provided for in section thirteen of this Act, shall immediately be published by the Clerk of said Court in the newspaper designated therein, as often as such newspaper is printed before the meeting of creditors, and upon the filing, at any time before the date set for such meeting, of the schedule required by said section thirteen, a copy of said order shall be served by the Clerk forthwith by United States mail, postage prepaid, or personally, on all creditors named in said schedule. If said schedule is not filed prior to the day fixed for the election of an assignee, publication of said order as herein required shall be of itself sufficient notice to the creditors of the time and place appointed for the election of an assignee. No order of adjudication upon creditors' petition shall be entered, unless there be first deposited, in addition to the usual cost of commencing said proceedings, a sum of money sufficient to defray the cost of the publication ordered by the Court, and the further sum of five dollars, which is hereby constituted the legal fee of the Clerk for the mailing or service of notice to creditors required in this section.

SEC. 15. If, upon such hearing or trial, the issues are found in favor of the respondent, the proceedings shall be dismissed, and the respondent shall recover costs from the petitioning creditors in the same manner as on the final judgment in civil actions.

SEC. 16. In all cases where the debtor resides out of this State, or has departed from the State, or cannot, after due diligence, be found within the State, or conceals himself to avoid service of the order to show cause, or any other preliminary process or orders in the matter; or is a foreign corporation, having no managing or business agent, Cashier, or Secretary within the State, upon whom service of orders and process can be made, and it therefore becomes necessary to obtain service of process and order to show cause, as provided in section ten of this Act, then the petitioning creditors, upon submitting the affidavits requisite to procure an order of publication, and presenting a bond in double the amount of the aggregate sum of their claims against the debtor, shall be entitled to an order of Court directing the Sheriff of the county, or city and county, in which the matter is pending, to take into his custody a sufficient amount of property of the debtor to satisfy the demands of the petitioning creditors, and the costs of the proceedings. Upon receiving such order of the Court to take into custody the property of the debtor, it shall be the duty of the Sheriff to take possession of the property and effects of the debtor, not exempt from execution, to an extent sufficient to cover the amount provided for, and to prepare within three days from the time of taking such possession, a complete inventory of all the property so taken, and to return it to the Court as soon as completed. The time for taking the inventory and making return thereof may be extended for good cause shown to the Court, or a Judge thereof. The Sheriff shall also prepare a schedule of the names and residences of the creditors, and the amount due to each, from the books of the debtor, or from such other papers or data of the debtor available, that may come to his possession, and shall file such schedule list of creditors, and inventory, with the Clerk of the Court.

SEC. 17. In all cases where property is taken into the custody of the Sheriff, as provided in the preceding section, if the property taken into custody by the Sheriff does not embrace all the property and effects of the debtor not exempt from execution, any other creditor or creditors of the debtor, upon giving bond in double the amount of their claims, singly or jointly, shall be entitled to similar orders, and to like action by the Sheriff, until all claims be provided for, if there be sufficient property or effects. All property taken into custody by the Sheriff, by virtue of the giving of any such bonds, shall be held by him for the benefit of all creditors of the debtor, whose claims shall be duly proved, and as provided in this Act. The bonds provided for in this and the preceding section to procure the order for custody of the property and effects of the debtor, shall be conditioned that if, upon final hearing of the petition in insolvency, the Court shall find in favor of the petitioners, such bonds and all of them shall be void; if the decision be in favor of the debtor, the proceedings shall be dismissed, and the debtor, his heirs, administrators, executors, or assigns, shall be entitled to recover such sum of money as shall be sufficient to cover the damages sustained by him, not to exceed the amount of the respective bonds, in any Court having jurisdiction of the subject and the parties; *provided*, that if either the petitioners or the debtor shall appeal from the decision of the Court upon final hearing of the petition, the appellant shall be required to give bond to the successful party in a sum double the amount of the value of the property in controversy and for the costs of the proceedings. Any person interested in the estate may except to the sufficiency of the sureties on such bond, or bonds. When excepted to, the petitioner's sureties, upon notice to the person excepting of not less than two nor more than five days, must justify before a Judge or County Clerk in the same manner as upon bail and arrest, and upon failure to justify, or if others in their place fail to justify at the time and place appointed, the Clerk or Judge shall issue an order vacating the order to take the property of the debtor into the custody of the Sheriff.

SEC. 18. If in any case proper affidavits and bonds are presented to the Court, or a Judge thereof, asking for and obtaining an order of publication, and an order for the custody of the property of the debtor, as provided in sections sixteen and seventeen of this Act, and thereafter the petitioners shall make it appear satisfactorily to the Court, or a Judge thereof, that the interest of the parties to the proceedings will be subserved by a sale thereof, the Court may order such property to be sold, in the same manner as property is sold under execution, the proceeds to be deposited in the Court, to abide the result of the proceedings.

ARTICLE IV.

ASSIGNEES.

SEC. 19. At a meeting of the creditors in open Court, those being entitled to vote, as provided by section seven, shall proceed to the election of one assignee. In electing an assignee, the opinion of the majority in amount of claims shall prevail. The Clerk of the Court shall keep a minute of the deliberations of said creditors, and of the election and appointment of an assignee, and enter the same upon the records of the Court. The assignee shall file, within five days, unless the time be extended by the Court, with the Clerk, a bond, in an amount to be fixed by the Court, to the State of California, with two or more sufficient sureties, approved by the Court, and conditioned for the faithful performance of the duties devolving upon him. The bond shall not be void upon the first recovery, but may be sued upon from time to time by any creditor aggrieved, in his own name, until the whole penalty be exhausted. The sureties on such bond may be required to justify, upon the application of any party interested, in the same manner as bail upon arrest in civil cases.

SEC. 20. If, on the day appointed for the meeting, creditors do not attend, or refuse to elect an assignee; or if, after election, the assignee shall fail to qualify within the proper time, or if a vacancy occurs by death or otherwise, it shall be lawful for the Court to appoint an assignee and fix the amount of his bond.

SEC. 21. As soon as an assignee is elected or appointed and qualified, the Clerk of the Court shall, by an instrument under his hand and seal of the Court, assign and convey to the assignee all the estate, real and personal, of the debtor, with all his deeds, books, and papers relating thereto, and such assignment shall relate back to the commencement of the proceedings in insolvency, and shall relate back to the acts upon which the adjudication was founded, and by operation of law shall vest the title to all such property and estate, both real and personal, in the assignee, although the same is then attached on mesne process, as the property of the debtor, and shall dissolve any attachment made within one month next preceding the commencement of the insolvency proceedings. Such assignment shall operate to vest in the assignee all of the estate of the insolvent debtor not exempt by law from execution. Whenever such assignment shall dissolve an attachment as herein provided, it shall also vacate any judgment made or entered, and dissolve and set aside any execution levied in any action or proceeding against the debtor commenced subsequently to the action in which the attachment is dissolved.

SEC. 22. The assignee shall have the right to recover all the estate, debts, and effects of said insolvent. If, at the time of the commencement of proceedings in insolvency, an action is pending in the name of the debtor, for the recovery of a debt or other thing which might or ought to pass to the assignee by the assignment, the assignee shall be

allowed and admitted to prosecute the action, in like manner and with like effect as if it had been originally commenced by him. If there are any rights of action in favor of the insolvent for damages, on any account, for which action is not pending, the assignee shall have the right to prosecute the same with the same effect as the insolvent might have done himself if no proceedings in insolvency had been instituted. In suits prosecuted by the assignee, a certified copy of the assignment made to him shall be conclusive evidence of his authority to sue.

SEC. 23. The assignee shall, within one month after the making of the assignment to him, cause the same to be recorded in every county, or city and county, within this State, where any lands owned by the debtor are situated, and the record of such assignment, or a duly certified copy thereof, shall be conclusive evidence thereof in all Courts. If the schedule and inventory required by this Act have not been filed by the debtor, the assignee shall, within one month after his election, prepare and file such schedule and inventory from the best information he can obtain; and shall thereupon serve notice by United States mail, postage prepaid, or personally, on all creditors named in such schedule, whose claims have not been filed, to forthwith prove their demands.

SEC. 24. Any assignee may at any time, by writing filed in Court, resign his appointment, having first settled his accounts, and delivered up all the estate to such successor as the Court shall appoint; *provided*, that if, in the discretion of the Court, the circumstances of the case require it, upon good cause being shown, the Court may, at any time before such settlement of account and delivery of the estate shall have been completed, revoke the appointment of such assignee and appoint another in his stead. The liability of the outgoing assignee, or of the sureties on his bond, shall not be in any manner discharged, released, or affected by such appointment of another in his stead.

SEC. 25. The said assignee shall have power:

1. To sue in his own name and recover all the estate, debts, and things in action, belonging or due to such debtor, and no set-off or counter-claim shall be allowed in any such suit, for any debt, unless it was owing to such creditor by such debtor at the time of the adjudication of insolvency.

2. To take into his possession all the estate of such debtor except property exempt by law from execution, whether attached or delivered to him, or afterward discovered, and all books, vouchers, evidence of indebtedness, and securities belonging to the same.

3. In case of a non-resident absconding or concealed debtor, to demand and receive of every Sheriff who shall have attached any of the property of such debtor, or who shall have in his possession any moneys arising from the sale of such property, all such property and moneys, on paying him his lawful costs and charges for attaching and keeping the same.

4. From time to time to sell at public auction, all the estate, real and personal, vested in him as such assignee, which shall come to his possession and as ordered by the Court.

5. On such sales to execute the necessary conveyances and bills of sale.

6. To redeem all valid mortgages and conditional contracts, and all valid pledges of personal property, and to satisfy any judgments which may be an incumbrance on any property sold by him, or to sell such property subject to such mortgage, contracts, pledges, or judgments.

7. To settle all matters and accounts between such debtor and his debtors, subject to the approval of the court.

8. Under the order of the Court appointing him, to compound with any person indebted to such debtor, and thereupon to discharge all demands against such person.

9. To have and recover from any person receiving a conveyance, gift, transfer, payment, or assignment, made contrary to any provision of this Act, the property thereby transferred or assigned, or in case a redelivery of the property cannot be had, to recover the value thereof, with damages for the detention.

SEC. 26. The insolvent shall, either before or on the day appointed for the meeting of creditors, deliver to the Court all the commercial or account books he may have kept, which books shall be deposited in the Clerk's office of said Court. Said insolvent shall also deliver to the Court at the same time, all vouchers, notes, bonds, bills, securities, or other evidences of debt, in any manner relating to or having any bearing upon or connection with the property surrendered by said debtor, and all such papers or securities shall be deposited in the Clerk's office of said Court, and the Clerk shall hand them over, together with the books of the insolvent, to the assignee who may be appointed.

SEC. 27. If any person, before the assignment is made, having notice of the commencement of proceedings in insolvency, or having reason to believe that insolvency proceedings are about to be commenced, embezzles or disposes of any of the moneys, goods, chattels, or effects of the insolvent, he is chargeable therewith, and liable to an action by the assignee for double the value of the property so embezzled or disposed of, to be recovered for the benefit of the estate.

SEC. 28. The same penalties, forfeitures, and proceedings by citation, examination, and commitment, shall apply on behalf of an assignee against persons suspected of having concealed, embezzled, conveyed away, or disposed of any property of the debtor, or of having possession or knowledge of any deeds, conveyances, bonds, contracts, or other writings which relate to any interest of the debtor in any real or personal estate, as provided in the case of estates of deceased persons in sections one thousand four hundred and fifty-nine, one thousand four hundred and sixty, and one thousand four hundred and sixty-one of the Code of Civil Procedure.

SEC. 29. The assignee shall as speedily as possible convert the estate, real and personal, into money. He shall keep a regular account of all moneys received by him as

assignee, to which every creditor or other person interested therein may, at all reasonable times, have access. No private sale of any property of the estate of an insolvent debtor shall be valid, unless made under the order of the Court upon a petition in writing, which shall set forth the facts showing the sale to be necessary. Upon filing the petition, notice of at least ten days shall be given by publication and mailing, in the same manner as is provided in section eight of this Act. If it appears that a private sale is for the best interests of the estate, the Court shall order it to be made.

Sec. 30. In all cases where there has been personal service of the order to show cause, or voluntary appearance after order of publication, when it appears to the satisfaction of the Court that the estate of the debtor, or any part thereof, is of a perishable nature, or is liable to deteriorate in value, or is disproportionately expensive to keep, the Court may order the same to be sold in such manner as may be deemed most expedient, under the direction of the Sheriff, receiver, or assignee, as the case may be, who shall hold the funds received in place of the property sold until further order of the Court.

Sec. 31. Outstanding debts, or other property due or belonging to the estate, which cannot be collected and received by the assignee without unreasonable or inconvenient delay or expense, may be sold and assigned in like manner as the remainder of the estate. If there are any rights of action for damages in favor of the insolvent prior to the commencement of the insolvency proceedings, the same may, with the approval of the Court, be compromised.

Sec. 32. Assignees shall be allowed all necessary expenses in the care, management, and settlement of the estate, and shall be entitled to charge and receive for their services commissions upon all sums of money coming to their hands and accounted for by them, as follows: For the first thousand dollars, at the rate of seven per cent; for all above that sum and not exceeding ten thousand dollars, at the rate of five per cent; and for all above that sum, at the rate of four per cent; *provided, however*, that if the person acting as assignee was receiver of the property of the estate pending the election of an assignee, any compensation allowed him as such receiver shall be deducted from the compensation to which he otherwise would be entitled as such assignee.

Sec. 33. At the expiration of three months from the appointment of the assignee in any case, or as much earlier as the Court may direct, a time and place shall be fixed by the Court at which the assignee shall exhibit to the Court and to the creditors, and file just and true accounts of all his receipts and payments verified by his oath, and a statement of the property outstanding, specifying the cause of its outstanding, also what debts or claims are yet undetermined, and stating what sum remains in his possession, and shall accompany the same with an affidavit that notice by mail has been given to all creditors named in the schedule filed by the debtor or the assignee, that said accounts will be heard at a time specified in such notice, which time shall not be less than ten nor more than fifteen days from the filing of such accounts. At the hearing the Court shall audit the accounts, and any person interested may appear and file exceptions thereto and contest the same, and thereupon the Court may order a dividend paid to those creditors whose claims have been proven and allowed. Thereafter, further accounts, statements, and dividends shall be made in like manner as often as occasion requires; *provided, however*, that it shall be the duty of the assignee to file his final account within one year from the date of the order of adjudication, unless the Court, after notice to creditors, shall grant further time, upon a satisfactory showing that great loss and waste would result to the estate by reason of the conversion of the property into money within said time, or that it has been impossible to do so by reason of litigation.

Sec. 34. The Court shall at any time, upon the motion of any two or more creditors, require the assignee to file his account in the manner, and upon giving the notice specified in the preceding section, and if he has funds subject to distribution, he shall be required to distribute them without delay.

Sec. 35. All creditors whose debts are duly proved and allowed shall be entitled to share in the property and estate *pro rata* without priority or preference whatever, other than as provided in this Act and in section one thousand two hundred and four of the Code of Civil Procedure; *provided*, that any debt proved by any person liable as bail, surety, guarantor, or otherwise, for the debtor, shall not be paid to the person so proving the same until satisfactory evidence shall be produced of the payment of such debt by such person so liable; and the share to which such debt would be entitled may be paid into Court, or otherwise held for the benefit of the party entitled thereto, as the Court may direct.

Sec. 36. Whenever any dividend has been duly declared, the distribution of it shall not be stayed or affected by reason of debts being subsequently proved, but the creditors proving such debts shall be entitled to a dividend equal to those already received by the other creditors, before any further dividend is made to the latter; *provided*, the failure to prove such claim shall not have resulted from his own neglect.

Sec. 37. Should the assignee refuse or neglect to render his accounts as required by sections thirty-three and thirty-four of this Act, or pay over a dividend when he shall have, in the opinion of the Court, sufficient funds for that purpose, the Court shall immediately discharge such assignee from his trust, and shall have power to appoint another in his place. The assignee so discharged shall forthwith deliver over to the assignee appointed by the Court all the funds, property, books, vouchers, or securities belonging to the insolvent, without charging or retaining any commission or compensation for his personal services.

SEC. 38. Preparatory to the final account and dividend, the assignee shall submit his account to the Court, and file the same, and shall at the time of filing accompany the same with an affidavit that a notice by mail has been given to all creditors who have proved their claims, that he will apply for a settlement of his account and for a discharge from all liability as assignee, at a time specified in such notice, which time shall not be less than ten or more than twenty days from such filing. At the hearing, the Court shall audit the account, and any person interested may appear and file exceptions in writing, and contest the same. The Court thereupon shall settle the account, and order a dividend of any portion of the estate remaining undistributed, and shall discharge the assignee, subject to compliance with the order of the Court, from all liability as assignee to any creditor of the insolvent.

ARTICLE V.

PARTNERSHIPS AND CORPORATIONS.

SEC. 39. Two or more persons who are partners in business, or the surviving partner of any firm, may be adjudged insolvent, either on the petition of such partners, or any one of them, or on the petition of five or more creditors of the partnership, in which case an order shall be issued in the manner provided by this Act, upon which all the joint stock and property of the partnership, and also all of the separate estate of each of the partners, shall be taken, excepting such parts thereof as may be exempt by law, and all the creditors of the company, and the separate creditors of each partner, shall be allowed to prove their respective debts; and the assignee shall be chosen by the creditors of the copartnership, and shall also keep separate accounts of the joint stock or property of the copartnership, and the separate estate of each member thereof, and after deducting out of the whole amount received by such assignee the whole amount of the expenses and disbursements, the net proceeds of the joint stock shall be appropriated to pay the creditors of the copartnership, and the net proceeds of the separate estate of each partner shall be appropriated to pay his separate creditors; and if there shall be any balance of the separate estate of any partner after the payment of his separate debts, such balance shall be added to the joint stock for the payment of the joint creditors; and if there shall be any balance of the joint stock after the payment of the joint debts, such balance shall be divided and appropriated to and among the separate estate of the several partners according to their respective right and interest therein, and as it would have been if the partnership had been dissolved without any insolvency; and the sum so appropriated to the separate estate of each partner shall be applied to the payment of his separate debts, and the certificate of discharge shall be granted or refused to each partner as the same would or ought to be if the proceedings had been by or against him alone under this Act; and in all other respects the proceedings as to the partners shall be conducted in the like manner as if they had been commenced and prosecuted by or against one person alone. If such copartners reside in different counties, the Court in which the petition is first filed shall retain exclusive jurisdiction over the case. If the petition be filed by less than all the partners of a copartnership, those partners who do not join in the petition shall be ordered to show cause why they, as individuals, and said copartnership, should not be adjudged to be insolvent, in the same manner as other debtors are required to show cause upon a creditors' petition, as in this Act provided; and no order of adjudication shall be made in said proceedings until after the hearing of said order to show cause; *provided*, that in case of proceedings by or against surviving partners as such, only the partnership interest of deceased partners shall be subject to the control of the Court in the insolvency proceeding; but the surviving partner, assignee, or creditors may pursue the property of the deceased partners in the Court having jurisdiction thereof in probate proceedings.

SEC. 40. The provisions of this Act shall apply to corporations, and upon the petition of any officer of any corporation, duly authorized by the vote of the Board of Directors or Trustees, at a meeting specially called for that purpose, or by the assent in writing of a majority of the Directors or Trustees, as the case may be, or upon a creditors' petition made and presented in the manner provided in respect to debtors, the like proceedings shall be had and taken as are provided in the case of debtors. All the provisions of the Act which apply to the debtor, or set forth his duties, examination, and liabilities, or prescribe penalties, or relate to fraudulent conveyances, payments, and assignments, apply to each and every officer of any corporation in relation to the same matters concerning the corporation. Whenever any corporation is declared insolvent, all its profits and assets shall be distributed to the creditors; but no discharge shall be granted to any corporation.

ARTICLE VI.

PROOF OF DEBTS.

SEC. 41. All debts due and payable from the debtor at the time of the adjudication of insolvency, and all debts then existing but not payable until a future time, a rebate of interest being made when no interest is payable by the terms of the contract, may be proved against the estate of the debtor.

SEC. 42. All demands against the debtor for or on account of any goods or chattels wrongfully taken, converted, or withheld by him, may be proved and allowed as debts

to the amount of the value of the property so withheld, from the time of the conversion; *provided, however*, that if the assignee, or any creditor whose claim has been proven against the estate, shall request it in writing, the Court shall require the matter of such claim for damages to be tried as an ordinary action at law, to determine the liability of the debtor for such damages.

SEC. 43. If the debtor shall be bound as indorser, surety, bail, or guarantor, upon any bill, bond, note, or other specialty or contract, or for any debt of any person, and his liabilities shall not have become absolute until the adjudication of insolvency, the creditor may prove the same after such liability shall have become fixed, and before the final dividend shall have been declared.

SEC. 44. In all cases of contingent debts, and contingent liabilities contracted by the debtor, and not herein otherwise provided for, the creditor may make claim therefor and have his claim allowed, with the right to share in the dividends, if the contingency shall happen before the order of the final dividend; or he may, at any time, apply to the Court to have the present value of the debt or liability ascertained and liquidated, which shall be done in such manner as the Court shall order, and shall be allowed to prove for the amount so ascertained.

SEC. 45. Any person liable as bail, surety, or guarantor, or otherwise, for the debtor, who shall have paid the debt, or any part thereof, in discharge of the whole, shall be entitled to prove such debt, or to stand in the place of the creditor, if he shall have proved the same, although such payments shall have been made after the proceedings in insolvency were commenced; and any person so liable for the debtor, and who has not paid the whole of said debt, but is still liable for the same, or any part thereof, may, if the creditor shall fail or omit to prove such debt, prove the same in the name of the creditor.

SEC. 46. Where the debtor is liable to pay rent, or other debt falling due at fixed and stated periods, the creditor may prove for a proportionate part thereof up to the time of the insolvency, as if the same became due from day to day, and not at such fixed and stated periods.

SEC. 47. In all cases of mutual debts and mutual credits between the parties, the account between them shall be stated, and one debt set off against the other, and the balance only shall be allowed and paid. But no set-off or counter-claim shall be allowed of a claim in its nature not provable against the estate; *provided*, that no set-off or counter-claim shall be allowed in favor of any debtor to the insolvent of a claim purchased by or transferred to him after the filing of the petition by or against him.

SEC. 48. When a creditor has a mortgage, or pledge of real or personal property of the debtor, or a lien thereon, for securing the payment of a debt owing to him from the debtor, he shall be admitted as a creditor only for the balance of the debt, after deducting the value of such property, to be ascertained by agreement between him and the receiver, if any, and if no receiver, then upon such sum as the Court, or a Judge thereof, may decide to be fair and reasonable, before the election of an assignee or by a sale thereof, to be made in such manner as the Court, or Judge thereof, shall direct; or the creditor may release or convey his claim to the receiver, if any, or if no receiver then to the Clerk of the Court, before the election of an assignee, or to the assignee if an assignee has been elected, upon such property, and be admitted to prove his whole debt. If the value of the property exceeds the sum for which it is so held as security, the assignee may release to the creditor the debtor's right of redemption thereon on receiving such excess; or he may sell the property, subject to the claim of the creditor thereon, and in either case the assignee and creditor, respectively, shall execute all deeds and writings necessary or proper to consummate the transaction. If the property is not sold or released, and delivered up, or its value fixed, the creditor shall not be allowed to prove any part of his debt.

SEC. 49. No creditor, proving his debt or claim, shall be allowed to maintain any suit at law or in equity therefor, against the debtor, but shall be deemed to have waived all right of action and suit against him, and all proceedings already commenced, or unsatisfied judgment already obtained thereon, shall be deemed to be discharged and surrendered thereby; *provided*, that no valid lien existing in good faith thereunder shall be thereby affected; *and further provided*, that a creditor proving his debt or claim shall not be held to have waived his right of action or suit against the debtor where a discharge has been refused or the proceedings have determined without a discharge. And no creditor whose debt is provable under this Act shall be allowed, after the commencement of proceedings in insolvency, to prosecute to final judgment any action therefor against the debtor until the question of the debtor's discharge shall have been determined, and any such suit or proceeding shall, upon the application of the debtor, or of the assignee, be stayed to await the determination of the Court in insolvency on the question of discharge; *provided*, there be no unreasonable delay on the part of the debtor, or of the petitioning creditors, as the case may be, in prosecuting the case to its conclusion; *and provided also*, that if the amount due the creditor is in dispute, the suit, by leave of the Court in insolvency, may proceed to judgment for the purpose of ascertaining the amount due, which amount may be proven in insolvency, but execution shall be stayed as aforesaid; *provided further*, that where a valid lien or attachment has been acquired or secured in any such action, and an undertaking been offered and accepted in lieu of such lien or attachment, the case may be prosecuted to final judgment for the purpose of fixing the liability of the sureties upon such undertaking; but execution against the insolvent upon such judgment shall be stayed.

SEC. 50. Any person who shall have accepted any preference, having reasonable cause to believe that the same was made or given by the debtor contrary to any provision of this Act, shall not prove the debt or claim on account of which the preference was made or given; nor shall he receive any dividend thereon until he shall first have surrendered to the assignee all property, money, benefit, or advantage received by him under such preference.

SEC. 51. The Court may, upon the application of the assignee, or of any creditor of the debtor, or without any application, before or after adjudication in insolvency, examine upon oath the debtor in relation to his property and his estate, and any person tendering or making proof of claims, and may subpoena witnesses to give evidence relating to such matters. All examinations of witnesses shall be had and depositions shall be taken in accordance with and in the same manner as is provided for the Code of Civil Procedure.

ARTICLE VII.

DISCHARGE.

SEC. 52. At any time after the expiration of three months from the adjudication of insolvency, but not later than one year from such adjudication, unless the property of the insolvent has not been converted into money, the debtor may apply to the Court for a discharge from his debts, and the Court shall thereupon order notice to be given to all creditors who have proved their debts, to appear, on a day appointed for that purpose, and show cause why a discharge should not be granted to the debtor; said notice shall be given by mail and by publication at least once a week, for four weeks, in a newspaper published in the county, or city and county, or, if there be none, in a newspaper published nearest such county, or city and county; *provided*, that if no debts have been proven, such notice shall not be required.

SEC. 53. No discharge shall be granted, or if granted shall be valid, if the debtor shall have sworn falsely in his affidavit annexed to his petition, schedule, or inventory, or upon any examination in the course of the proceedings in insolvency, in relation to any material fact concerning his estate, or his debts, or to any other material fact; or if he has concealed any part of his estate or effects, or any books or writing relating thereto; or if he has been guilty of fraud or willful neglect in the care, custody, or delivery to the assignee of the property belonging to him at the time of the presentation of his petition and inventory, excepting such property as he is permitted to retain under the provisions of this Act, or if he has caused or permitted any loss or destruction thereof; or if, within one month before the commencement of such proceedings, has procured his lands, goods, moneys, or chattels to be attached, or seized on execution; or if he has destroyed, mutilated, altered, or falsified any of his books, documents, papers, writings, or securities, or has made, or been privy to the making of, any false or fraudulent entry in any book of account or other document with intent to defraud his creditors; or if he has given any fraudulent preference, contrary to the provisions of this Act, or made any fraudulent payment, gift, transfer, conveyance, or assignment of any part of his property, or has lost any part thereof in gaming; or has admitted a false or fictitious debt against his estate, or if, having knowledge that any person has proven such false or fictitious debt, he has not disclosed the same to his assignee within one month after such knowledge; or if, being a merchant or tradesman, he has not, subsequently to the passage of this Act, kept proper books of account; or if he, or any other person on the account, or in his behalf, has influenced the action of any creditor, at any stage of the proceedings, by any pecuniary consideration or obligation; or if he has, in contemplation of becoming insolvent, made any pledge, payment, transfer, assignment, or conveyance of any part of his property, directly or indirectly, absolutely or conditionally, for the purpose of preferring any creditor or person having a claim against him, or who is, or may be under liability for him, or for the purpose of preventing the property from coming into the hands of the assignee, or of being distributed under this Act in satisfaction of his debts; or if he has been convicted of any misdemeanor under this Act, or has been guilty of fraud contrary to the true intent of this Act; or, in case of voluntary insolvency, has received the benefits of this or any other Act of insolvency or bankruptcy within three years next preceding his application for discharge; or if insolvency proceedings in which he could have applied for a discharge are pending by or against him in the Superior Court of any other county, or city and county, in the State; *provided further*, that in case of voluntary insolvency, no debtor shall receive a discharge from his liabilities unless the value of his estate surrendered to the Sheriff, receiver, or assignee shall be reasonably worth twenty-five per cent of the aggregate amount of the claims proven against the estate. The value of such estate, if disputed by any creditor having proven his claim, shall be determined by three appraisers to be appointed by the Court, who shall be governed by the provisions of the Code of Civil Procedure for the appraisal of the estates of deceased persons. And before any discharge is granted, the debtor shall take and subscribe an oath to the effect that he has not done, suffered, or been privy to any act, matter, or thing specified in this Act, as grounds for withholding such discharge or as invalidating such discharge, if granted.

SEC. 54. Any creditor opposing the discharge of a debtor shall file specifications in writing, of the grounds of his opposition, and after the debtor has filed and served his answer thereto, which pleadings shall be verified, the Court shall try the issue or issues raised, with or without a jury, according to the practice provided by law in civil actions.

SEC. 55. If it shall appear to the Court that the debtor has in all things conformed to his duty under this Act, and that he is entitled under the provisions thereof to receive a discharge, the Court shall grant him a discharge from all his debts, except as herein-after provided, and shall give him a certificate thereof, under the seal of the Court, in substance as follows: In the Superior Court of the county of —, State of California. Whereas, — has been duly adjudged an insolvent under the insolvent laws of this State, and appears to have conformed to all the requirements of law in that behalf, it is therefore ordered by the Court that said — be forever discharged from all debts and claims, which by said insolvent laws are made provable against his estate, and which existed on the — day of —, on which the petition of adjudication was filed by (or against) him, excepting such debts, if any, as are by said insolvent laws excepted from the operation of a discharge in insolvency. Given under my hand, and the seal of the Court, this — day of — A. D. —. Attest, —, clerk. (Seal) —, Judge.

SEC. 56. No debt created by fraud or embezzlement of the debtor, or his defalcation as a public officer, or while acting in a fiduciary character, shall be discharged under this Act, but the debt may be proved, and the dividend thereon shall be a payment on account of said debt; and no discharge granted under this Act shall release, discharge, or affect any person liable for the same debt, for or with the debtor, either as partner, joint contractor, indorser, surety, or otherwise.

SEC. 57. A discharge, duly granted under this Act, shall, with the exceptions aforesaid, release the debtor from all claims, debts, liabilities, and demands, set forth in his schedule, or which were or might have been proved against his estate in insolvency, and may be pleaded by a simple averment that on the day of its date such discharge was granted to him, setting forth the same in full, and the same shall be a complete bar to all suits brought on any such debts, claims, liabilities, or demands, and the certificate shall be *prima facie* evidence in favor of such fact and of the regularity of such discharge; *provided, however*, that any creditor of said debtor, whose debt was proved or provable against the estate in insolvency, who shall see fit to contest the validity of such discharge on the ground that it was fraudulently obtained, and who has discovered the facts constituting the fraud subsequent to the discharge, may, at any time within two years after the date thereof, apply to the Court which granted it to set it aside and annul the same, or if the same shall have been pleaded, the effect thereof may be avoided collaterally upon any such grounds.

SEC. 58. The refusal of a discharge to the debtor shall not affect the administration and distribution of his estate under the provisions of this Act.

ARTICLE VIII.

FRAUDULENT PREFERENCES AND TRANSFERS.

SEC. 59. If any debtor being insolvent, or in contemplation of insolvency, within one month before the filing of a petition by or against him, with a view to give a preference to any creditor or person having a claim against him, or who is under any liability for him, procures any part of his property to be attached, sequestered, or seized on execution, or makes any payment, pledge, mortgage, assignment, transfer, sale, or conveyance of any part of his property, either directly or indirectly, absolutely or conditionally, to any one, the person receiving such payment, pledge, mortgage, assignment, transfer, sale, or conveyance, or to be benefited thereby, or by such attachment or seizure, having reasonable cause to believe that such debtor is insolvent, and that such attachment, seizure, payment, pledge, mortgage, conveyance, transfer, sale, or assignment is made with a view to prevent his property from coming to his assignee in insolvency, or to prevent the same from being distributed ratably among his creditors, or to defeat the object of, or in any way hinder, impede, or delay the operation of, or to evade any of the provisions of this Act, such attachment, sequestration, seizure, payment, pledge, mortgage, transfer, sale, assignment, or conveyance is void, and the assignee, or the receiver, may recover the property, or the value thereof, as assets of such insolvent debtor; and if such payment, pledge, mortgage, conveyance, sale, assignment, or transfer is not made in the usual and ordinary course of business of the debtor, or if such seizure or sequestration is made under a judgment which the debtor has confessed or offered to allow, that fact shall be *prima facie* evidence of fraud.

All assignments, transfers, conveyances, mortgages, or incumbrances of real estate shall be deemed, under this section, to have been made at the time the instrument conveying or affecting such realty was filed for record in the County Recorder's office of the county, or city and county, where the same is situated.

ARTICLE IX.

PENAL CLAUSES.

SEC. 60. From and after the taking effect of this Act, if any debtor or insolvent shall, after the commencement of proceedings in insolvency, secrete or conceal any property belonging to his estate; or part with, conceal, or destroy, alter, mutilate, or falsify, or cause to be concealed, destroyed, altered, mutilated, or falsified, any book, deed, document, or writing relating thereto; or remove, or cause to be removed, the same or any

part thereof, with intent to prevent it from coming into the possession of the assignee in insolvency, or to hinder, impede, or delay his assignee in recovering or receiving the same; or make any payment, gift, sale, assignment, transfer, or conveyance of any property belonging to his estate, with like intent, or shall spend any part thereof in gaming; or shall, with intent to defraud, willfully and fraudulently conceal from his assignee, or fraudulently or designedly omit from his schedule any property or effects whatsoever; or if in case of any person having, to his knowledge or belief, proved a false or fictitious debt against his estate, he shall fail to disclose the same to his assignee within one month after coming to the knowledge or belief thereof; or shall attempt to account for any of his property by fictitious losses or expenses; or shall, within three months before commencement of proceedings of insolvency, under the false pretense of carrying on business and dealing in the ordinary course of trade, obtain on credit from any person any goods or chattels, with intent to defraud; or shall, with intent to defraud his creditors, within three months next before the commencement of proceedings in insolvency, pawn, pledge, or dispose of otherwise than by *bona fide* transactions in the ordinary way of his trade, any of his goods and chattels which have been obtained on credit and remain unpaid for, he shall be deemed guilty of misdemeanor, and, upon conviction thereof, shall be punished by imprisonment in the county jail for not less than three months nor more than two years.

ARTICLE X.

MISCELLANEOUS.

SEC. 61. If any debtor shall die after the order of adjudication, the proceedings shall be continued and concluded in like manner and with like validity and effect as if he had lived.

SEC. 62. Pending proceedings by or against any person, copartnership, or corporation, no statute of limitations of this State shall run against a claim which in its nature is provable against the estate of the debtor.

SEC. 63. Any creditor, at any stage of the proceedings, may be represented by his attorney or duly authorized agent.

SEC. 64. It shall be the duty of the Court having jurisdiction of the proceeding to exempt and set apart, for the use and benefit of said insolvent, such real and personal property as is by law exempt from execution; and also a homestead, in the manner as provided in section one thousand four hundred and sixty-five of the Code of Civil Procedure. But no property or homestead shall be set apart, as aforesaid, until it is first proved that notice of the hearing of the application therefor has been duly given by the Clerk, by causing to be posted in at least three public places in the county, at least ten days prior to the time of such hearing, setting forth the name of said insolvent debtor, and the time and place appointed for the hearing of such application, which said notice shall briefly indicate the homestead sought to be exempted or the property sought to be set aside; and the decree must show that such proof was made to the satisfaction of the Court, and shall be conclusive evidence of that fact.

SEC. 65. The filing of a petition by or against a debtor upon which, or upon an amendment of which, an order of adjudication in insolvency may be made, shall be deemed to be the commencement of proceedings in insolvency under this Act.

SEC. 66. Words used in this Act in the singular include the plural, and in the plural, the singular, and the word "debtor" includes partnerships and corporations.

SEC. 67. Upon the filing of either a voluntary or involuntary petition in insolvency, a receiver may be appointed by the Court in which the proceeding is pending, or by a Judge thereof, at any time before the election of an assignee, when it appears by the verified petition of a creditor that the assets of an insolvent, or a considerable portion thereof, have been pledged, mortgaged, transferred, assigned, conveyed, or seized, on legal process, in contravention or violation of the provisions of section fifty-nine of this Act, and that it is necessary to commence an action to recover the same.

The appointment, oath, undertaking, and powers of such receiver shall in all respects be regulated by the general laws of the State applicable to receivers.

When an assignee is chosen, and has qualified, the receiver shall forthwith return to Court an account of the assets and property which have come into his possession, and of his disbursements, and a report of all actions or proceedings commenced by him for the recovery of any property belonging to the estate, and the Court shall thereupon summarily hear and settle the receiver's account, and shall allow him a just compensation for his services, including a reasonable attorney's fee, whereupon the receiver shall deliver all property, assets, or effects remaining in his hands, to the assignee, who shall be substituted for the receiver in all pending actions or proceedings.

SEC. 68. All sections of the Code of Civil Procedure of the State of California relating to contempt are hereby made applicable to all proceedings under this Act.

SEC. 69. When an attachment has been made and is not dissolved before the commencement of proceedings in insolvency, or is dissolved by an undertaking given by the defendant, if the claim upon which the attachment suit was commenced is proved against the estate of the debtor, the plaintiff may prove the legal costs and disbursements of the suit, and of the keeping of the property, and the amount thereof shall be a preferred debt. In all contested matters in insolvency the Court may, in its discretion, award costs to either party, to be paid by the other, or to either or both parties, to be

paid out of the estate, as justice and equity may require; in awarding costs, the Court may issue execution therefor. In all involuntary cases under this Act, the Court shall allow the petitioning creditors out of the estate of the debtor, if any adjudication of insolvency be made, as a preferred claim, all legal costs and disbursements incurred by them in that behalf.

SEC. 70. The Court may, upon the application of the debtor, if it be a voluntary petition, or of the petitioning creditors, if a creditors' petition, dismiss the petition and discontinue the proceedings at any time before the appointment of an assignee, upon giving ten days' notice to the creditors, in the same manner that notice of the time and place of election of an assignee is given, if no creditor files written objection to such dismissal; *provided, however*, that by consent of all creditors the proceedings may be dismissed at any time. After the appointment of an assignee, no dismissal shall be made without the consent of all parties interested in or affected thereby.

SEC. 71. An appeal may be taken to the Supreme Court in the following cases:

1. From an order granting or refusing an adjudication of insolvency;
2. From an order made at the hearing of any account of an assignee, allowing or rejecting a creditor's claim, in whole or in part;
3. From an order granting or overruling a motion for a new trial;
4. From an order settling an account of an assignee;
5. From an order against or in favor of setting apart homestead or other property claimed as exempt from execution;
6. From an order granting or refusing a discharge to the debtor.

The notice, undertaking, and procedure on appeal shall conform to the general laws of this State regulating appeals in civil cases, except that when an assignee has given an official undertaking and appeals from a judgment or order in insolvency, his official undertaking stands in the place of an undertaking on appeal, and the sureties therein are liable on such undertaking; *provided, however*, that an appeal from an order granting or refusing an adjudication of insolvency shall not stay proceedings unless a written undertaking be entered into on the part of the appellant, with at least two sureties, in such an amount as the Court or a Judge thereof may direct, but not less than double the value of the property involved, to the effect that if the order appealed from be affirmed, or the appeal dismissed, appellant will pay all costs and damages which the adverse party may sustain by reason of the appeal and the stay of proceedings.

SEC. 72. The Insolvent Act of eighteen hundred and eighty, and all amendments thereto, are hereby repealed; *provided, however*, that such repeal shall in no manner invalidate or affect any case in insolvency instituted and pending in any Court on and prior to the day when this Act shall take effect.

Senator Voorheis presented the following petition relating to enacting a Sabbath law, and same was ordered printed in the Journal:

To the California House of Representatives, 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution appointed for the good of man by the divine Law-giver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws: it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

The Courts having held that cases of contempt are criminal in their nature, and that contempts are not prosecuted by indictment or information, brings this bill within the prohibition of the Constitution, which limits the jurisdiction of the Supreme Court to criminal cases prosecuted by information or indictment.

We therefore hold that the proposed law, if passed, would be unconstitutional.

McGOWAN, Chairman.

ON RETRENCHMENT AND PUBLIC EXPENDITURES.

SENATE CHAMBER, SACRAMENTO, February 7, 1895.

MR. PRESIDENT: Your Committee on Retrenchment and Public Expenditures beg leave to submit the report of its sub-committee, appointed to investigate and report upon the condition and management of the public institutions and commissions of this State, which said report is hereto annexed.

SEYMOUR, Chairman.

REPORT.

MR. CHAIRMAN: Your Sub-Committee on Retrenchment and Public Expenditures, appointed to investigate and report upon the condition and management of certain of the public institutions of the State, beg leave to report as follows:

Your sub-committee visited the State Normal School at Los Angeles, the Whittier State School, the Insane Asylum at Highlands, and personally inspected and investigated the same, and the management thereof, in connection with the Committees on Public Buildings and Prison Buildings.

The result of our investigation and the recommendations and views of this committee, will be found embodied in the several reports on these institutions, made by the above-named committees (to which reference is hereby made), with which this committee cooperated in their examination and investigation thereof. In addition to the matter stated in such reports, your committee would suggest, and recommend, that the salaries and compensation paid many of the officers and employés of said institutions be scaled down in conformity with the provisions of Senate Bill No. 605, introduced by Senator Seymour, and recommended by your committee. This measure of retrenchment we deem desirable and just, in view of the general shrinkage of values and widespread financial distress prevailing in this State.

Your sub-committee also visited and inspected the various sites and properties so generously offered the State by the citizens of San Diego and Escondido, for the location and establishment of a State Normal School. While we recognize and appreciate the munificent offer to the State, of these valuable and beautiful properties, we do not feel that it is prudent, nor wise, at this time, for the State to accept any of them, for the reasons above given in relation to the reduction of salaries, etc. However, should it be deemed best to establish another State Normal School in California, we earnestly recommend that the same be established at San Diego, and that the property at Ocean Beach be accepted as the most desirable for that purpose.

Respectfully submitted.

SHIPPEE,
BURKE,
Sub-Committee.

Also the following:

REPORT OF SUB-COMMITTEE.

Senator Mathews, from the Sub-Committee on Military Affairs, presented the following report, and same was ordered printed in the Journal:

SENATE CHAMBER, SACRAMENTO, February 9, 1895.

MR. PRESIDENT: Your Committee on Military Affairs beg leave to submit the report of its sub-committee, appointed to investigate and report upon the condition of the National Guard of California stationed and located at Los Angeles and San Diego, which said report is hereto annexed:

REPORT.

The sub-committee of your Committee on Military Affairs, to whom was referred and assigned the duty of visiting the troops of the National Guard of California stationed and located at Los Angeles and San Diego, beg leave to report as follows:

That on Wednesday, the 30th ult., they left Sacramento for Los Angeles, and reached the last named city on the afternoon of Thursday, January 31st, and proceeded almost immediately to the armories there.

On Saturday, February 2d, we proceeded to San Diego, where, in the evening, we inspected the troops located there, in the square, in front of the Horton House.

At both cities visited a careful and thorough examination and inspection were had, and in the evening all the troops were required to pass in review, after which each company was required to drill separately, in order that your committee could ascertain the efficiency of each of the several companies and commanding officers.

We find the character of men composing the troops to be of a high grade, physically and morally; they are proficient in the manual of arms, well officered and disciplined. The uniforms are in good condition, lacking, however, overcoats, knapsacks, canteens, and blankets, but on account of the climatic conditions existing there, the latter articles are not essential or necessary, and can be dispensed with for the present. The armories and equipments generally are in excellent condition. They have sufficient arms, but such as they have are of very poor quality, old and obsolete. Your committee respectfully recommend that they be supplied with new arms of modern date, at once.

We also desire to call attention to, and specially commend the Signal Corps located at Los Angeles, which is an important branch of the service, and, in the opinion of the committee, should be retained and encouraged; and particularly do we desire to call attention to the Naval Reserve located at San Diego, which we found to be composed of enthusiastic, patriotic, and intelligent Americans. We recommend and urge that it be fostered and maintained, as being a branch of the service well calculated to encourage the growth of American seamen to man our American vessels.

Respectfully submitted.

BERT, Chairman.
MATHEWS.
PEDLAR.

Also the following:

SENATE CHAMBER, SACRAMENTO, February 9, 1895.

MR. PRESIDENT: Your Committee on Judiciary, to whom was referred Senate Bill No. 249, respectfully report that it has had the same under consideration and respectfully report as follows:

We find that the provisions of said bill as far as line eight are covered by a present statute, and that all of line eight, after and including the word "and" to and including the word "do," on line eleven, is an attempt to confer the power to abate a nuisance

upon a Justice of the Peace, and is therefore unconstitutional, as conferring equity powers upon a Court not permitted to exercise those powers under the Constitution.

The other parts of the bill attempt to confer the power upon a Justice of the Peace to enforce a lien. This power, by all the decisions, is a matter of equity jurisdiction, and under the statute is not allowed to Justices of the Peace. We therefore hold that the provisions last referred to are unconstitutional, and that the part of the law which we consider constitutional is already covered by the present statute.

We recommend that the bill do not pass.

McGOWAN, Chairman.

To the Honorable the Legislature, State of California:

GENTLEMEN: We, the undersigned citizens, barbers by profession, residents of San Francisco, respectfully petition your honorable body to enact a law which will bring

about a uniform system to close up barber shops, and bath houses where such are attached to barber shops, on Sundays and all legal holidays, at the hour of twelve o'clock m., and providing for a fine of not less than twenty-five dollars for the violation of such law. We deem the passage of such a law a benefit to all the members in our profession, and that the time allowed fully meets the wants of the public and secures to us a half day of each week for rest and recreation. And your petitioners would ever pray.

Respectfully,

(Signed:) Shaen & Crown, 409 Pine Street, and three hundred and twenty-three others.

Also, a similar petition from Sacramento, signed by A. Hoefer and thirty-nine others.

Also, similar petition from Petaluma, signed by R. S. Adams and thirteen others.

RESOLUTIONS UNANIMOUSLY ADOPTED BY THE SAN DIEGO CHAMBER OF COMMERCE.

To the Senate and Assembly of the State of California:

WHEREAS, We are informed a bill has been introduced into the Legislature doing away with County Fairs and providing for simply two State Fairs, one at Sacramento and one at Los Angeles; and whereas, such an arrangement would work a great hardship to all growers, and especially the smaller ones of distant counties; therefore, be it

Resolved, First, That the San Diego Chamber of Commerce heartily protests against the passage of the first part of said bill, viz.: the part abolishing County Fairs.

Second, That we recommend that the funds appropriated for the State Fair at Sacramento be divided, and a portion given towards a second State Fair, to be located in Southern California.

PHILIP MORSE, President.

Attest: R. H. YOUNG, Secretary.

Also the following:

To the Honorable the Senate and Assembly of the State of California:

The Demorest Club of the city of San Diego, California, believing that the contemplated Low License Law is antagonistic to the best welfare of your constituency; that the sovereign right of the people to sustain their constitutional liberty is assailed by it, and that it deprives counties and municipalities of their constitutional privileges in regard to the restriction of saloons in their vicinity, do hereby earnestly protest against the passage of the bill known as the Uniform Low License Law.

FRANK H. MOUSER, Chairman.
NELLIE A. FRENCH.
ANNA M. LIVINGSTON.

Senator Mathews presented the following petition, and same was ordered printed in the Journal:

LOS ANGELES, CAL., February 7, 1895.

To Hon. JOHN R. MATHEWS:

The undersigned, voters of Thirty-seventh Senatorial District, and Notaries Public in and for the County of Los Angeles, California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as that of much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper); and believing that notarial fees are now none too large for such responsible duties, and that a reduction of said fees would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages and who is now their representative in the law-making body of

the State, to oppose, both by your vote and influence, the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

(Signed:) S. P. Mulford, J. A. Kelly, W. J. Variel, Gregory Perkins, Jr., Edwin A. Meserve, H. W. Duncan, I. W. Stewart, Edwin Baxter, L. A. Phillips, Ed. A. Beck, Alfred Cooper, Chas. A. We, the undersigned, interested in mining in Nevada City, Nevada County, enter a vigorous protest against the abolition of the State Mining Bureau, or its transfer to the State University.

The Mining Bureau is the only State institution maintained in the interest of the miners of California, and is doing useful and satisfactory work. It should be continued as it is, and a liberal appropriation given to still further help the mining interests of California, which need fostering just as much as those of an agricultural nature.

Senator Whitehurst presented the following petition, and same was ordered printed in the Journal:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution appointed for the good of man by the divine Law-giver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

To Hon. ELLIOTT McALLISTER, State Senator:

The undersigned, voters of your district, and Notaries Public in and for the County of Marin, California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as that of much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper); and believing that notarial fees are now

none too large for such responsible duties, and that a reduction of said fees would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages, and who is now their representative in the law-making body of the State, to oppose, both by your vote and influence, the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

REPORTS OF STANDING COMMITTEES—(OUT OF ORDER).

SUB-COMMITTEE ON RETRENCHMENT AND PUBLIC EXPENDITURES.

Senator Shippee, from the Sub-Committee on Retrenchment and Public Expenditures, presented the following report, and same was ordered printed in the Journal:

SACRAMENTO, February 11, 1895.

In behalf of the joint committee appointed from the Senate and Assembly to inspect the management and the financial affairs of the Preston School of Industry, at Ione, I beg to report as follows:

The members of your committee visited Ione as directed, and spent two days in inspecting the buildings, the ditches, reservoir, and water system, the contracts, and the management of the school.

We made diligent inquiry into the extent, the capacity, and efficiency of the water system, and find that the ditches, the water pipe, and the reservoir are all substantially constructed and of sufficient capacity to furnish all of the power required for lighting and mechanical purposes, and all the water required for domestic use and for irrigation, so far as your committee could ascertain.

The buildings are well constructed, of fine architectural appearance, and are well adapted to the purposes for which they were designed.

The furniture, while not of the cheapest material, is plain and substantial, and has evidently been selected for its durability and utility.

The premises throughout present a neat and tidy appearance, and give evidence of a systematic and careful oversight on the part of the Superintendent and his subordinate officers.

The school is conducted on what is known as the "open" plan, without bars to the windows or walls or fences, other than the ordinary farm fence for inclosure; and yet

the system of discipline and management is such that although the boys have the freedom of the grounds, yet the attempts at escape are comparatively few.

We visited the boys in their assembly-room, and found them dressed neatly in gray uniforms, cheerful, and seemingly contented and appreciative of the attentions shown them.

We found the Mechanical Trades School to be worthy of special mention, containing a model laundry, and departments for the several mechanical trades to be taught.

The administration building, however, while well equipped and well designed, has not sufficient capacity for the proper care and disposition of the inmates.

The dormitories are already nearly filled. The hospital, including the ward for contagious diseases, is in the main building.

For lack of other facilities, the large bath-room in the basement is now necessarily used as the Commissary's store-room.

The kitchen, bakery, and dining-rooms are not of sufficient capacity for the future accommodation of the inmates.

We therefore recommend the appropriations set forth in Senate Bills Nos. 193 and 194, as amended, which appropriate moneys for the construction of the additional buildings as set forth in the foregoing statement.

We also recommend the introduction of a bill appropriating the sum of two thousand five hundred dollars for the purchase of an additional tract of seventy acres of land known as the Randall Ranch tract, being a triangular piece of land lying contiguous to the buildings and premises of the school, and between said premises and the county road leading from Ione to Sacramento.

In regard to the compensation and number of the subordinate officers and employes, we find that the rates of compensation compare favorably with those of any other State institution, that there are no supernumeraries, and that if any criticism is to be made, it is for overwork rather than idleness or lack of employment.

We investigated the manner of letting contracts, and of purchasing supplies, and find that all contracts were duly advertised for and awarded to the lowest bidder, in accordance with law, and that any past inference of extravagance or misappropriation of funds was unwarranted and without foundation in fact.

Also the following:

SENATE CHAMBER, SACRAMENTO, February 12, 1895.

MR. PRESIDENT: The Sub-Committee on Retrenchment and Public Expenditures, appointed to investigate and report upon the condition and management of the Preston School of Industry, at Ione, having visited said institution, and reported back the result of their investigations to the Senate, now present their account for mileage, as follows:

Senator Shippee, 118 miles.....	\$11 80
Lizzie Neubauer, 118 miles.....	11 80
Total	\$23 60

Therefore,

Resolved, That the Controller be and he is hereby directed to draw his warrant in favor of Senator Shippee, Chairman of said sub-committee, for the sum of twenty-three dollars and sixty cents, as per above statement, said warrant to be so drawn upon the fund for the contingent expenses of the Senate, and the Treasurer is directed to pay the same.

SHIPPEE, Senate Sub-Committee.

The latter part of the report was referred to the Committee on Attachés, Contingent Expenses, and Mileage.

INTRODUCTION OF SENATE JOINT RESOLUTION—(OUT OF ORDER).

By Senator Voorheis:

SENATE JOINT RESOLUTION No. 12.

WHEREAS, Protection of American industries against the competition of the cheap labor countries of the world is the controlling and public policy of this nation; and whereas, the present method of protection by a tariff on imports can only protect the home market of manufactures against imports, but cannot protect the staples of agriculture against foreign competition, because these are produced in surplus quantities for export; and whereas, to protect one industry and to leave the other unprotected, is to compel the unprotected industry to pay for the protection of the protected industry, which is an injustice; therefore, we respectfully memorialize the Congress of the United States to remove this injustice by providing by law an equal measure of protection to the staples of agriculture now granted to manufactures; and that this be done by applying a portion of the revenue now collected as protective tariff in the payment of an export bounty on the staples of agriculture.

WHEREAS, On the tenth day of December, 1894, the Hon. W. H. Hatch submitted the following resolution in the House of Representatives, and which was referred to the Committee on Agriculture of the House of Representatives:

"WHEREAS, Current market prices of the principal agricultural staples have declined to about half their former rates, and are sold in many instances at or below the cost of production; and whereas, such a condition must tend to the elimination of the independent land-owning farmer and his replacement by a dependent peasant tenantry, which, unless prevented, will not only prove detrimental to agriculture and the kindred industries, but also to the perpetuity of American institutions; therefore,

Resolved, That the Committee on Agriculture of the House of Representatives be and are hereby directed to inquire into the causes of the depression of American agricultural staples and the relative condition of agriculture to the manufacturing industries, and report the same to the House, with such suggestions as they may deem proper regarding the differences or inequalities, if any exist, so far as they are caused by legislation, or as legislation can remedy them."

A hearing was had on the above resolution on December 15th and 17th, and a limited number of copies of the proceedings on the resolution was ordered printed for free distribution; and whereas, these copies have all been distributed, and many more are in demand in our State for the information of the people; therefore,

Resolved, That we request our Representatives in Congress to present a resolution during the present session, authorizing the publication and free distribution of twenty-five thousand copies of said "hearing" for the State of California.

Resolved, That the Secretary of the Senate is hereby instructed to transmit a copy of this resolution to each of our Representatives in Congress without any delay.

Resolved, That a copy of these resolutions be transmitted to Congress.

Referred to Committee on Agriculture, Horticulture, Viniculture, and Viticulture.

PETITIONS.

Senator Holloway presented the following petitions, and same were ordered printed in the Journal:

THE PARDONING POWER.

To the Senate and Assembly of California:

WHEREAS, Petitions numerous signed by sympathetic women and men, who have not the courage to refuse their signatures, together with various other influences, are brought to bear on our Governors for pardons, and it is more than likely of such persons signing petitions for pardons, that not more than one in a hundred, if even one in a thousand, have heard the evidence or know the facts in the case; and whereas, the jurors who have convicted, and the Judge who has sentenced said criminals, having heard all the evidence, the argument, and the law in the case—always giving the prisoner the benefit of any doubt—certainly should know much better what the criminal's just dues are than could any petitioners who do not know the facts in the case; and whereas, our Governors at the beginning of their terms grant but few pardons, but, as time rolls on begin to increase them; and as it seems that there is some pressure brought to bear upon them which they cannot withstand, and that toward the last of their terms they grant them by the wholesale. We are opposed to any system of credits in our prisons, believing that the time for which a person is sentenced should be the time for him to serve, and that good behavior and obedience to the prison rules should be required, but that disobedience should add to the term of sentence, according to the degree of bad conduct, as judged by the Prison Commissioners.

Also, your petitioners believe that the pardoning power should be invested in no one man; that our Senate, consisting of forty members, is not too large a body for a pardoning power, and that it should require at least a two-thirds vote of that whole body, or of any body or commission that may be invested with the pardoning power, to obtain a pardon or reprieve.

Your petitioners would respectfully ask your honorable bodies to pass a law to establish some such pardoning power.

Also the following:

TAXES AND DELINQUENCIES.

To the Senate and Assembly of California:

Your petitioners would represent that the present system of collecting taxes is unreasonably hard on the taxpayers:

First—The first installment, under our present law, falling delinquent in November, is not used at all until January; and the second installment, falling delinquent in April, is not used until July, both installments thereby robbing the taxpayers of so much interest and giving the benefit of the same to the Treasurer or to some bank.

We would therefore ask that the law be so amended that the first payment be delinquent on the last Tuesday of December, and that the second installment be delinquent on the last Tuesday of June; also that on delinquencies of the first installment only five per cent be added, if the same be paid by the first of April, and ten per cent if not then paid.

Second—Your petitioners believe that the office of County Treasurer is of no use in Sonoma County, as our money is deposited in some bank by the Treasurer; therefore, we believe that the office should be abolished, and that the Board of Supervisors should be empowered to deposit the money with the bank that would give good security and pay the best interest, at the same time filling all the duties of our present Treasurer.

Also the following:

To the Legislature of the State of California:

We, the undersigned, residents, voters, and taxpayers of Mendocino County, California, would most respectfully represent that the present road law is inefficient; that under its operations large sums of money are expended without corresponding benefits to the taxpayers.

Wherefore, we request that you enact a law that shall require the Board of County Supervisors to appoint suitable persons, taxpayers, residing within the limits of each road district, whose duties shall be the same as those now directed to be performed by the several County Supervisors, as Road Commissioners.

Senator Ford presented the following petition, and same was ordered printed in the Journal:

We, the undersigned, interested in mining in Bodie, Mono County, enter a vigorous protest against the abolition of the State Mining Bureau, or its transfer to the State University.

The Mining Bureau is the only State institution maintained in the interest of the miners of California, and is doing useful and satisfactory work. It should be continued as it is, and a liberal appropriation given, to enable it to still further help the mining

interests of California, which need fostering just as much as those of an agricultural nature.

ON FINANCE.

SENATE CHAMBER, SACRAMENTO, February 13, 1895.

MR. PRESIDENT: Your Committee on Finance, to whom was referred Senate Bill No. 4—An Act to provide for the payment for the advertising of the Constitutional Amendments, and to make an appropriation therefor.

Also: Senate Bill No. 190—An Act to provide for the payment for the advertising of the Constitutional Amendments, and to make an appropriation therefor.

Have had the same under consideration, and respectfully report the same back, and recommend that the accompanying substitute do pass:

Also:

MR. PRESIDENT: Your Finance Committee have had under consideration the newspaper charges for advertising Constitutional Amendments, and respectfully submit a substitute for the pending bills. The amount asked for in the original bill is one hundred and nine thousand seven hundred and fifty-three dollars and twenty cents. The substitute reported by the committee calls for an appropriation of forty-eight thousand six hundred and sixty-two dollars, to pay for the publication of the amendments in the English language.

The bills of the "California Demokrat," "Le Franco Californien," "Le Voce del Popolo" and "L'Italia," amounting to eighteen thousand nine hundred and forty-two dollars and sixty-seven cents, could not be allowed, as the publication was made in other than the English language. In this regard, section twenty-four, article four of the Constitution of California declares: "And all laws of the state of California, and all official writings, and the executive, legislative, and judicial proceedings shall be conducted, preserved, and published in no other than the English language."

Many of the bills rendered were found, on investigation, to be excessive, and the committee, therefore, cut down the charges, respectively, to figures approximating commercial rates for advertising. The reduction was applied to all classes of journals on the list, and the amounts recommended to be paid are believed to be fair and equitable.

Also: Senate Bill No. 630—An Act making an appropriation to pay the deficiency in the appropriation for the transportation of insane for the forty-fourth fiscal year—have had the same under consideration, and respectfully report the same back, and recommend that it do pass.

Also: Senate Bill No. 631—An Act making an appropriation to pay the deficiency in the appropriation for payment of transportation of children to the State Reform School for Juvenile Offenders for the forty-fourth fiscal year—have had the same under consid-

eration, and respectfully report the same back, and recommend that it do pass as amended.

Also: Senate Bill No. 558—An Act making an appropriation to pay the claim of James A. Johnson for legal services in the harbor front cases.

Also: Senate Bill No. 6—An Act making an appropriation to pay the deficiencies in the appropriation for costs and expenses of suits in which the State is a party in interest, for the thirty-fifth, thirty-sixth, thirty-seventh, thirty-eighth, thirty-ninth, and fortieth fiscal years.

We, the undersigned, interested alike in the fostering and promotion of the mining interests of the State, our great source of wealth and prosperity, see with regret a proposition in the Legislature to limit the scope of usefulness of the Mining Bureau.

This institution is of great value to the miners, and is the only one fostered by the State representing their interests, and from which they are receiving great benefit through its publications, reports, and mineral exhibit, and by which the attention of capital is being called to investment in our mines. We therefore protest against its removal from its present location, and we recommend an appropriation sufficient to enable it to continue its great usefulness to the miners and people of the State at large.

MEMORIAL.

Senator Flint presented the following memorial, and same was ordered printed in the Journal:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution, appointed for the good of man by the divine Law-giver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

(Signed,) Mrs. D. K. Frasier, Leroy Frasier, D. K. Frasier, Emory Frasier, Mrs. David Jacks, David Jacks, M. R. Jacks, Katie McGrath, William Owen, M. J. Thomas, Mrs. G. C. Bowman, Mary E. McCord, J. W. Atkinson, Sarah A. Montgomery, William Kay, Joseph P. Miller, Mrs. M. Miller, Mrs. Nellie V. Sanchez, Joseph Montgomery.

ASSEMBLY JOINT RESOLUTION No. 13.

Assembly Substitute for Senate Joint Resolution No. 2, relative to the free coinage of silver.

WHEREAS, We recognize the fact that by the demonetization of silver, and by refusal to give it equal standing in the coinage system of the United States, the material interest of the Nation is dangerously impaired; and whereas, it is recognized to be a fact that the opposition to silver coinage emanates from speculative syndicates and moneyed classes who seek to embarrass the people of the Nation for the advancement of their own selfish ends; and whereas, we entertain the firm belief that the full measure of National prosperity will never be restored until the coinage of silver is resumed, in accordance with the true intent and spirit of the Constitution of the United States, and having unbounded faith in the power and ability of this Nation to restore and maintain silver in its proper position alongside of gold; and whereas, we believe that the issue of United States bonds for the purpose of maintaining a single gold standard, or any standard that does not contemplate the free and unlimited coinage of silver, is a practice fraught with the greatest danger to the stability of our institutions and the maintenance of National credit; therefore, be it

Resolved, That our Senators in Congress be instructed, and our Representatives be requested, to earnestly and urgently advocate the immediate enactment of such laws as may be necessary to provide for the immediate resumption of the free and unlimited coinage of silver in the ratio of sixteen to one; and be it further

Resolved, That our Senators be instructed, and our Representatives be requested, to actively advocate the enactment of such laws as may be necessary to prevent the issue of United States bonds for the sole purpose of maintaining a single gold standard of money; and be it further

Resolved, That the Governor be requested to immediately transmit a copy of these resolutions to each of our Senators and Representatives in Congress.

Assembly Joint Resolution No. 13 (Assembly Substitute for Senate Joint Resolution No. 2) was read.

MOTION.

Senator Voorheis moved that the Senate concur in Assembly Joint Resolution No. 13 (Assembly Substitute for Senate Joint Resolution No. 2).

The roll was called, and Assembly Joint Resolution No. 13 (Assembly Substitute for Senate Joint Resolution No. 2) concurred in by the following vote:

NOES—Senators McAllister, Whitehurst, and Withington—3.

On motion of Senator Voorheis, Assembly Joint Resolution No. 13 (Assembly Substitute for Senate Joint Resolution No. 2) was ordered immediately transmitted to the Assembly.

Resolved, That a sub-committee from the Committee on Harbors, Rivers, and Coast Defenses, and consisting of three members, be and they are hereby granted leave of absence to visit San Diego, Oakland, San Pedro, Santa Monica, Santa Barbara, Port Harford, and Alviso, in Santa Clara County, for the purpose of inspecting the harbors of the various places herein mentioned; and they are hereby directed to report to this Senate the result of their investigations.

PETITIONS.

Senator Orr presented the following petitions, and same were ordered printed in the Journal:

SANTA BARBARA COUNTY, CAL., February 9, 1895.

To Hon. ORESTES ORR, Senator:

The undersigned, voters of your Senatorial District, and Notaries Public in and for the county of Santa Barbara, California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as that of much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper), and believing that notarial fees are now none too large for such responsible duties, and that a reduction of said fees would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages, and who is now their representative in the law-making body of the State, to oppose, both by your vote and influence, the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

(Signed:) Henley C. Booth, C. A. Thompson, W. W. Benton, Joseph J. Perkins, F. M. Whitney, B. S. Hayron, W. H. Woodinger, John O. Coit, W. P. Butcher, Grant Jackson, J. L. Hurlbut, Caleb Sherman, Philip Stewart, M. Thornburg.

Also the following:

To the honorable members of the Senate and Assembly of the State of California:

We, the undersigned, citizens of Ventura County, California, do most respectfully ask that section two hundred and sixty-one of the Penal Code of this State be so amended as to make the "age of consent" eighteen years; and that paragraph one of section two hundred and sixty-one be amended so as to read: "1. Resolved, That the Board of Trade of Santa Barbara County protests against the proposed discontinuance of State aid to the agricultural fairs held in the various counties of this State; and requests the representatives in the Legislature of our Assembly and Senatorial districts to exert their best efforts to have said aid continued.

Also the following:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution appointed for the good of man by the divine Law-giver, who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

COMMUNICATION.

Senator Biggy presented the following communication, and same was ordered printed in Journal, and referred to Committee on Finance:

"THE EXAMINER," SAN FRANCISCO, February 14, 1895.

To the Senate of the State of California, Sacramento, Cal.:

GENTLEMEN: We beg to protest against the action of your Finance Committee in reducing the amount of the "Examiner's" bill for publishing the constitutional amendments.

In the first place, publication was made in the "Examiner" by order of the Governor, and the charge made was at the same rate as the "Examiner" charges its largest commercial customers. This we are prepared to substantiate, if given an opportunity to do so before your committee.

In the second place, your committee has allowed the same amount to the other morning papers of San Francisco as was allowed to the "Examiner." On account of its larger circulation, advertising in the "Examiner" sells for a higher rate than in any other San Francisco newspaper.

It is apparent from the sums awarded to the different newspapers by your committee that your committee did not in any way take into consideration the value of the advertising sold.

We respectfully submit that the action of your committee in arbitrarily reducing a just claim, without giving due consideration to the merits of the same, is calculated to bring the State into contempt, and deprive it of that credit which is necessary to its proper maintenance.

Very respectfully yours,

W. R. HEARST.

Senator Pedlar presented the following petition, and same was ordered printed in the Journal:

MADERA COUNTY, CAL., February 8, 1895.

To Hon. A. J. PEDLAR:

The undersigned, voters of Fresno and Madera Counties, and Notaries Public in and for the county of Madera, California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as that of much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper); and believing that notarial fees are now none too large for such responsible duties, and that a reduction of said fees would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages, and who is now their representative in the law-making body of the State, to oppose, both by your vote and influence, the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

(Signed:) Robert S. Hargrove, J. B. Meloche, E. M. McCardle, Francis A. Fee, O. T. Redfield, W. C. Maze, H. W. Larew.

Senator Ford presented the following petition, and same was ordered printed in the Journal:

WHEREAS, We are informed that a bill is about to be introduced in the Legislature of this State, making it unlawful for the Board of Supervisors of any county to levy a license tax upon the business of raising or pasturing sheep; and whereas, each year large bands of sheep are driven into this, Plumas County, and pastured here during the

summer season, thus destroying our pastures and doing great injury to our roads; and whereas, no taxes are paid into the treasury of this county by the owners of such sheep, and if the proposed bill should become a law, the number of sheep pastured in this county each year would be greatly increased, thereby resulting in the destruction of our pastures and great injury to our roads; be it

Resolved, That our representatives at Sacramento are earnestly urged to do all in their power to secure the defeat of said bill, and to preserve the law as it now exists.

Resolved, further, That the Clerk of this Board transmit a copy of these resolutions to the Hon. Tiley L. Ford, Senator in and for this Senatorial District, and a copy thereof to the Hon. E. V. Spencer, Assemblyman in and for this Assembly District.

Adopted by the unanimous vote of the Board of Supervisors of Plumas County, this eleventh day of February, 1895.

MONTEREY COUNTY, CALIFORNIA, February 11, 1895.

To Hon. THOS. FLINT, Senator:

The undersigned, voters of Monterey and San Benito District, and Notaries Public in and for the county of Monterey, California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper); and believing that notarial fees are now none too large for such responsible duties, and that a reduction of said fees would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages, and who is now their representative in the law-making body of the State, to oppose both by your vote and influence the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

(Signed:) H. W. Briggs, B. A. Eardley, E. C. Smith, F. W. Ellis.

GENTLEMEN: We, the undersigned, officers of building and loan associations, respectfully protest against the abolition of the Building and Loan Commission, because we believe it has been of great practical benefit to the building and loan interests in this State, and promises to be of still greater benefit. Senator Martin presented the following memorial, and same was ordered printed in the Journal:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution appointed for the good of man by the divine Law-giver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

Senator Simpson presented the following petition, and same was ordered printed in the Journal:

LOS ANGELES COUNTY, CALIFORNIA, February 7, 1895.

To Hon. C. M. SIMPSON:

The undersigned, voters of the Thirty-sixth Senatorial District, and Notaries Public in and for Los Angeles County, California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as that of much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper); and believing that notarial fees are now none too large for such responsible duties, and that a reduction of said fees

would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages, and who is now their representative in the law-making body of the State, to oppose, both by your vote and influence, the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

(Signed:) W. F. Poor, I. H. Preston, Franklin Jordan, L. G. Kellogg, George B. Beebe, Jas. E. Hannon, F. E. Lacey, E. K. Blades, B. W. Diehl, Charles J. Fox, Gail B. Johnson, F. R. Cummings, E. W. PETITION.

Senator Gesford presented the following petition, and same was ordered printed in the Journal:

To the California Senate of 1895:

We, the undersigned, citizens of the State, do hereby respectfully call attention to the following facts:

1. The weekly day of rest, the Sabbath, is a benevolent institution, appointed for the good of man by the divine Law-giver who governs the nations.

2. The best interests of the State are conserved by Christian morality, which is inseparably connected with the proper observance of the Sabbath; therefore, to ignore it as a day sacred to rest and worship tends to the subversion of religion and to the relaxation of moral restraints. It follows, therefore, that legislators who make good laws in favor of Sabbath observance are the best friends of the State.

3. Nearly all the States of the Union have such laws; it is for California's best interest to have such a law.

Therefore, we, your memorialists, do respectfully ask you to enact such a Sabbath law as will be founded upon and agreeable to the moral law of God, and that will not do wrong to any class of citizens.

PETITIONS.

Senator Gleaves presented the following petitions, and same were ordered printed in the Journal:

We, the undersigned, interested alike in the fostering and promotion of the mining interests of the State, our source of wealth and prosperity, see with regret a proposition in the Legislature to limit the field of usefulness of the Mining Bureau.

This institution is of great value to the miners, and is the only one fostered by the State representing their interests, and from which they are receiving marked benefits through its mineral exhibit, publications and reports, and by which the attention of capital is being called to investment in our mines; we therefore protest against its removal from its present convenient location, and we recommend an appropriation

sufficient to enable it to continue its great usefulness to the miners and people of the State at large.

MODOC COUNTY, CALIFORNIA, February 12, 1895.

To Hon. J. M. GLEAVES:

The undersigned, voters of the Second Senatorial District, and Notaries Public in and for the County of Modoc, State of California, recognizing the great responsibilities connected with their official acts, inasmuch as the title to every dollar's worth of real property in the State depends upon the care and correctness with which they perform said acts (as well as that of much of the personal property in the State when they are administering oaths, taking depositions, and protesting commercial paper); and believing that notarial fees are now none too large for such responsible duties, and that a reduction of said fees would tend to cause notarial work to pass into irresponsible and incompetent hands, respectfully request you, as one who has heretofore been a candidate for their suffrages, and who is now their representative in the law making body of the State, to oppose, both by your vote and influence, the passage of what is known as Assembly Bill No. 191, and any other measure looking to a reduction of notarial fees.

All Committee Clerks receive five dollars per day except Judiciary and First Clerk of Finance, who receive eight dollars.

The number of such officers and employes is 163, of whom 19 are statutory; the daily pay of the statutory officers amounts to \$99, and of the attachés \$735, or a daily aggregate for both of \$834. If this were continued for the constitutional period of sixty days, the expenditure for the statutory officers for this session will amount to \$5,940, and for the attachés \$44,100, and the aggregate for the officers and employes for the same period, \$50,040. Excluding the statutory officers, the weekly payroll of the Senate attachés amounts to \$5,145; and for the information of the Senate, we annex a weekly payroll for the largest week for each session since the adoption of the Constitution, of both Senate and Assembly, as follows:

	Senate.		Assembly.	
	Number.	Amount.	Number.	Amount.
Twenty-fourth session, 1881	32	\$1,125 00	40	\$1,274 00
Twenty-fifth session, 1883	42	1,527 00	51	1,718 00
Twenty-sixth session, 1885	45	1,967 00	75	2,565 00
Twenty-seventh session, 1887	72	2,523 00	78	2,742 00
Twenty-eighth session, 1889	98	3,513 00	100	3,458 00
Twenty-ninth session, 1891	64	2,261 00	70	2,534 00
Thirtieth session, 1893	96	3,331 00	109	4,002 00
Thirty-first session, 1895	144	5,145 00	129	4,734 00

Together with the total contingent expenses for each session of each body, as follows:

	Senate.	Assembly.
Twenty-fourth session, 1881.....	\$12,727 60	\$19,500 00
Twenty-fifth session, 1883.....	15,000 00	22,057 00
Twenty-sixth session, 1885.....	20,831 00	34,967 46
Twenty-seventh session, 1887.....	37,654 34	38,934 13
Twenty-eighth session, 1889.....	53,453 21	60,645 14
Twenty-ninth session, 1891.....	36,072 37	42,850 13
Thirtieth session, 1893.....	43,966 08	59,990 08

An examination of these figures shows an increase of officers and contingent expenses out of proportion to the increase of population and business, and we believe it due to the cumbersome and unbusinesslike method by which the attachés of the Senate are appointed under existing laws.

We report that it is expedient to fix by law the number of such officers and employes, to be increased only in case of extraordinary emergency, and that their positions and salaries should be fixed by law, but we deem it inexpedient to fix their duties further than is now fixed by law, and in the substitute bill which we herewith report; but in order to put upon the records of the Senate more clearly what such duties are, and in compliance with the resolution under which we were appointed, we report the duties of the present officers and employes as follows:

SECRETARY OF THE SENATE.

The Secretary of the Senate's duties are: To call the roll, read the Journal, supervise all copying, and have supervision of all clerks and employes of the Senate.

There should be three Assistant Secretaries of the Senate; they should make file, register bills, put backing on bills, send bills to printer, and all other matters to printer whatever is necessary, and assist the Secretary.

The Assistant Secretaries of the Senate should be chosen by the Secretary of the Senate.

MINUTE CLERK OF THE SENATE.

The Minute Clerk and his assistants keep the minutes of all proceedings of the House. One Minute Clerk and two assistants are necessary.

SERGEANT-AT-ARMS.

The Sergeant-at-Arms has supervision of all attachés, such as porters, messengers, and attends to the supervision of keeping rooms, Senate Chamber, lobbies, etc.; is ordered to serve subpoenas for the Senate, or for any committee; is to have charge of bills after printing, and see to their distribution, and to the distribution of other printed matter.

JOURNAL CLERK.

The duties of the Journal Clerk are to compare the minutes with the Journal of each day's proceedings, correct the typographical errors, make note of and correct errors ordered by the Senate, before approval of the Journal.

For this office one assistant is all that is necessary.

ENGROSSING CLERK.

The duties of the Engrossing Clerk are to engross all bills not considered in the second reading. For the first part of the session all that is necessary is the Engrossing Clerk, but for the latter half of the session he should have three assistants.

ENROLLING CLERK.

The duties of the Enrolling Clerk are the same as that of the Engrossing Clerk, excepting bills are compared after enrollment instead of after engrossment. He needs but one assistant, until the latter part of the session, when he should have three assistants.

ASSISTANT SERGEANT-AT-ARMS.

The duties of the Assistant Sergeant-at-Arms are to announce messages from the Assembly and have charge of the center gate of the Senate.

POSTMISTRESS.

The Postmistress and assistant attend to the delivery of mail, selling stamps, etc.

PORTERS TO SERGEANT-AT-ARMS.

Clean and take care of Senate Chamber, hall, and the corridors adjacent thereto, and Sergeant-at-Arms' room, and, by custom, have never attended to committee-rooms unless appointed by committee or resolution.

PAGES.

Wait on Senators, President, and officers of the Senate. On duty during sessions, after sessions till six o'clock, and from seven to eight in the evenings, unless there are evening sessions. All are to remain during session. Five Pages are ample.

HISTORY CLERK.

Compiles a history of all Senate Bills, Constitutional Amendments, and Joint Resolutions. Must, on the last day of every week, take from the register the last action and condition of every bill.

BILL CLERK AND ASSISTANT.

Arrange and keep in order all bills when they arrive from the printer.

BOOKKEEPER TO SERGEANT-AT-ARMS.

Takes care of warrants, issues certificates to the Controller of actions taken by the Senate when resolutions are passed appropriating money, and makes out weekly payroll.

MAILING AND FOLDING CLERK.

Folds and prepares for mailing all papers, documents, etc., given him by the Senate to fold.

USHER.

A new position created last session. Duties not defined.

ELECTRICIAN.

Should be provided by the Secretary of State. Some one should be in charge of the wires.

Engineer should also be provided by the Secretary of State.

MESSENGER TO STATE PRINTER.

Conveys orders, bills, and matter to be printed to the printer from Secretary's desk.

WATCHMEN.

Duties are to watch the Senate Chamber, and Senators' and Officers' desks. Divided into day and night watches. Senate Chamber is open all night. There should be two on in the daytime and two at night.

GATEKEEPERS.

Three Gatekeepers, one at each gate in the Senate Chamber. Doorkeeper has charge of the gallery.

MAIL CARRIER.

Carries mail to and from post office.

FIREMAN.

Should be provided by Secretary of State. Office was created this term.

BILL FILER.

A new office created this session. Keeps bills in numerical order, and has them bound in book form for each Senator.

STENOGRAPHERS TO COMMITTEES AND SENATE.

There should be five stenographers to the committees and to the Senate and its officers.

MESSENGERS AND PORTERS TO COMMITTEE-ROOMS.

There should be a sufficient number of Porters allotted to care for committee-rooms, and should be termed "Committee-room Porters," and their duties prescribed, so that the rooms would be attended to by them. A messenger should be allotted to each two rooms, but where a Sergeant-at-Arms to a committee-room is appointed, messengers should be abolished.

SAN FRANCISCO DELEGATION.

Custom has always given them a clerk, but no Sergeant-at-Arms heretofore; none is necessary.

In our judgment the duties of Engrossing and Enrolling Clerk can be combined in one office, with the same number of assistants as are now allowed to each. This reduction can be made by virtue of the change in the law by which engrossed and enrolled bills are printed, and as the law now stands, these officers go over the same work.

The bill which we report will reduce the cost for the session, for the officers and attachés, from the present probable cost of \$59,940 for the session to \$15,510, or a saving of \$34,530 for a session.

We have had before us the Secretary, Sergeant-at-Arms, and other officers of the Senate, and have carefully examined into every case of reported absenteeism or neglect of duty, which have been numerous, but after an extended investigation we find nothing which in our opinion is worthy of the attention of the Senate. The cases of which complaint has been made are not due to the willful acts of individual employes, but are incident to a system of appointment which furnishes no adequate means for the determination of the number of employes necessary, their wages or their duties, and which in practice, although not in theory, make them subject to the will of individual Senators, and not the servants of the whole Senate and under the control of its chief officer. On the contrary, we think it strange that there should have been so much promptness and fidelity as has been shown on the part of the great bulk of employes, and especially on the part of those who see others appointed to positions with equal pay which are in fact sinecures, or virtually sinecures, the existence of which is enough to demoralize the service. We do not wish to be understood as saying that all the employes have been punctual and constant in attendance, but that all those who have not been disabled by sickness have been ready to do any duty assigned to them at the call of their superiors, and whatever absence there may have been from the Capitol building, it has not interfered with the performance of any duty.

We further report that so far as this session is concerned, such officers and attachés as are not specified in the accompanying bill can be dispensed with, and that the salaries of such officers and attachés as are reduced in said bill, should be reduced at this session.

We further report that the clerks and attachés of committees, with the exception of the clerks of a few important committees, to be hereafter specified, can be dispensed with upon the expiration of the time for the introduction of bills.

In the place of Senate Bill No. 391, we report the accompanying substitute bill, and recommend that it do pass.

WITHINGTON,
HOLLOWAY,
LANGFORD,

PETITION—(OUT OF ORDER).

Senator Mathews presented the following petition, and the same was ordered printed in the Journal:

WHEREAS, A bill has been introduced into the State Legislature which proposes to transfer the State Mining Bureau in San Francisco to the State University at Berkeley, thereby removing the extensive mineral collection, library, laboratories, etc., stopping all field work, including present important petroleum investigations now being made in this vicinity, and practically abolishing the Mining Bureau, which is the only institution maintained by the miners of California; and whereas, the closing of the State Mining Bureau as a separate and distinct institution would tend to convey the impression that California's prestige is on the wane as the leading producer of the precious metals in the United States, while it has a valued output of about twenty millions of dollars annually, and its mineral properties show of late a marked revival in gold mining interests; and whereas, stoppage of these sources of information upon mineral and mining matters particularly, hitherto relied upon, would be detrimental to the interests of the State, as during the past year five hundred and ninety-four letters of inquiry have been answered, two thousand and seventy specimens examined and passed upon, six hundred determinations made to parties presenting these specimens in person, and four thousand copies distributed of a valuable bulletin on mine timbering,

this work still being in active demand and greatly appreciated by miners; therefore, be it

Resolved, That in view of all that has been accomplished by the State Mining Bureau in the past, and the greater good it is capable of in the future upon the general lines hitherto followed, this chamber is in full accord with all of its work, and considers the change as proposed will be prejudicial to the best interests of the mining industry in this State.

Resolved, That copies of these resolutions be sent at once to our State Representatives at Sacramento, with a request for immediate action.

(Signed:)

GEO. C. PARSONS,
Chairman Committee on Mines.

At eleven o'clock and forty-eight minutes A. M., on motion of Senator Voorheis, the hour of recess was extended for ten minutes.

I therefore most respectfully pray that you select a number of disinterested and eminent engineers, whose duty it shall be to immediately examine this work and report to your honorable bodies fully as to its character, the object being that the exact truth may be made known.

Very respectfully,

C. F. BASSETT.
